

THREE ADDITIONAL ROUTES TO WEST

Will Thus Provide Eight Rail and Water Routes From Toronto to Winnipeg.

NEW STEAMER LINES

Will Be Established by C. N. R. Between Pary Sound and Port Arthur.

In the not distant future three additional routes between Toronto and Winnipeg will be in existence and thus provide three part water routes and five all rail routes, making a total of eight different means by which Winnipeg may be reached from this city.

Also no official announcement has yet been made, it is understood that the Canadian Northern Railway is contemplating a steamship connection between Pary Sound and Port Arthur. Should this be done and with the Transcontinental in operation it will mean that the Canadian Northern will have two routes from here to the west at present not existing.

The statement was made yesterday by officials of the Grand Trunk that the Northern Navigation Co. steamers providing connection between the Grand Trunk at Sarnia and the Grand Trunk Pacific at Port Arthur are to be run as late this year as navigation will permit. In addition to the Grand Trunk Chicago route to Winnipeg, all efforts are being directed to bring into operation for passenger service as soon as possible the new Toronto connection with the west via Grand Trunk to North Bay and thence over the line of the T. and N. O. to Cochrane, where connection is made with the C. T. R. Transcontinental to the west thus providing three Grand Trunk connections with Winnipeg.

It is also the intention of the C.P.R. to keep their steamship connection between Port McNicoll and the head of the lakes in operation as late this year as possible. With the Transcontinental and the Chicago connection, three C.P.R. means of getting to Winnipeg are available, making in all a total of eight rail and water routes between Toronto and Western Canada.

NO REDUCTION FOR BUCKWHEAT HONEY

Crop is Average and Price Will Remain Same as Last Year.

The crop report committee of the Ontario Beekeepers' Association met on Thursday, Sept. 4, to consider the crop of buckwheat honey. It was found that 252 members had reported 230,400 lbs. from 10,463 colonies, being an average of 23 lbs. per colony. This is about the same average as last year, and the committee advises members to ask the same price as was obtained in 1912, i.e., 7-12 to 8-12 per lb. wholesale, depending on the size of package and the quantity sold in one order. No buckwheat honey should be retained for less than 10c per lb. The white honey situation is practically unchanged. A great deal of crop has already been sold at prices recommended by the committee. Some of the dealers are making a determined effort to lower the price, but it does not seem at all necessary for any member to sell for less than the prices recommended by the committee.

LATE BENJ. BRICK WAS PROMINENT MAN

Had Been Contracting in Toronto for the Past Several Years.

Benjamin Brick, for many years a prominent Toronto contractor, passed away in his 68th year at his late residence, 408 Carlton street, on Sunday. The funeral is to take place at 2:30 p.m. Thursday from the residence to Mount Pleasant Cemetery.

Mr. Brick was a member of St. Andrew's Lodge, A. F. & M.; the A. O. U. W. and the Royal Arcanum, and was also associated with the Queen City Curling Club and the Builders' Exchange. He was a member of Sherbourne Street Methodist Church.

A widow and five children survive: Mrs. F. W. Fawcett, Victoria, B. C.; Mrs. John G. McKinnon, Boston; Mrs. Gerrard Noble and William J. Brick of Winnipeg and Benjamin Brick of St. Thomas.

COLLEGE SYLLABUS TO BE IMPROVED

Important Changes Are in the Making at Kingston Military Institution.

KINGSTON, Sept. 8.—(Can. Press.)—The minister of militia is dissatisfied with the syllabus of the Royal Military College, which he thinks is not up to date, and will see that it is improved. He is not satisfied with the work being done by the military staff of the institution. The curriculum is behind the times and the college does not give the educational training that it should. Col. Sam Hughes had a conference in Ottawa with the acting commandant and Prof. I. E. MacIn, the latter reporting to the minister to change essential in the syllabus. He will probably be made director of studies. It transpires that some military professors can hardly be said to give lectures, merely directing the practical work.

FEWER MURDERS IN CANADA

OTTAWA, Sept. 8.—During the year so far only seven convictions for murder have been brought to the attention of the department of justice, must pass for final disposition. This would indicate that there will be a marked decrease for the year, the number for last year being in the neighborhood of forty. The fact that the number of murders has decreased is a good sign, but it is not yet known whether this is due to a decrease in the number of murders or to a decrease in the number of convictions.

CITY SHOULD TAKE IN THE RAVINES

Ald. Hubbard Voices Sentiment of Inhabitants in Northeastern District.

