

for the present Russian Government, but as conditions now are, there are incessant developments and endless frictions in the frontier region. However, our principle is to stand on the basis of peace made at Brest-Litovsk and we will carry out this peace loyalty and will deal loyally with the present government.

"They are still under the depressing influence of a terrible crime in Moscow. The murder of our ambassador there was an act in violation of international law than which a worse could never cry to heaven.

"All indications point to the fact that the accused deed was instigated by the entente allies in order to involve us in fresh war with the present Russian Government—a state of things which we are most anxious to avoid. We do not want fresh war with Russia. The present Russian Government desires peace and needs peace, and we are giving her our support in this peaceful disposition and aim.

"On the other hand, it is true that political currents of very varied tendencies are circulating in the Russian Empire—movements having the most diverse objects, some as an anarchist movement of the constitutional democrats and the movements of the social revolutionaries.

"We will not commit ourselves to any political current, but are giving careful attention to the course Russia is steering."

Praise for Von Hintze

In connection with this point, the imperial chancellor passed to a review of the political situation in the west. He then spoke of the reasons which led to the resignation of Dr. von Kuehlmann and concluded "The name of the man who is proposed as Dr. von Kuehlmann's successor is known to you. Admiral von Hintze possesses a thorough knowledge of Russian affairs, which is a matter of great importance in the present situation. But it goes without saying that I will give my counter-signature to the appointment of Admiral von Hintze only on condition that he follows my line of policy and not his own.

"However, since as I am concerned, I already have a sure guarantee for this in Admiral von Hintze's promise. I will direct the line of foreign policy and the secretary of state in the affairs has merely to carry out my policy. The proposed secretary of state for foreign affairs is absolutely clear on this point. The course which the great majority of the Reichstag declared itself to be in agreement in November of last year, will still be followed."

POLICEMAN RUNS DOWN YOUNG PURSE SNATCHER

After an exciting chase through a maze of traffic on Yonge street at 6:45 yesterday evening, George Cook, aged 15, who gives his address as 714 Parliament street, was arrested by Police Constable Skinner (163) of Court street station on the charge of snatching a woman's purse from her arm.

According to the police, the woman was walking on Dundas street, near Richmond, when she bumped into her and grabbed the purse from her hand. The woman shouted, and Skinner, who was in vicinity, came to her aid and succeeded in catching the key at the corner of Bay and Temperance streets. The purse contained a small amount of money and a return ticket to Gravenhurst. The woman had come to Toronto for the Twelfth and had intended to return yesterday evening.

WAR SUMMARY

THE DAY'S EVENTS REVIEWED

Fighting in Albania has spread from the allied right wing, which began the action, to the allied centre, held by Greek troops, and is now fiercely raging on a front of nearly 100 miles. On the coast the Italians officially report only the clearing of the captured ground, but other news is that they have captured Berat, opening the road to Serbia. The French, who are operating on the Italian left, have continued their advance astride the Devoli River. On the right bank of this stream they have captured the heights of Kayani, and on the left bank, except at the heights commanding the confluence of the Devoli and the Tormoria, they have cleared the whole mountainous region between the two waters. Further to the east the Greeks have shown impatience to be off. The attack on the Bulgarians, which will shortly begin. It will probably be an attempt to head off their line of retreat, so as to compel a disastrous retirement from Macedonia.

THE WHOLE ALLIED POWERS, IT IS SAID, HAVE ABOUT EQUAL FORCES TO THE GERMANS, THE DIFFERENCE IN STRENGTH IN FRANCE AND ITALY MUST BE DUE TO THE DIFFERENCE IN DISTRIBUTION OF FORCES. THE ALLIES MAY HAVE DEVELOPED THE MARGIN OF DIFFERENCE TO THE ITALIANS IN ORDER TO BREAK AUSTRIA-HUNGARY.

The breaking of Austria as much as the breaking of Germany is said to be essential for a complete allied victory. This strategy is to erect a barrier between Berlin and Bagdad and to draw Russia into the orbit. In order to defeat that strategy the allies must clear the enemy out of Turkey, must conquer Bulgaria, must liberate the Slav races of Austria-Hungary and erect them into independent states. This is the authoritative view of the experts, including Wyckham-Steed and Seaton-Watson, and Andre Cheradame, requires only a moderate exercise of the imagination to perceive that a defeated and revolutionary Austria-Hungary would serve as a serious menace to south Germany, for the frontier between Germany and Austria is open and easy to cross.

IN A SHARP ACTION AT CASTEL IN HUNGARY, YESTERDAY THE FRENCH CAPTURED GERMAN POSITIONS TO A DEPTH OF OVER 2000 YARDS ON A THREE MILE FRONT. THEIR GAINS INCLUDE THE POSITION OF CASTEL VILLAGO, WITH THE SUBSIDIARY WORKS OF THE ANCHIN FARM AND OTHER STRONG REDOUTS. THEY TOOK 500 PRISONERS. THIS ACTION CAME AFTER THE CAPTURE OF LONGPONT, ON THE ALIENS FRONT, BY THE FRENCH. THE ALLIED SUPREMACY COMMAND DISTINGUISHES THESE ACTIONS FROM TRENCH WAR. THE ACTIONS UNDER PRESENT CONSIDERATION ARE OFFENSIVE MOVEMENTS ON A MODERATE SCALE, WHICH DIFFER FROM THE ENEMY'S ATTACKS ONLY IN DEGREE.

