It is also rumored that the young man who took the part of Cinq-Mars with such distinction will shift his talents as an Mr. Foster's lever de rideau is thus an example of doing good by stealth and blushing to hear it called by its right name.

WAVES AND WAITERS.

The Conservative wave that has long been expected to rise in the East and sweep the Dominion right through to least a hundred per cent. In the whatever. Needlessly prolonged ses-House lately dissolved there were only two Conservatives-one leader and one follower. Now there are

four in a Legislature of thirty-eight members. This is "going some," as the boys say. The Liberals have been in ower in Nova Scotia for eighteen years. During all that time they have given the province a clean administration of affairs; they have not increased taxation, and they have kept the province fully up-to-date in all departments of administration. If the Conservative wave does not recede, as it has been known to do, the party may expect to have eight seats in the House about the year 1910, 16 in 1914, and then the deluge in 1918. The outlook is indeed hopeful. The great Dominion deluge, following the retire-ment of Sir Wilfrid Laurier, is looked for at about the same date. The outlook, unfortunately, is not such as to inspire confidence and hope for the fu-

## WATER -QUESTION.

Mayor Will Present Report to Council This Evening Regarding Elk Lake.

Mayor Morley paid a visit on Saturday to the waterworks at Elk lake, ccompanied by the city engineers and others. Everything was found satisfactory, and investigation made into the best method of securing an additional supply of water from the pressent source. The results of the inspection are being tabulated, and at the council meeting this evening the aldernen will receive further enlightment

on the water question. Assistant Engineer Devereux was also dispatched to Sooke on Saturday. statement of the case. He will possibly be able to render a decision regarding the suspected valley through which it is proposed to run a water main should Sooke lake be determined upon as the location of Victoria's new water supply. After the two or three week's cessation from fish used being sockeyes taken on Friday will wrestle with water until something definite is decided on. PROVINCIAL UNIVERSITY,
