

As the Council was aware of a feeling among the riflemen, that the permanent interests of the match would best be served by avoiding any formal reception, arrangements were made merely for an informal meeting at the 62nd Fusiliers room in the evening, at which the teams met to witness the taking over of the Maritime Trophy by the Captain of the winning team. It remains for the Council to recognize the spirit with which many of the officers of the City Brigade, more especially the non-shooting officers, contributed towards the fund for carrying out the match.

Two New Brunswickers, Captain J. H. McRobbie and Captain E. A. Smith, had the honor of shooting at Bisley this year as members of the Canadian Team. The weather all through the N. R. A. matches was unusually tempestuous, and the Canadian Team had to return without any very prominent honors.

The return of prizes won by the Ottawa Team is submitted herewith. It is yearly a gratifying fact that the main object of the visit of our riflemen to Ottawa never quite fails of attainment, and so the Council has pleasure in noticing that three places on next year's Bisley Team have been secured by New Brunswick, viz., the second place by Col.-Sgt. Henderson, 62nd Fusiliers, the twelfth place by Pte. Walter Langstroth, 62nd Fusiliers, and the thirteenth place by Pte. C. T. Burns, 62nd Fusiliers.

In the Team Aggregate Match for the Lansdowne Cup our Association Team failed of securing first place by only two points

The Annual Report of the Association for 1891 (a more than usually large pamphlet) was printed in the customary form and very generally distributed. In addition to the proceedings of the year, a complete list of first prize winners to 1891 inclusive was inserted. This record makes the Report an especially interesting one.

The accounts of the Secretary-Treasurer, with vouchers, and the report of the Audit Committee thereon, are submitted.
