

LABOUR'S FUNCTION.

Keep the Track Clear!

Through Freight from
Halifax to Vancouver---
Stopping only at Co-operation
Centre, Brotherhood Bridge,
Harmony Harbor and Prosper-
ity Peak.

A LONG the two strong, dependable Rails---Labor and Capital---comes rumbling and roaring the Through Freight of Canadian Industry.

PACKED with Made-in-Canada Goods and manned by Union Labor this National Special is bound from Coast to Coast---with stops at Co-operation Centre, Brotherhood Bridge, Harmony Harbor and Prosperity Peak. Upon the safe and uninterrupted delivery of this freight for all Canada depends the Prosperity and Happiness of all the people in all the Provinces along the route.

WHAT a Disaster there would be if the Rails were to separate---or if one of the Rails were to be weakened! The Na-

tional Ties that bind them together must be kept stout and level. No irresponsible enemy of Industry must be allowed to tamper with either of the Rails. Guard the track well that Boulders of Distrust and Prejudice may not fall between the two shining Strands of Steel. Keep the Road-Bed secure from washouts from the turbulent River of Lawless Agitation.

WHEN the Through Freight reaches your City or Town give a cheery wave to the Boss who furnishes the Steam of Business Management---and a hearty cheer for the Union Labor crew who keep the good old Freight driving swiftly and safely ahead on the

TWO STRONG RAILS
