

GOOD THINGS COMING TO THEATRES OF ST. JOHN

"POLLYANNA" GOING TO SIMPLY CHARM ST. JOHN

Halifax Stock Co. Sure of a Wonderful Reception in Their Masterpiece.

"Pollyanna," Eleanor H. Porter's world-delighting "glad" story, is going to make an absolute clean-up of the St. John public when it is presented at Imperial Theatre next Monday afternoon and evening. This is the prediction of a committee of pretty good judges who went to Halifax to see the production, and who know their St. John well enough to make this assertion. Not only is the play a charming version of the book itself but the Halifax players give it a sympathetic rendering with all the

requisites of stagecraft, the result being a finished performance which New York itself would have difficulty in surpassing. The Imperial management regrets not being able to hold this company for Tuesday but a Moncton engagement prevents this. This should be a warning to intending patrons to buy their seats good and early. Thursday. The sale starts at 10 a. m. No telephone orders will be reserved. Matinee will be rush seats. Prices at night \$1.00, 50c and 30c. Matinee adults 75c, children 50c.

ACTS SHOULD MAKE A HIT

New Vaudeville Programme at the Opera House Tonight Comes Highly Recommended.

The new vaudeville programme which has been booked for the Opera House for tonight, Wednesday and Thursday, should be a most enjoyable one. The acts are all highly recommended and have been making a hit on the big circuits in the States. They are as follows: Ollie Young and April, in a novelty offering, "Bubbles"; Ector and Dena, two

clever Italian musicians and comedians, who will entertain with classic and popular selections; Edith and Eddie Asher, in a novelty, comedy skit, "The Boot Shop"; Harrington and Mills, in a great black face comedy offering featuring with mirth, Frank Parish and Stephen Peru, two versatile vaudevillians, in a surprise novelty which is going to make a great hit. There will also be the opening episode of the new motion picture series entitled "Daredevil Jack," which is featuring Jack Dempsey, champion heavyweight pugilist of the world.

PAUL DUFAULT, THE GREAT TENOR, Will Give Concert on May 5 Under Auspices of Knights of Columbus.

At St. Vincent's Auditorium on the above date, the Knights of Columbus will introduce the great French tenor, Paul Dufaull, to St. John music lovers, and, in doing so, will be conferring a great favor, as the concert will probably be one of the most delightful ever given locally, and decidedly the most interesting entertainment yet provided in the handsome Cliff street theatre. Mr. Dufaull will be assisted by a splendid cellist and an excellent pianist. More details will be given in the press during the week, but the Knights will have their friends to reserve May 5 for the Dufaull concert.

REPRESENTATION OF DOMINION AT WASHINGTON

Hint at Intentions Given at Conference in Washington.

Washington, April 27.—With the approval of the British government, Canada has made definite overtures to the United States for the establishing of direct diplomatic relations between the two adjoining countries.

The announcement was made at the state department last night following a conference between Secretary of State Colby and representatives of various American pulp and paper manufacturers and publishers concerning the increasingly difficult position in which these industries are finding themselves as a result

You are Welcome To this way to white teeth

All statements approved by high dental authorities

You see white teeth wherever you look today, for millions of people use a new teeth cleaning method. Leading dentists everywhere advise it. You are welcome to a ten-day test, and you owe it to yourself.

Film dims the teeth

The teeth's great enemy is film. It clouds their beauty and it destroys the teeth. Most tooth troubles are now traced to it. Film is the viscous coat you feel. It clings to teeth, enters crevices and stays. Very few people escape the effects of it.

It is the film-coat that discolors, not the teeth. Film is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea, which attacks 95 in 100.

The ordinary tooth paste does not dissolve film, so old methods fail to end it. Dental science has for years sought the right way to combat it, for tooth troubles have been constantly increasing.

The method has now been found. Convincing clinical tests have amply proved its efficiency. And now the way is embodied, for daily use, in a dentifrice called Pepsodent.

Three unique results

Pepsodent is based on pepsin, the digestant of albumin. The film is albuminous matter. The object of Pepsodent is to dissolve it, then to day by day combat it.

Pepsin long seemed impossible. It must be activated, and the usual agent is an acid harmful to the teeth. But now a harmless activating method permits its constant use.

Two other new-day requisites are also found in Pepsodent. So this tooth paste in three ways brings whiter, safer teeth.

Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coat disappears.

Results are clear and quick, and our book explains them. Make this test and judge them for yourself. Cut out the coupon now.

of the Canadian embargo on the export of pulpwood.

It was suggested to Mr. Colby that unless Canada should consent through friendly negotiations to modify this embargo the United States must resort to retaliatory measures. Mr. Colby said that the United States might soon be able to conduct direct diplomatic negotiations with Canada.

It is understood here that Sir Auckland Geddes, British ambassador, will soon go to Ottawa and there arrange details of the new relationship, including the selection of the Canadian representative at Washington.
