EIGHTEENTH YEAR

CROW'S NEST RAILWAY

Who Will Build This Important Line?

GOVERNMENT AND THE C.P.R.

Said to be in Negotiation in Regard to its Construction.

Mr. Blair is in a Dilemma Because of Feeling in the West Against the Canadian Pacific—Sir Richard Cartwright and Mr. Davies Report for Washington—The Registered Cree Indians and their Requests—Seed Distribution—Cold Storage on Ships—General Ottawa News.

Ottawa, Feb. 3.—(Special).—It is currently reported in political circles that negotiations are in progress between the Government and the Canadian Pacific Railway Company for the construction of the Crow's Nest Pass Railway. It is said Mr. Blair realizes that a line through the Crow's Nest could not be built by the Government as cheaply as by an independent corporation, but there stands in his way the feeling in Alberta, as well as in British Columbia, in favor of the construction and operation of the line under Government auspices.

WOODS OF ADVANCES

As Shown Over the Treaty of Arbitration.

AMENDMENTS SUGGESTED

Would Have the Effect of Killing the Whole Thing.

Something Good for Other People But Not for Themselves—All the Papers Commend the Action of the Senate Committee—Mr. Hayward Bids the Prince of Wales—Woman Suffrage Bill in the British House of Commons—British Arbitrators for Venezuela Sketch—General Cable News.

London, Feb. 3.—Commenting editorially upon the amendments proposed by the Foreign Affairs Committee of the United States Senate, The Daily News says: The amendments to the Anglo-American Treaty, reported to the United States Senate, were made with a view to amending a treaty out of existence. It would be curious if the Venezuelan arbitration proceedings were adopted and the Anglo-American Treaty rejected. In that case the American zeal for arbitration would appear decidedly altruistic.

CANADA CAN STRIKE BACK

And Can His Uncle Sam in a Vital Spot Too in Regard to Employment of Aliens.

Windsor, Ont., Feb. 3.—William McGrogan, M.P., returned yesterday from Brantford. He talked freely about the many ways the Canadian Parliament would retaliate if the Immigration bill were enforced, and said: "We are too much the sports. We want only friendly relations, but we can retaliate. There are no towns or cities in Canada or the United States with so few stores as Brantford in Windsor. They are able to do it because we wink at that sort of thing. We can stop it. Such customs regulations can be enforced as to stop Canadians purchasing goods in Detroit. From Michigan and Maine more men go to Canada to work during the lumbering season than there are persons who go from all Canada to the United States. They are mainly the Georgian Bay district to the mills in Michigan. In the summer they are making lumber. The winter they go into the Canadian woods in winter and cut the logs. Large numbers go from Maine to New Brunswick. This would also be stopped. Then American companies controlling about all the fishing interest in Lake Erie. Americans get licenses there the day after they have been issued. In British Columbia the American miners, for a small sum, get a license to work on the American side of the border. They get these privileges on the same conditions as Canadians do. Then American prospectors work the best of the privileges in our mines and fisheries.

Windsor longshoremen, who have hitherto made no objections to Detroiters working along the wharves, when many of the employes, that they will take measures to prevent their future employment.

BOOKS LIKE REVENGE

On the Part of the Barnardo Boy Bradbury, WHO ALSO LOST HIS LIFE.

John Blain Tells the Story of the John Lad's Willful Temper.

Before the Coroner's Jury at York Mills—The Blain's Had No Insurance on Their Stock—A Strange Feature in the Affair Was the Attempt to Set Fire to the Mattress in the House—Barnard to be Resumed on Monday.

An enormous amount of interest was shown in connection with the inquiry yesterday at York Mills into the death of the Barnardo boy, Charlie Bradbury.

At 7.30 o'clock on Monday night a large number of people gathered at the premises of the farm belonging to David Hunter, on lot 12, 2nd concession, east of Yonge-street, four miles east of York Mills.

The farm was rented by Stewart and John Blain, cousins, who, at the time of the fire, were visiting at David Hunter's, 1 1/2 miles away. The only human being present at the time was Charles Bradbury, a Barnardo boy, who was brought out from England to the Toronto Home, and was hired out to Stewart Blain 18 months ago.

On Tuesday at daylight, and when the fire had cooled, the charred remains of the lad were found in the horse stable. How he came to be there and how the fire originated was the object of the inquiry yesterday.

AT THE INQUEST. Dr. W. H. B. Atkins was the coroner, and was assisted by Mr. Hartley Dewar, the County Crown-Attorney. Mr. Frank E. Hodgins represented the Barnardo Home, and Mr. E. Swagby appeared for Stewart and John Blain.

Mr. Davies (wearily): I thought Farrer and Charlton would have broken the road better than this. SIR RICHARD: Too light weight, both of 'em, to make an impression on these drifts.

GOING TO INVAD TORONTO.

Baltimore Booth Will Send to Canada a Detachment of His American Volunteers.

New York, Feb. 3.—The desire of the American Volunteers, Baltimore Booth's organization, to launch out and work in other fields, has caused the council of officers to map out a visit to Toronto, with the direct purpose of arousing interest there in the volunteer movement, and with the ultimate object of establishing an organization in the Dominion to be known as the Volunteers of Canada.

A council of the officers of the Volunteers has been in session for the past few days, and the whole day was given over to discussing this question of enlarging the field of work. Many of the officers took part in the discussion, and it was decided that Commander Booth should be empowered to arrange a series of meetings in Toronto.

The Salvation Army is well established in Canada, so that this aggressive action on the part of the new organization will be watched with interest. It is the sentiment for local government in the north the next step will be taken in England with the object of establishing "The Volunteers of England."

National Secretary Holroyd said today to a reporter that he predicted a brilliant future for the Volunteers in Canada and England. He declared that the sentiment for local government in the north the next step will be taken in England with the object of establishing "The Volunteers of England."
