COULDN'T GET STOCK

Hargrave Buyers Were Not Able to

Hargrave stock was not among the active Cobalt issues yesterday, but this was mainly due to the difficulty of getting stock. One buyer was in the market for 100,000 shares at current prices, but the stock was not to be had. Those who are buying Hargrave firmly believe that it will cross its old high price of about 63, now that the value of the company's 80 acres has been sufficiently proved to show its value.
