

Abnormal origin of the left carotid, from the arteria innominata.
Abnormal origin of the left carotid and subclavian, close to the arteria innominata.

IV. INFLAMMATION AND ITS PRODUCTS.

Spine, curved at the lower dorsal and lumbar regions; the upper part of the body inclined forward and to the left side.
Three jars of diseased bones—necrosis and caries. (In the same cupboard—No. 22—as Dr. Aikins's collection.)

X. FRACTURES, DISLOCATIONS, WOUNDS AND DISPLACEMENTS.

Injury to the hip joint of sixty-five years' standing; the head of the femur (or an exostosis) affixed to the ilium below and behind the anterior superior spinous process. Presented by Dr. Oldright.

Gall-bladder packed with gall stones and ruptured.

Collateral circulation established after the occlusion of the femoral artery. Presented by Dr. J. H. Richardson.

Temporal bone, showing perforation made by a piece of brown paper discharged from a pistol.

Dried preparation of inguinal hernia obtained in the dissecting-room.

Femur of a Huron Indian with a groove through the lower extremity which has been twisted around on the axis of the shaft; patella glued to the trochlear surface;—taken from an excavation in Medonte Township, 1878. Presented by H. Montgomery, M.A., B.Sc.

Glass case—No. 22—contains a number of specimens of fractures, dislocations, c., used by Dr. W. T. Aikins in his Lectures on Surgery.

XV. FOREIGN BODIES.

Calculus from the outlet of "Wharton's duct." Presented by Dr. J. H. Richardson.

Calculus, biliary, embedded in a cavity in the wall of the gall bladder.

Calculus removed from the substance of the liver preserved as moist specimen No. 1265.

Biliary calculus, larger, white.

Calculi, a collection. (In old case.)

Calculi: a case containing a large assorted collection, made by the late Professor Croft, and presented by him, on leaving Canada, to the Toronto School of Medicine.

XVI. MISCELLANEOUS.

Skeletons, five.

" of dwarf (rickets).

Dried subject; arteries and nerves dissected out.

Set of bones mounted on a frame near the western door of the Museum.
