## We Have CLEARED OUT the Relindo Shoe Co., Limited

5,000 Pairs of High-Grade Boots and Oxfords to Sell on Saturday at 1-2 to 5-8 the Standard Values

Regular Prices \$4.00, \$4.50 and \$5.00, \$2.49 

TY/E think that Toronto people know what kind of a boot and shoe store we have here now in this new building of ours. Most people have heard about the Simpson Footwear Sales. We are winning a continental reputation among boot and shoe manufacturers as a store which is able to handle any quantity, no matter how great, if quality and price are right. The result is that footwear manufacturers when they have surplus stocks to turn into cash, naturally come to us for our co-operation. And we are always glad to give it—if—the goods are worthy

## WAS IN BED FOR THREE MONTHS.

PEOPLE SAID SHE HAD CONSUMPTION.

Read how Mrs. T. G. Buck, Bracebridge, Ont., was cured (and also her little boy) by the use of Dr. Wood's Norway Pine Syrup. she writes: "I thought I would write and let you know the benefit I have received through the use of your Dr. Wood's Norway Pine Syrup. A few years ago I was so badly troubled with my lungs people said I had Consumption and that I would not live through the Fall. I had two doctors attending me and they were year much not live through the Fall. I had two doctors attending me and they were very much alarmed about me. I was in bed three months and when I got up I could not walk, so had to go on my hands and knees for three weeks, and my limbs seemed of no use to me. I gave up all hopes of ever getting better when I happened to see in B.B.B. Almanac that Dr. Wood's Norway Pine Syrup was good for week lungs. I thought I would try a bottle and by the time I had used it I was a lot better, so got more and it made a complete cure. My little boy was also troubled with weak lungs and it cured him. I keep it in the house all the time and would not be without it for anything."

It is strange how oblicated sir John Fisher is to a large number of people. Sensible men of both parties recognized his genius and acknowledge that to him is due the enormously increased efficiency of the navy. Nothing, by the way, could be a finer tribute to his foresight than the acknowledgment now made that it is Dreadnoughts only that count.

The very men and journals who a short time ago were reviling the Dreadnought design are now crying out for more of these ships. There is a host of men and women, however, who hate Sir John Fisher for his autocratic treatment of all kinds of vested interests and who would be glad to se him reviewed.

Price 25 cents at all dealers. Beware of imitations of Dr. Wood's Norway Pine Syrup. Ask for it and insist on getting the original. Put up in a yellow wrapper and three pine trees the trade mark.

Independent Methods Jan Seme Over-Sensitive and Jealous Rivals.

NEW YORK, April 1.-The Herald's aval correspondent in London cables: "For our part we are against any party or government that neglects the on which the nation's life depends. The time for shilly shallying and soft speeches has gone. We must have eight Dreadnought. We must have much more. Sir John Fisher must go and all that Fisherism means." That is the policy of the Imperial Maritime League in a nutshell. Nor

while Messrs. Balfour and Lee deprecate attacks upon the admiralty lords are there wanting other leaders of the Unionist party, like Messrs. Austen Chamberlain and Wyndham, who are willing to support extremists. where the agitation is not actuated by party motives, it will serve party purposes. Nothing, say the Unionist whips and wirepullers, would make more for the success of their side at the next election than the cry that the navy is n danger. It would certainly pull the people together on the side which is from satisfied with tariff reform

as a war cry. This circumstance cannot fail also to Winston Churchill and Lloyd George, who have no desire to relinquish the sweets of office. If they want to reply effectively to the khaki and jingo mottoes and placards of the other side they must show that they have done their duty in the provision of an adequate fleet. This is another reason why we

should have eight ships.

Dreadnoughts Alone Count.

It is strange how obnoxious Sir John

selves to the service the perfect fair-ness and justice which have characterized his choice have won approval and respect. No first sea lord has been surrounded as he by such numbers of young, progressive, energetic subordinates, partly, perhaps, because he is a whale for work himself and partly because he possesses that prime element n success-the faculty of picking out the right man for the right place.

Anxious to Leave Office.

His strategical insight has sometimes been called in question, but the steady accumulation of force in the North Sea furnishes the best reply to this criti-cism, while the fact that he is known have the advice and approval of Sir Arthur Wilson, the foremost strategist and tactician of the navy, suples further evidence of the unfound ed nature of this charge. Sir John Fisher's personal friends say

that he is anxious to relinquish office and has been so for some time past, but if some of the Liberal leaders do cult to replace him, and there are many ong his assailants who fear that i Mr. Balfour came into office again he would want Sir John Fisher as his first.
