"MAY DAY" IN CANADA GOOD TIMES FROM COAST TO COAST 'S GENERALLY PEACEFUL

Coal Strike in West the Only Serious Feature of Labor's Day For Sec. Taking - Skilled Workmen Are in Demand.

SUDDEN INFLUX OF CHINESE NOTED ON PACIFIC COAST

From coast to coast, with the exception of the coal fields in Alberta and British Columbia, there are no labor difficulties of a serious nature to record to-day.

In Nova Scotia, however, the miners are dissatisfied with the operations of the Lennox labor bill, and Mackenzie King is expected to hold meetings to clear matters up.

In Toronto, the dispute between the milk producers and the dealers may result in inconceivable losses to citizens of all classes.

The question of Asiatic labor has been a serious one on the Pacific coast during the past few months.

In this connection The World's Victoria correspondent writes: "At present, laboring men are being given something to think about by arrival from China of 23 Chinamen during the month of April.

The fact is, however, that the number which entered the province for all months preceding it since the new regulation came into effect at the beginning of 1904.

No Chinamen arrived in this province since the new tax was imposed until last April, when one arrived. May brought another.

Strike in the Coal Fields Bad for the B. C. Mines

VICTORIA, B.C., April 30.—(Special.)—It is very evident that relations between employers of labor and laboring men have been so harmonious as at present, and with the exception of a strike among the boatmen at the British Columbia Marine Railway, there have been no differences.

The demand for labor is increasing, but workmen appear to be contented with wages, and there are no signs of any trouble.

The carpenters and joiners recently made a request for a raise which gave the employers but little notice.

In Vancouver a settlement has just been arrived at in the strike with the carpenters.

The strike in Fernie, however, is being felt at the coast, and unless a settlement is arrived at shortly it will make it very bad for the coast merchants.

Effects of the strike are already being felt in commercial lines for the C.P.R. is now refusing freight, owing to the threatened shortage of coal.

During the past winter, when there was an unprecedented demand for coal, smelters were forced to operate on a hand-to-mouth supply of fuel.

Eastern Miners Working Due to Union Efforts

HALIFAX, N.S., April 30.—(Special.)—The labor situation throughout Nova Scotia is all that could be desired by both master and man, and a season of vigorous and uninterrupted operations seems assured.

In mining work, which is always a most important factor in the labor problem of this province, peace, pre-

3 ARRESTED FOR CONSPIRACY. Sensational Outcome of Policyholders' Election Work.

NEW YORK, April 30.—Sensational news have quickly followed the enquiry by the district attorney's office into the recent election of directors of the New York Life Insurance Co.

George R. Scroggins, manager of the international policyholders' committee, which inspired the present investigation, making grave charges against those who conducted the election, was himself placed under arrest at Albany to-night.

Scroggins is charged with conspiracy and was the third man identified with the international policyholders' committee to be taken into custody to-day.

They are specifically charged with having unlawfully conspired together for the perversion and obstruction of the laws of the State of New York, with relation to the election of directors of the New York Life Insurance Company.

Earlier to-day Jacob Frank, a New York Life Co. agent was arrested charged with forgery in the third degree. Frank had been summoned to explain the signatures of several policyholders to alleged forged ballots cast at the recent election of directors of the New York Life.

Princetakes Cash MONTENEGRO REBELS Puts on Too Much Style at the Expense of His People—Outbreak Serious.

VIENNA, April 30.—The revolutionary movement in Montenegro, where a military government has been proclaimed and armed bands are reported to be marching on Cetinje, the capital, assuming a serious character.

The disorders are said to be rapidly spreading throughout the country. The centre of the discontent is at Andrievica, the headquarters of Vasojevic, the headquarter of the most powerful and strongest clan in the principality.

The rising is attributed largely to the alleged attempts of Prince Nicholas to increase the tax on salt and to his incessant drain on the public purse for the purpose of carrying out his private banking account.

Even some of the Emperor Nicholas' specific public projects are said to have been diverted to the enlargement of the prince's income and his attempt to ape the customs of the courts of more important countries.

