DYKEMAN'S

Ladies' Suits

At the commencement of the fall suit business we sold a great many of a particular suit, which was priced \$15.95, and in a very short time the stock was exhausted. We sent a rush order to the manufacturer and received a large quantity of this wonderful suit today. It is made from a pure wool serge, silk lined coats, and is perfectly tailored; plain but good. It is a suit that would be sold in other stores for \$20.00. They come in navy blue and black; the blacks can be had in extra large sizes, as high as 44.

We also have another shipment of those navy blue and black serge skirts which we sold for \$2.25. They are made from pure wool serge of a good weight, stylishly made and come in all sizes. The extra o. s. size is priced \$2.65.

Splendid to take the place of sheets, soft, smooth and well fleeced; wash like a cat's face.

Every housekeeper who is accustomed to shakers gives them each a different recommendation. Not the least recommendation in their favor is the moderate cost of reliable shaker blankets.

Of course the quality of shakers we recommend are the commendable qualities we sell, we are unacquainted with the other kind except to cull them out.

THE POLICE COURT

North End Assault Case—Serious Charge Made Against George Whittaker

An assault case in which two North End men figured, was the chief matter under consideration in the police court this morning. Both James Harley, the assaulted, and Charles Morgan, who is charged with making the assault, were on the stand and, although their stories agreed as to the time, place and cause, they differed widely as to who struck or attempted to strike the first blow. Harley, who was cross-examined by E. S. Ritchie on behalf of the defendant, said he had had some liquor before the fracas occurred. Morgan said that he and Harley had been on bad terms before and he had warned Harley through a policeman not to molest him by coming near his property. On the day when the trouble took place, he came up to his door, called him names and attempted to strike him; he had then felt justified in defending himself.

Walter Delany also gave evidence and the case was then adjourned until tomorrow at ten o'clock to admit witness for the defence will be heard.

John Thompson and William Dunlavy, who were arrested evening in King Square on charges of being drunk and acting indecently, were fined \$8 or two months each on the drunkenness charge and remanded on the other.

George Whittaker, who was arrested last evening on a serious charge, preferred against him by his wife and her sister, pleaded not guilty in court this morning and was remanded.

Two men charged with drunkenness were remanded.

BARRIE'S NEW PLAY "THE ADORER ONE," IS FAILURE

London, Sept. 5.—An audience brilliantly representative of artistic, literary and fashionable London, filled the Duke of York's theatre last night to witness the first production of two new plays by J. M. Barrie.

While "The Will" enchanted the audience, at the end of "The Adorer One," the gallery demonstrated its disapproval by vigorous booing and, though the stalls slightly applauded, it remains an unmistakable fact that the play is Barrie's first failure.

STREET CARS TO KANE'S CORNER BEFORE THE END OF SEPTEMBER

That is the Announcement Today—Cross-over to Be Shipped From Montreal on Sept. 10

It is announced that the extension of the street car line to Kane's corner will be in operation before the end of this month unless any further unforeseen delay arises, and there is said to be little fear of this.

The chief barrier in the way of commencing operation is the difficulty which has been experienced in securing the castings needed in making the various connections. The diamond crossing for the intersection of the street car rails and those of the I. C. R. was put in place this week but the company is still awaiting the arrival of the cross-over which will make the connection between the new line and double tracks at the foot of Brussels street. These instructions are made in one solid casting of manganese and besides the foundry in Montreal from which they were ordered there is only one other place on this continent, in the United States, from which they could be secured. On account the local company has had to wait its turn. The order was placed in May. The last word from Montreal is the effect that the cross-over will be shipped on September 10. After it reaches St. John little time will be needed to install the connection.

The automatic signalling apparatus for use at the railway crossing has not yet arrived but the management of the company believe they can overcome this difficulty by employing a flag-man to regulate traffic until the proper apparatus can be installed.
