**Stock Exchange Notes**—Favorable reports of the Canadian harvesting and continued easiness in the money market have acted on the bull feeling on the stock market, and several stocks have advanced, notably North West Land Preferred 10, 10 1/4 and Commercial Cable 4 1/2 to 184. There have been slight reactions in various stocks.

As predicted by THE CHRONICLE several new stocks have been put onto the market, the latest being Dominion Coal Co., in the preferred stock of which an active business has been done this week at prices from 100 to 111. While we think that the bull market will continue for the present, we think it timely to caution the speculator and investor. A close scrutiny of securities at present prices is wise.