"Among the several reasons why the city should annex more territory in the northeastern district, that of betterment of sanitary conditions has an importance that cannot be ignored any longer," said Ald. Hubbard. "The city is now a congested area, and many of the people there are complaining to me about the unsanitary conditions around their homes. One of the older residents told me that when her home was built in 1880, she had no near neighbors, and she was able to keep her property in good sanitary condition. Now she has neighbors all round her and some of them throw their dirty water where it drains on to her property. She is now an ardent annexationist and she is not alone."

There is no doubt in my mind that the northern and eastern bounds of the projected annex in the northeast should be so fixed that the forks of the Don are included, and the eastern branch of the Don should be taken in as far as Woodbine avenue. Ald. Hubbard said: "While we are annexing more territory in that section, we certainly must take in as much of the Don ravine as is practicable, for the beauty of those ravines is an undeniable asset to the eastern part of the city, as well as to the city as a whole. Our plans for a boulevard belt also require that we acquire the Don ravine before there is any probability of our losing possession of them."

INTERESTING POINT SETTLED BY COURT

English Justice's Dictum Regarding Christian Science Treatment.

LONDON, Sept. 8.—(Can. Press.)—The point whether the death of a child is due to the failure of a Christian Science practitioner during a serious illness, was decided in the affirmative by Justice Rowlatt in the central criminal court today. The case was actually tried by the defendant was acquitted because the charge was not proved.

Verdict of manslaughter was returned on Aug. 9 last by a coroner's jury against Benjamin Jewell, whose seven-year-old daughter died from diphtheria while undergoing Christian Science treatment. Jewell today pleaded not guilty, declaring he was not aware that the child was suffering from diphtheria. Justice Rowlatt directed the jury to acquit Jewell on the ground of insufficient evidence, but turning to the defendant he admonished him to be more careful in the future, saying: "If the case had been proved I certainly would have passed a heavy sentence, Christian Science or no Christian Science."

EMBALMERS GRANTED DIPLOMAS

Sixteen out of nineteen candidates who wrote the examination for embalmers' certificates last week before the Canadian Embalmers' Association examining board were successful. Those granted diplomas are: G. Harney, Linklater, Toronto; Frank C. Bishop, Elmville; H. S. Anderson, New Liskeard; John H. Sumner, Mount Pleasant; Albert J. Stanley, Menish, Stratford; H. A. Miller, Fenwick; Robert A. Currie, Wingham; J. C. McNab, Cobalt; G. F. House, Hamilton; W. A. Blaine, Grand Valley; A. B. Purdy, Prince Albert, Sask.; H. Gracey, Smithville; J. A. Krus, Stratford; Ralph Stapleton, Toronto; and R. C. Bannister, St. George. The examiners were: J. J. Marsh, Smith's Falls; J. C. Van Camp, Toronto; and R. W. Stone, Toronto.

ROUND THE GLOBE MEET IN TORONTO

Five Former Members of Cape Colony Foregathered in City Yesterday.

REAL RACE PROBLEM

In South Africa is the Native Population, Says Hon. William Ross.

"Toronto is one of the important meeting points of the world," said Honorable William Ross, M.P., of Cape Colony, Africa, a guest at the King Edward hotel yesterday. "Some time ago I decided on a trip around the world, with a few weeks shooting in Scotland, and by cable arranged a meeting in this city with my brother-in-law, Sir James Silverthorn of Scotland, who I knew contemplated a visit to Canada. I arrived here Saturday night, and this morning had the pleasure of welcoming Sir James and his party on their first visit to the city." Speaking of the country in which he makes his home, Mr. Ross said that South Africa is face to face with a race problem, which makes the negro question in the United States pale in comparison. The blacks in South Africa at the present time, outnumber the whites, two to one, and as there is practically no immigration into that country, and with five blacks born to every white child, another generation will see it five-sixths black. Hon. William Ross, for twenty-eight years preceding the war, was a member of the Colony Government, and since that time has been a member of the executive of the Cape Colony Council. He is passing first Toronto en route for England. When interviewed by The World at the King Edward Hotel, yesterday, he said it was the black problem and not the racial difference between the Boer and the British that would occupy the future attention of his country. The loyalty of the Boer to the British flag was now an established fact. Indeed he could, without hesitation, say that they would stand shoulder to shoulder with the British in defence of their country, against every other nation of the world, Germany included.

CURRENCY BILL IS STILL UNDER FIRE

Temporary Stay Until Tariff Bill is Cleared Out of the Way.

