

EXPLANATORY NOTE

The following document consists of the Table of Contents **only** of the CIIPS "Core Bibliography on Nuclear Weapons, Arms Control and Disarmament," covering the period 1945-1983. The actual text of the Core Bibliography is not being published, but is available in print form in the Institute's Library, and will soon be available in the Library's computerized data-base as well. Readers are invited to submit requests for photocopies of particular portions of the Core Bibliography, specifying particular categories and page numbers as found in the enclosed Table of Contents.

The Table of Contents itself is preceded by a "Summary" (pp. 3-7) laying out the broad framework of the Core Bibliography. It is intended to serve as a guide to the more detailed, comprehensive Table of Contents beginning on page 9, which includes the actual page numbers of the Core Bibliography's print version.
