THOROLD HYDRAULIC CEMENT MILLS JOHN BATTLE, Proprietor, THOROLD, - - ONTARIO.

DEAR SIR, I daily receive your letter of the 14th ultimo, requesting my opinion relative to the Cement manufactured in your establishment in Thorold, in reference to which the following is respectfully submitted: For the last forty years the best Hydraulic Cement which you sent me had been made in Ontario, and in every instance the result has proved highly satisfactory.

JOHN BATTLE, Esq., Thorold, Ont. Chief Engineer of Canada, Canada. QUEBEC, MONTREAL, OTTAWA & OCCIDENTAL RAILWAY.

DEAR SIR, I have legged with Kiehl's Testing Machine the tensile strength of six blocks made from the barrel of Thorold Hydraulic cement which you sent me last week. The blocks were made of one cement of 1 1/2 inches square at the smallest part. Four of them were kept 23 days in air, and only broke under the following weights: No. 1, 200 lbs.; No. 2, 270 lbs.; No. 3, 245 lbs.; No. 4, 200 lbs. averaging 237 lbs. each, or 194 lbs. per square inch. The remaining two were kept one day in air and forty-seven in water, and broke under the following weights: No. 5, 270 lbs.; No. 6, 250 lbs.; averaging 260 lbs. each, or 203 lbs. per square inch.