WASHINGTON, Sept. 8.—(Can. Press.)—Democratic senate leaders decided today to move further toward an agreement on the administration currency bill until it had passed the house. After a conference with colleagues on the banking committee, Chairman Owen tentatively approved the plan. The hearing, begun last week and resumed early today, will be suspended about two weeks and when the tariff bill is out of the way many senators will leave Washington for a short rest. It was predicted today that consideration of the bill in committee will continue until the middle of October before it will be possible to estimate what support it can command in the senate.

SIR IAN FOR NEW ZEALAND

LONDON, Sept. 8.—General Ian Hamilton, who left yesterday to attend the manoeuvres, has it is officially stated, been invited by the New Zealand Government to inspect their forces next spring.

If you want a clinking drink—one that will give you a feeling of delightful freshness, and put a dose of vigor into you, try a Ginger Ale and

Wolfe's Schnapps

It's as pleasing to the palate as the most delicate cocktail, and will do you immeasurable good. As a slice of lemon cleans the palate, so a glass of WOLFE'S SCHNAPPS clears the functional organs of the system of the waste matters which are productive of disease. Tone and strengthen the liver and kidneys with a pleasing natural product. Get a hold of perfect health by the aid of a perfect drink—WOLFE'S SCHNAPPS.

Obtainable at all Hotels and Retail Stores.

NOT A BUS FOR TORONTO SERVICE

London Syndicate Makes Denial of Report—Project Not Abandoned.

LONDON, Sept. 8.—(C.A.P.)—A representative of the London syndicate which is again considering the possibility of running an omnibus service in Toronto, denies the report that a number of buses are now being constructed here by another concern for Toronto service.

"This report," says Messrs. Shoop, "is, no doubt, associated with the company which unsuccessfully sought a franchise from the civil authorities some time ago, but you can say positively there is not a single 'bus' on order yet. We ourselves, have not abandoned the idea of a Toronto service, but there are certain points which we hope to settle with the civil authorities, and which have temporarily delayed matters."

A party of some forty Fort William, Ontario, businessmen left Fort William on September 3 for a week's tour over the Grand Trunk Pacific Railway, through the prairie provinces, going as far west as Tete Jaune, and stopping over a day at Winnipeg, Saskatchewan and Edmonton. The trip was organized under the personal supervision of Major G. A. Graham, and will permit the party to view the harvesting operations now at its height in western Canada, as well as the Fort William citizens an opportunity to become better acquainted with the citizens of the west.

McMURRICH FALL FAIR

On Wednesday, September 10, from 2:30 to 5 o'clock, there will be held in McMurrich School, Hamilton, a Fall Fair, when prizes will be given by the Toronto Horticultural Society for the flowers and vegetables cared for by the pupils. During the summer, medals for the best kept gardens will also be awarded. All parents and friends will be heartily welcomed.

WILL USE NEW LINE EARLY IN NEW YEAR

Construction of Windsor-St. Thomas Hydro Line is Rapidly Being Completed.

The last formalities in connection with the acquisition of the Windsor-St. Thomas line have been completed by the Hydro-Electric Commission. The work on the first link between Windsor and Chatham has been pushing on merrily for some time and the final contracts of settlement thru St. Thomas have now been signed by Hon. Adam Beck.

The fact that the signature was made at recent date did not delay the work on this portion, the consent of the owners having been secured some time ago. Already the right of way for this 18-mile stretch has been cleared and the construction will now proceed rapidly. At this rate the commission is confident of running the first supply of power thru early in the new year.

HIGH AVERAGE YIELD IN WEST

Manitoba and Saskatchewan Farms Net Twenty Bushels to the Acre.

Western traffic officials of the Canadian Northern Railway, have notified the Toronto headquarters of the company, that eighty per cent. of the wheat in the provinces of Manitoba and Saskatchewan is now in stock, and that the average yield for these provinces will be twenty bushels to the acre. They also state that by the middle of the month there will be no wheat left standing, and that the grain will be pouring into the elevators as fast as it can be handled.

STEEL CAGES FOR DESPERADOES

KINGSTON, Sept. 8.—(Special) Steel cages which are to be placed around the cells of Bonner and Frank Jones two Stony Mountain prisoners in the penitentiary here are being rushed along. These men have been given every chance to behave, but they will not obey rules they will be given no liberty. They are in the confinement ward along with eleven other prisoners. They do not work and the only fresh air they get is about thirty minutes each day. The cages are not the first to be placed in prison. Chartrand, an insane prisoner, who has three times tried to escape, is kept in one of them.

WAGES ON THE WELLAND CANAL

ST. CATHARINES, Sept. 8.—(Special)—E. N. Compton, inspector for the Department of Labor, is in the city to look after the observance of the fair wage clause by contractors on the new Welland ship canal.