Two points stand out in the speech of Von Herting, German chancellor for the time being. These are that allies have to make the first moves to begin peace negotiations and that Germany will insist upon retaining her Russian conquests. The speech betrayed manifest uneasiness over the course of affairs in Russia and it disclosed that Russian conditions were of sufficient seriousness to induce the German general staff, the kaiser, and others, to hold a special conference at headquarters. Germany, in brief, has abandoned her peace offensive as a factor in warring war, but she is afraid that she will fall in the east.

FAKE COAL DEALER HAS A NEW SCHEME

Takes Order, Delivers Part and Demands Pay for Full Ton.

Several Earls Court families have been victimized the past few weeks by men peddling coal, who, it is alleged, have taken advantage of the coal situation and asked a high price.

The method adopted by these peddlers is to call at a house and offer to supply coal at \$10 a ton in any quantity, and when the first load is delivered—they never bring more than one load, so one time—dump it into the cellar and demand the \$10 for a full ton, which, it is alleged, they never amount to 1200 weight. No coal bill is presented, and the men, it is said, are working without license.

To a reporter for The World, Rev. Mr. Miller, of the residence of her son, was quite sure that peddlers were delivering short-weight coal to many families in the neighborhood, and that he had investigated two cars, referred to in the coal yard, where a man of the name of Bailey had purchased coal to sell, and found that his orders had all been paid for, but that the coal was only the same—1200 weight.

It is not clear, however, how good the loss, also not responsible in any way to the consumer.

It can not be found.

Mrs. Switzer, 263 Glenhorne avenue, confirmed Mr. Miller's statement, and she had ordered a ton of coal from a young man named Bailey, but had only received 1200 weight, and that she intended making application to the city hall. Mrs. Falconer of Millicent avenue also mentioned the same man, who cannot now be located.

Upon enquiry at Muldoon's coal yard West St. Clair avenue, the firm stated that Bailey had purchased coal in charge, with the names of various persons, many had actually been made good, since found on the sidewalks of Lauder and Glenhorne avenues.

PASSENGERS PRAISE TRAIN CREW'S WORK

The prompt action of the train crew on the C.P.R. express that jumped the track, as the result of a spread rail, three miles east of Zene, near Smith's Falls, yesterday afternoon, is greatly praised by the passengers who were travelling from Montreal to Toronto on the express. It is claimed that had the engineer and the conductor not succeeded in bringing the train to a stop within its own length, as they managed to do in spite of the great speed at which it was traveling several of the passengers would have probably been killed and a large number wounded. As it is, only a few members of the crew were injured. The engineer, John Tomson, suffered a double fracture of the right leg, and had one arm broken. Bagsgoman Rattelle suffered a broken right arm and bruises about the head, and Conductor Bell was injured about the face and hand. The passengers all escaped with a severe shaking up.

COULD NOT PLACE HER ORDER FOR COAL

Unable to place an order for coal, altho the payment in advance was tendered, was the experience of a resident of the Riverdale district yesterday. I tried three reputable dealers and money was paid, but the order and tender payment for delivery within a reasonable time, but both the order and tender were returned to me. The woman to a reporter for The World, "The excuse given was that there was no coal in stock, and to apply again within the next few weeks. I am absolutely without fuel, and it cannot get coal now in this summer what will be the prospects for a supply in the winter?" she asked.

VETERAN RELATES HOW HE WAS SAVED

Pte. Tress Was Carried Out of Danger at Passchendaele by Corporal.

Among the men returned from overseas who were in the trenches at Passchendaele, Pte. Tress, 121 Lansdowne avenue, requiring the support of a cane, has been in various hospitals in France and England, and was decorated in honor of his homecoming, and many friends and relatives were present at his arrival home and had a huge birthday cake decorated with flags and a banner.

Pte. Tress enlisted March, 1916, with the 14th Battalion (Beavers), went overseas March, 1917, was drafted to the 14th Machine Gun section, and sent to France in the Twelfth August. He received a shrapnel wound at Passchendaele last October, since when he has been in various hospitals in France and England.

That Pte. Tress is alive at all is due to the gallant conduct of Corporal J. A. Donohue, a French-Canadian, which was described in a letter from Pte. Tress as follows:

"I was unable to get up, as the concussion had knocked me pretty well out. Corp. J. A. Donohue, who was in charge, then showed what kind of a man he was. He was the only one who was left to run for their lives. He came back to two dead men and after making certain that they were dead got me on his back and placed me under a Red Cross ambulance that German kiltur got me on his back again. How we covered the distance of two hundred yards without being blown to atoms is only accounted for by divine protection."

New Toronto

NEW TORONTO STARTS A GENERAL CLEAN-UP

The council of New Toronto, seeing the necessity of improving the appearance of the town, has issued the following notice to residents:

"We, your council, feel that some improvement should be made to the appearance of our town. At the present time an observer notices the general untidiness of the streets, boulevards and vacant lots. On account of the prevailing conditions of labor it is impossible to employ men to clean up the streets and boulevards as they ought to be done. It appears to us that by co-operation of the citizens a big program could be accomplished and our town beautified. We would ask you personally to have all the vacant lots cleaned up on or before July 20. Special arrangements will be made to have the same picked up and carried away."

Plumbing Economy

The Shannon idea of rapid motor car service—with every tool and utensil in the car—and no charges for going or coming from a job, means economy in time—economy in cost. There can be no loitering on the way—no time lost—no unnecessary charges. We eliminate the old-time charges which were multiplied in going to and fro—returning for forgotten tools. The mere hiring of a Shannon method emphasizes its advantages.

WE ANSWER CALLS DAY OR NIGHT. ANY JOB, LARGE OR SMALL.