The marriage of the prince, Helena, to King Victor Emmanuel of Italy, increased Prince Nicholas' ideas of his own importance and the estrangement between the ruler and the people of Montenegro.

The constitution granted to Montenegro turned out to be merely a change of name and not of system, and so soon as this was realized a feeling of dissatisfaction became pronounced and a revolution broke out.

The cabinet appointed by Prince Nicholas has been turned out by the Skupstina (Montenegrin parliament) one after another, most as rapidly as they were appointed.

The attempt to suppress the radical independent newspapers, the revolutionary fumes, the clans were summoned to meet at Andrievica, and the delegates of the three principal clans heavily armed.

The prince replied by declaring martial law and calling out the militia to prevent the revolutionary movements from entering the capital.

In the meanwhile the Tomonovics ministry resigned.

DR. DWYER DIVORCED. His Wife Granted Separation at St. Louis, Mo.

ST. LOUIS, April 30.—(Special.)—Mrs. Theresa Dwyer, 4311 Forest Park-boulevard, was granted a divorce from Dr. Robert J. Dwyer of Toronto, Canada, by Judge Reynolds to-day.

Dwyer testified that his husband said consensual, the light furnished being equal to that of SIXTY sixteen candle-power incandescent electric lamps, running for five hours, or four thousand eight hundred candle-power for one hour.

At present using incandescent electric light, one thousand candle-power for one hour in Toronto costs over thirty cents, and no method of transmission of electric energy from Niagara or anywhere else will ever cut down the cost by more than a few per cent.

Machines for using Ethinite are on hand at the offices of the Siche Gas Co., Ltd., 81 York-street, Toronto; 34 West Craig-street, Montreal; Brandon and Winnipeg, Manitoba, and Plainfield and New York, in the United States. Full information on application.

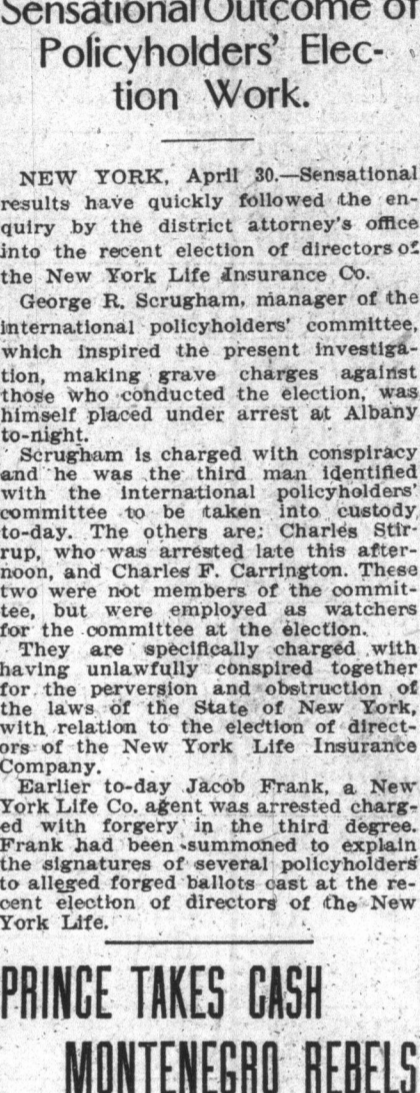

Ethinite will be on exhibition at a motor show at the offices of the Siche Gas Co., Ltd., 81 York-street, Toronto; also the lighting and heating apparatus. A motor is being built and power from Ethinite will likely be demonstrated next week.

SHOW OF ARMS AID TO PEACE

Germany Won't Discuss Disarmament at The Hague.

BERLIN, April 30.—In the Reichstag to-day, several speakers suggested to Chancellor Von Buelow that Germany should take no part in the discussion of the limitation of armaments at the Hague peace conference.

Chancellor Von Buelow, in reply, said that Germany did not object to letting other powers discuss the matter, but Germany would hold aloof. He referred to the recommendation of the first peace conference, that the powers study the question of the limitation of armaments.

"Germany," he added, "has complied with this recommendation, but has not found a formula which takes into account the great diversity in the geographical, economic and military positions of the various states, or one which would be calculated to remove those diversities and serve as a basis for a treaty."

