THE CATHEDRAL

MISSION CLOSED

MISSION CLOSED

The four weeks mission, which has been given in the Cathedral of the Immaculate Conception by the Passionist Fathers, was brought to a close last vening with the final devotions of the nission for the unmarried men. During he services, His Lordship Bishop Leilanc spole a few words of encourage int to the men, making a strong plean perseverance. During the course of mission the visiting priests, Rev. and Rev. Father Joachim, C. P., made a host of friends amongst the mbers of the congregation and will be ally remembered by all.

The services last night consisted of a sital of the rosary and short instruction by Rev. Father Bede, followed by the closing sermon by Rev. Father oachim, who also imparted the papal renediction. His Lordship Bishop Leslanc officiated at solemn benediction, assisted by local priests. A similar service to mark the closing of the children's mission was held in the afternoon, commencing at 3.30 o'clock.

Rev. Father Bede will leave this evening for Baltimore, and Rev. Father Mark for Brighton, Mass. Rev. Father Joachim will remain in the city for a few days and will then go to Halifax to preach the Holy Week services in St. Mary's Cathedral in Halifax.

PROTEST CLOSING DOWN OF

Victoria, B. C., April 3.—Victoria and squimalt are up in arms against the closing down of the work in connection with the construction of the Esquimalt drydock, and the federal government will be asked by every public body in the city to reconsider its action in issuing instructions to cease work on the big undertaking.

When health officials are called upon to announce the epidemic prevalence of a new or unusual disease they are not always able to assure the public that the malady is rarely fatal. This is happily the case, however, in regard to the presentations to cease work on the big undertaking.

York State. Thus far no fatal result has hear reported among the several hundered. York State. Thus far no fatal resúlt has been reported among the several hundred cases known to the State Department of Health. In an account of eighteen outbreaks recorded in the United States since 1850 only five deaths actually were counted and only few more indicated among about three thousand cases of the disease.

The mild character of the malady will not, however, limit the endeavor to study and control it, the department says in its monthly bulletin.

not, however, limit the endeavor to study and control it, the department says in its monthly bulletin.

"We know that infectious jaundice in Japan is a serious matter, from 30 to 50 per cent. of the cases terminating fatally. It is well understood that certain diseases seem to become modified in the United States and to prevail for the most part in a characteristically mild form," the bulletin says. "This is true, for instance, of typhus fever and smallpox, and is apparently the case with this rare infectious type of jaundice. What gives concern is that we never know when and where these maladies may súddenly revert to original and severe types. "During the recent war epidemic jaundice was observed among French, British, Italian, German and Russian troops from Belgium to Gallipoli. An outbreak was recorded in our own war of 1812, and the disease was quite well known during the Civil War. In civil life in Japan it occurs frequently among mine workers, especially in the moist rather than the dry mine shafts. With the adoption of trench warfare in Europe, where similar damp soil conditions were the soldier's daily lot, the disease soon appeared, and investigators readily identified in trench rats the same causative organisms that had been discovered in Japan. Our own State laboratory workers are now making noteworthy progress in their attempt to identify it in rats recently captured up State. In no American outbreak has the organism been found in a human being, but it is a striking fact that an unusual prevalence of rats is frequently reported in connection with cases now being studied in many New York communities.

"So the Department is again urging "So the Department i

munities.

"So the Department is again urging a remorseless war on rats and mice, science is merciless when it conflicts squarely with poetry. Robert Burn's field mouse would have had good reason to 'cower' before a laboratory worker hunting for the Leptospira Leterohemorrhagiae, and would wholly deserve it capital punishment. The practical lesson of the present epidemic is 'on with the fight against rodents and in the meantime protect your food from rat contamination.' As an up-State editor pithily writes, 'a few barn cats of the savage variety will earn their board on any farm,' while, if there are no Pied

### Increases the action of the intestines

Hundreds of men and wo-men have already found freedom from laxatives by eating Fleischmann's fresh

Doctors are now agreed that proper elimination of waste matter should be brought about by food. One doctor comes right out and states plainly that the indiscriminate use of cathartics is one of the causes of constipation.

Physicians all over the country are recommending Fleischmann's fresh yeast because it is a fresh food, rich in those elements which keep the intestines healthy. In one series of tested cases, normal functions were restored in from 3 days to 5 weeks.

Try it out for yourself. Begin todayby adding 2or 3 cakes of Fleischmann's Yeast to your everyday
diet. Keep it up and see how normally and regularly your intestines
act. Be sure it's Fleischmann's
Yeast—the familar tin-foil package with the yellow label. Place a
standing order with your groce

Through vision most knowledge reaches the brain. Scientific observation must not be clouded by poor eye-sight. That is why you see so many scientific men wearing glasses. They realize the importance of eye care. To wear glasses when needed indicates intelligence.

Pipers in modern cities, there are at least plenty of traps and rat poison." FRIENDS HONOR WELSFORD MAN

Welsford, N. B., April 1-Friday, March 31, proved a memorable day in the home of Arthur H. Jones, C. P. R. foreman. After thirty-six years' service and with a record that could not be excelled, Mr. Jones is retired on a pension and takes a well-carned rest. This date also marked the forty-first wedding anniversary of Mr. and Mrs. Jones, and their many friends in Welsford and from the places gathered at their home to do them honor. Although planned as a surprise, the guests were cordially received by Mr. and Mrs. Jones, who were ably assisted by their daughter and her husband, H. W. Abbott. A pleasant evening was spent with music and singing and the serving of refreshments. Many pretty and useful gifts were presented to the bride and groom of forty-sented to the bride and groom of f March 31, proved a memorable day in

Mr. James amazed at quick results with Dr. Caldwell's Laxative

Sufferers from dyspepsia and indigestion often think they can get permanent relief by chewing charcoal tablets, mint lozenges and such things. But constipation usually accompanies dyspepsia and a medicine is required that contains ingredients for both conditions.

STOPS 50 YEARS' DYSPEPSIA

gredie its for both conditions.

Mr. G. James of 5 Norfolk Ave.,
Galt, Ont., found such afortunate combination in Dr. Caldwell's Laxative
Syrup Pepsin, which gave him relief
from 60 years of dyspepsia. With the
same remedy Mrs. Ellen Laira of
Pictou, N. S., now in her 87th year,
freed herself from a lifetime of
chronic constipation.

This remarkable medicine is a vegetable compound of Egyptian Senna
and other simple laxative herbs with
pepsin, the greatest of all the digestants. It acts mildly and gently and
does not gripe, and hence it is ideal
for old people. It is so safe, however, that thousands of mothers give

BETTER THAN HARD COAL
Soft coal so free from soot that it does not make whiskers on stove covers or pipe and does not mat or cake when burning, is is far better than Hard Coal for general household use. Quicker to light, takes less to make a fire, cheaper in price and can also be used for open fires and small heating stoves. Such a coal is Broad Cove soft coal. The main thing is to insist on getting the genuine article. No other soft coal burns just like Broad Cove. You will know it by the above characteristics.
