

us the blessed 'Inasmuch' be theirs. I often feel that our letters of  
we wants and thanks are not sufficiently explicit, and so they work on in  
er the dark."

.B. ONTARIO. *To Miss Benjamin, Yarker, from Rev. J. H. Dobbs, Lake  
St. Martin Reserve.*

s to "The box of clothing so generously sent me by the ladies of  
gen Yarker Branch W.A, has arrived, and I beg to thank you very much  
bu for what you are pleased to call your *mite*. The box was a long time  
un coming, but I suppose that the old adage, 'better late than never,'  
Ou still holds good. It was in first rate condition; it had been in the  
ing care of good friends who looked well after it; it had been in the care  
th of the Hudson Bay Company for some time. I knew nothing up to  
an date of the kind contribution from the ladies of Canada East; I wrote  
ild Mrs. Woodcock to that effect some little time ago; it may be some-  
lin where on the road. If I can manage to afford a trip to Westbourne  
an in the holidays, I will make full enquiry and let you know the result,  
rle if nothing satisfactory is learned; I will be glad to have it traced.  
ree With regard to early answers from Indian Reserves, it is often  
h impossible to return a speedy reply, as they are often a great distance  
th from the post office. I will write again as soon as I hear something  
ear of the bale. Do not be discouraged. God bless you all for your kind  
h Christian sympathy. Please send another *mite*, and let us hope  
l d better luck will attend it."

e t NIAGARA. *From Mr. David Curry, Christ Church Mission, Peace  
we River, to Miss Martin, St. Mark's, Hamilton.*

e f "By this time you will have heard of the change which has taken  
re place here at the mission. Rev. H. Robinson has gone to St. John's  
be and I am placed here in his stead. In some respects this has been a  
unghard year for me to begin, so many white men travelling through  
ell here; the Indians don't care for farm work, so I had to do most of it  
, myself with the help of a boy, 14 years old. I have 30 acres in crop-  
eb looking well. I am anxious that this should be turned towards sup-  
porting a few children. As I intend starting a school this winter, I  
; n have written to the Bishop that I would try to board a few of our  
of town, if the W.A. along with other help would furnish me with a  
meatron, who would also be willing to help teach, as I would get these  
me women to do the washing and house cleaning. I have put this hon-