Doesn't Mean War. The chancellor then remarked: "Germany's abstention from the discussion of the question does not mean that she cherishes a secret desire for war, or that she is actuated by military ambition or other selfish motives."

"Other powers feel the same way as Germany regarding the limitation proposition, and many friends of peace in France, Great Britain, Italy and the United States think it would not serve the cause of peace to give way to ill-considered and less sight of realities. Germany hitherto has secured peace by keeping in readiness for war. This policy has been proved to be a wise one."

"We never once misused our military strength, and never will. Many persons have advised us to take part in the discussion of the limitation of armaments in order to show Germany's goodwill, since nothing is so common as the great diversity in the geographical, economic and military positions of the various states, or one which would be calculated to remove those diversities and serve as a basis for a treaty."

MINE UNDER STREET EXPLODED TO KILL GUATEMALA'S RULER

President Cabrera Has a Close Call While Driving—Horses Killed and Escort Wounded.

GUATEMALA CITY, Guatemala, April 29.—President Estrada Cabrera of Guatemala narrowly escaped assassination to-day.

He left his private residence at 7:30 in the morning for his customary drive, accompanied by his staff. On arriving in front of some houses on Seventh-avenue, between 16th and 17th-streets, an explosion, at first supposed to be caused by a bomb, occurred, killing the horses attached to the president's carriage, wounding the coachman and injuring several staff officers, including Gen. Orellana, the chief of staff.

The president, who was not injured, displayed great presence of mind. Alighting from the carriage he inspected the surroundings and then returned on foot to his residence.

An inspection of the scene showed that the explosion had not been caused by a bomb, but by a mine. The conspirators dug a tunnel from one of the houses mentioned, reined by a man named Raul I. Rodil, placed explosive under the roadway and connected them by a wire with a battery in Rodil's house, and from there caused the explosion.

Many suspects have been arrested, but it is not known whether the would-be assassins have been taken into custody. The president has received many congratulatory messages on his escape.

Peace prevails throughout Guatemala, and the government is confident that the situation will hold under control.

Crown Obtains an Appeal. OTTAWA, April 30.—In the case of the release of the Buckingham strikers, charged at Hull with manslaughter, the crown has secured an appeal which will come up in the morning.

GENERAL KUROKI COMING. VICTORIA, B.C., April 30.—(Special.)—General Kuroki, the famous Japanese officer, who is coming on a tour of Canada, is due here to-morrow.

MINERS RESCUED. JOHNSTOWN, Pa., April 30.—The seven men imprisoned since last Friday in the Berym-White Mine at Foustwell were rescued to-night.

LAURIER SATISFIED WITH RESOLUTION OF 1902

Australian Premier Asks for Preferential Treatment to Colonial Products.

LONDON, April 30.—The imperial conference to-day took up the question of tariff preference. Several of the members of the British cabinet were present, in addition to the Earl of Elgin, the colonial secretary, who presided. The latter expressed the hope that a harmonious feeling would prevail during the discussions of this subject.

NO BOOZE WHERE OPTION BYLAW WAS IRREGULAR

Government Orders Commissioners to Refuse Licenses in Such Municipalities.

Premier Whitney made the following statement to the press yesterday in reference to the question of issuing licenses in districts where local option has been carried, but by an irregular vote.

"It would seem that so far as older Ontario is concerned the government has not the power to forbid the issuing of liquor licenses; the power of issuing or refusing resting with the commissioners. Instructions have, however, been sent to the commissioners in every one of the municipalities where local option bylaws having been passed have been set aside by the courts for technical reasons instructing them that the government desires that no licenses be issued in the coming year."

BROWNLEE'S NEW POSITION. Appointed General Transportation Manager of the G. T. R.

MONTREAL, April 30.—(Special.)—A circular has been issued appointing W. G. Brownlee, general transportation manager of the Grand Trunk and stating that the position of that vice-president has been abolished.

A. A. Truesdale is to be assistant general transportation manager. M. C. Sturtevant, general assistant to the general manager of the Grand Trunk Pacific, has resigned that position.
