coni's latest announcement.

Sir Henry Pellatt, director of the G.

N. W. Telegraph Co., said:

Telegraph Co., the Nestor in the Can adian telegraph world, said: "I don't take much stock in the wireless business. It is yet in an experimental stage and will probably never interfere with the cornings of the cople fere with the earnings of the cable Aemilius Jarvis, a director of the

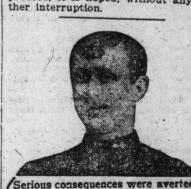

Dominion Telegraph Co., had no opinion to offer. "I have just returned from a three weeks' cruise on the ocean waves in a sailing vessel, not equipped with a Marconi service, hence I have been out of touch with the world and have nothing to say at present regarding wireless telegraphy and its relationship to cable earnings."

The outcome of the Marconi experiments between Canada and Ireland from a commercial standpoint during from a commercial standpoint during the next few weeks will undoubtedly be watched with marked interest by the entire world.

THOROLD SMELTER PROCEEDS Last Rails Are Being Laid to Present sugar, with a few drops of ammonia and tannin.

Work Started Again by Construction Company.

ST. CATHARINES, Sept. 25.—(Special).-Work has at last started on the Thorold smelter. This will be learned with pleasure by the people in Thorold, who have been anxiously waiting for the work to recommence.
The Clinton Sand & Gravel Construction Company have engaged a gang of men and the work will now proceed, it is hoped, without any further interruption.

Serious consequences were averted at Kingston by Zam-Buk. Blood Poison through stocking dye has on more than one occasion proved serious, and such might have been the case with Mr. Thos. Foster, of Kingston, had it not been for Zam-Buk. Mr. Foster, formerly an officer in the Horse Artillery stationed at Kingston, says:—

"Last fall I had a nasty sore on my foot caused by the trritation from a projecting eyelet in my shoe. Before I was aware of it the colored sock I wore had poisoned the flesh and I suffered much in consequence. I tried a good many salves and ointments yet there was no improvement until I began with Zam-Buk. This ointment drew out all the inflammation and poisonous pegan with Zam-Buk. This cintment drew but all the inflammation and poisonous matter and healed the sore in several days after applying. You can publish this statement if you wish for the merits of Zam-Buk cannot be to widely known."

DOES THIS INTEREST YOU? A prominent physician, fa-mous for his success in the treatment of kidney and bladder diseases, attributes a great deal of his success to the fol-lowing simple vegetable prescription: One ounce Fluid Extract

One ounce Compound Salaone; Four ounces Compound Syr-

mix, shake well, and take in teaspoonful doses, after each meal and again at bedtime. meal and again at bedtime.
Your druggist can supply the ingredients, and the mixture can be prepared at home at very little expense.
This, the doctor says, acts directly on the kidneys, assisting them to filter the poisons from the blood and expel same in the same time re-

During the recent flight of the Lusitania across the Atlantic friends on land were able daily to converse with friends aboard this leviathan without any more effort than telegraphing from Toronto to Montreal. This appears very wonderful; it is wonderful, but it only reflects the spirit of the twentieth century.

Marconi Rates.

The rate on board the Lusitania from mid-ocean to the United States or Great Britain is 8s 4d, or about \$2 per ten words, address and signature free; land charges additional. Ship to ship messages, that is, from the Lusitania to any other ship floating on the ocean to the ocean to the spirit on the line of up-to-date of duty.

Marconi Rates.

The station at Clifden, Ireland, is one of the most complete and modern statics in the world. The one at Morien machinery, len is also in the same class. Both the Irish and Canadian plants are fitted up with all the most modern machinery. Everything in the line of up-to-date ness is embodied in both plants. Any operator could work the wireless system with a short training.

"I am in daily communication with Clifden, and was speaking to them to-day. We are testing the machinery on that side. Before the station is opened to any other ship floating on the ocean to cent rate.

"We hope to do the bulk of our business with the press people.

Fred McCully, being wanted here for a hold-up on the market.

P.O. CLERKS COMPLAIN

Civil Servants Appear Before Commission With Argument for Better Treatment

The civil service commission com-menced its labors at the postoffice yes-terday morning behind closed doors. Letter carriers, railway transfer agents, mail clerks and postoffice officials were

Ingredients, and the mixture can be prepared at home at very little expense.

This, the doctor says, acts directly on the kidneys, assisting them to filter the poisons from the blood and expel same in the urine, at the same time restoring the kidneys to healthy, normal action.

We feel that a great many readers will be pleased to learn of this simple prescription, and knowing the ability of the physician whose formula it is, we do not hesitate to recommend it to any sufferer.

MARCONI CALLS IRELAND

EVERY DAY OF WEEK NOW

Outlook for Wireless Telegraphy is Bright — Secrecy of Messages is Now Assured.

Heard.

The letter carriers asked for an increase cost of living. They claim their present pay is less than that of laborers, and they desire an increase of 33 per cent. Mr. Ross, the deputy postmaster, opposed it, saying the carriers were not of the same physique as laborers. He recommended a revision of the scale of pay by substituting a graduated scale, ranging from \$1.50 to \$2.50 a day. The carriers also asked for an increase of the same physique as laborers, and they of the same physique as laborers, and they of the same physique as laborers and the strength of the same physique as laborers, and they of the same physique as laborers and their present pay is less than that of \$2.50 a day. The carriers also asked for an eight-hour day, 48 hours per secule of sunday, and the right where the physical pays t The letter carriers asked for an in-

SYDNEY, N.S., Sept. 25.—Signor Maration Act in order that stability might coni was interviewed to-day at his men secured. Mr. Jessop laid special wireless telegraph station, Port Mbrien:

The death took place yesterday after a week's illness of diphtheria of Irene, the six-year-old daughter of Capt. Alec Gunn of the fire department. The little girl had hardly recovered from an accident, in which she broke her arm while in the country on vacation. Interment took place yesterday afterncon from 56 Simpson-avenue to Norway Cemetery.

SNOW ON LAKE SUPERIOR.

DULUTH, Minn., Sept. 25.—Snow fell over Lake Superior region yesterday. There was a considerable snowstorm over the Vermilion iron range. Similar reports come in from towns along the south shore as far as Ishpeming and Marquette.

Suicides on Lover's Coffin. epidemic of diphtheria is raging at Quyon, Quebec, near here. There to an undertaking establishment, and, have been two deaths there in a throwing herself upon the body of her week. Three families are now down with the disease, the schools and churches are closed, the provincial health officer was asked to go there,

NORTH

Boiled Water May be Safe to POINT OUT HARDSHIPS Drink, But it is Not Fit to Drink

Toronto city water will never be really fit to drink while the sewage of the city mixes with the city's water supply. It is doing that to-day. See what Dr. Amyot of the Provincial Board of Health tells you.

Dr. Amyot Says City Water Contains Some Sewage Bacteria.

Boil the drinking water," is the advice of Dr. Amyot the Provincial Analyst, to the people of Toronto.

"The water has been infected for the last two and a half weeks, and still is," said Dr. Amyot. "It has been fairly clear all summer until recently. I do not know where it comes from, but there is sewage bacteria in the water."— From The Toronto News, Sept.

Even though you boil the city water, you won't make it fit to drink. Boiling kills the living disease germs that infest every drop of polluted water, but-no boiling will remove the filth from the water.

You must drink plenty of water to keep healthyto flush out the body's wastes—to keep the diges-tion active, the blood clean, the brain clear. Ten glasses a day is none too
