of Tigers Also Sizzled Once.

Brooklyn Dodgers would have won the National League pennant one day earlier than they did if Hi Myers, Brooklyn's centre fielder, had not tried to pull a bit of inside baseball on the Chicago Cubs' park.

The game was close, and when the Chicago team came to bat in the last half of the ninth the Dodgers were leading by a single run. Chicago finally got a runner on third and another on second with two out.

Here Myers got his idea. The runner was leading far off second and Myers stealthily crept to that base. He entered a pithy and sizzled away. It was a good throw and Myers was near second when the ball started rolling in, but it suddenly occurred to him that he would have to get his foot on the bag.

Just why a player should have his foot on the bag to tag a man off base will not be clear to an infidel, but Myers is not an infidel and never has been an infidel. He saw the ball coming and he saw the runner's head that he should touch the bag. So he shoved out his foot. His toes failed to feel the edge of the bag.

Myers was lost. His one idea was to find the bag. So he took his eyes off the ball to look for the bag. He planted his foot firmly upon it. Then he looked for the ball. But the ball had passed. Myers had passed. He passed by Myers and it was passing by Myers place in centre field with Wheat and Griffiths, the other two outfielders, in pursuit. They retrieved the ball, but by the time it got back to the infield both Chicago runners were across the plate, the winning run was in and the game was over with Myers still holding the bag.

The powerful stable of Commander J. K. L. Marathon, an imported son of Marathon and the sire of Jack Hare Jun, Square Dealer, and a number of other winners in the United States and Canada of these ten or dozen years, and Fitz William, a splendid imported son of William the Third, are the stallions now at the Ross farms stud, of Vercheres, which boasts of two scores of brilliantly-bred mares of British, French and American ancestry.

Commander Ross sent to the post all told thirteen Canadian-bred, which accounted for 30 purses, finished second 33 times and third 19 times. No other group of Canadian-bred in any other stable made anything like so good a showing, and these winners did their racing in the teeth of the toughest opposition at Kenilworth Park, Windsor, Woodbine, Port Erie, Hamilton, Blue Bonnets, Dorval and Comnaught Park. Some of the Canadian 2-year-olds won at Pimlico early in the spring, before they were shipped to Canada, and from youngsters bred in the United States. Commander Ross' Canadian-bred winners were:

Winnipeg, Dec. 10.—Representatives to the annual meeting of the A. C. of C. began to arrive in the city for the meeting which will be held today and Saturday.

Considerable comment was stirred locally by the announcement from British Columbia that A. R. Davidson, prospective president of the amateur body, comes with the avowed intention of seeking legislation to permit amateur and professionals to play together.

The report also states that this has been done in charitable games at the coast with the consent of the British Columbia branch, but without cognisance of the parent body. Further interest lies in the fact that Alberta "big four" will make no effort to conduct an investigation of or on the evidence submitted by Frank Patrick in his recent hockey disclosures at Calgary. This may give the assembled amateur officials a chance for direct action.

Looks As If Hull's Xmas
Shipment Were Early

OTTAWA, Dec. 9.—The Dempsey-Carpenter fight probably will be held in the province of Quebec next summer, according to information received in Hull from New York. The offer made by Montreal sportsmen for holding the battle in that city is being considered by Tex Rickard, as the fight made at Hull and Hull sportsmen. The chances of the fight being staged in Canada are considered particularly bright and this morning it was announced that the Ottawa and Hull syndicate was prepared to offer any other made by other groups for the right to conduct the affair. Montreal may offer a large purse, but the syndicate will not make any statement as to the location, except to say that it is a short distance from the city.

Mayor Louis Côtéman states that out-of-town sportsmen are interested in seeing Hull get the fight, and he has reason to believe that a special charter for the heavyweights' championship will be easily procurable from the Quebec Government, if required.

Strength at 'Y' Workouts

Intermediates are usually from Missouri—They've got to be shown ice. But at last night's preliminary workout an unusually large number turned out to see the action.

Both squads were given the floor workout by Instructor David Allen, and went at it with plenty of action. This training will be varied from time to time, but as a first conditioner it's about the best that can be given either squad.

Coch Waiden got a line on some of the material he is expected to work up with the prospects trotted out to see last night.

The juniors were out in full force and are a husky-looking lot of kids. What they'll do on ice remains to be seen, but they look strong enough to stand all kinds of bumps, which goes a long way to making a team.

The activities of the City League are more or less curtailed at present owing to the sudden thaw which knocked prospective ice accommodation at the London Curling Rink into a cocked snuff and out again. The future of the four clubs, at present roaming at large without a vestige of restraint is locked up with what group the intermediate hockeyists get into and the consequent date they play at home.

The curlers, elusive as one of their own stances on a sheet of glass, refuse to pin themselves down to any definite promises, but it is believed that the future of the City League looking capable of putting up
