

Most Japanese business people are enthusiastic golfers and may offer to arrange a game (and the loan of clubs) for their foreign business contacts. A game of golf is an excellent way to cement a personal friendship in Japan. Green fees are high. Courses are out of town so allow plenty of time for travel. There is no such thing as a "quick" game of golf in Japan with a typical golf day beginning from your hotel at 7:00 a.m. and ending upon your return in the late afternoon. Canadian business people could also entertain visiting Japanese with a game of golf here in Canada.
