## GERHARD HEINTZMAN ART PIANO. LOUIS XV CASE.

**THE W. H. JOHNSON CO., Ltd.,**  
Sole Representative for the Maritime Provinces.  
DON'T CONFOUND WITH ANY OTHER HEINTZMAN.  
St. John Office, 7 Market Square.

### RIVERSIDE'S NEW INDUSTRY

**ROSEWELL HILL, Sept. 6.**—Work is progressing on the woodworking factory of Capt. Edmund Kinnle at Riverside, and although the buildings are yet in an uncompleted state, the machinery has been in running order for some time and the firm is already filling orders. Capt. Kinnle was burned out a year ago, and his rebuilding on a larger and better scale has shown a very commendable enterprise, as well as a confidence in the business prospects of his native place, and it is hoped the industry will have a successful future. The new establishment includes four buildings—warehouse, dry-house, blacksmith's shop and the factory proper. The latter is 73x33 feet and is fitted up with planer, moulder, buzz planer, band saw, two saw tables and turning lathes. The machines all rest on stone piers, making a very firm foundation. The main shaft is over 30 feet long and is driven by a 15 h. p. engine, there being two boilers of 75 and 30 h. p. respectively. The boiler house, adjoining the main building, is of brick

and will have a metal roof, affording a great protection against fire. The factory will also have adjoining a rotary saw mill, so that the stock may be made right up from the logs, making a pretty complete equipment. C. H. Bray is foreman of the establishment.

### "KERRY COW" AT THE AUDITORIUM.

Allen Doone in the title role of Joseph Murphy's old Irish play, "Kerry Cow," made a big hit at the Auditorium Theatre yesterday. The plot of "Kerry Cow" is the old tale of the grasping landlord who holds the mortgage on the farm and will not relent unless the poor but honest father consents to force his daughter to marry the villainous mortgage holder. This melodramatic plot is treated in a refreshing way, with the soft pedal on the "melodrama." The situations are good and Allen Doone makes Dan O'Hara, the Kerry Cow (Gow is Irish for blacksmith), a bright, likable fellow. There is no bloodshed and there are no heavy

situations that leave the audience gasping and weak when the hero thwarts the villain. Mary Fernier as Nora Drew, the girl whom Dan will marry in a few days after the last act ends, was good. The love scenes between Nora and Dan, which were frequent, were never overdone.

A feature of the play is the scene in the blacksmith shop, where Kerry Gow makes a horseshoe at the blazing forge and shoes the villain's horse, which may win the race on which all the hopes of the Drevs are staked, "as well as though it were the horse of my best friend." The news of the race is brought to the Drevs by carrier pigeons, which fly in and light on the dovecot.

Mr. Doone won the audience in the first act with his love song, "Sweet Nora Drew." E. H. English was a good friend of the lovers as Raymond Drew, J. J. Hyland made the villain a very probable character; he never wanted and his villainies were not the usual preposterous horrors committed by the ordinary bad man. The company gave good support. — *Kansas City Times* March 6th.—Adv.

## PROF. C. C. JONES IS CHANCELLOR

Was Appointed Mathematical Professor Yesterday.

He Was Only Applicant for Both Positions—Will Immediately Accept—  
Prof. Murray Not Heard From

FREDERICTON, N. B., Sept. 6.—The University senate which this afternoon appointed Prof. Cecil C. Jones professor of mathematics, considered the short time it was in session four names—J. W. Clavson, Dr. Philip Cox, Dr. Bradford and Prof. Jones. The

PROF. CECIL C. JONES.

first three were applicants for the mathematical professorship, while Mr. Jones applied for both the professorship and chancellorship. As the appointment, however, carries with it both positions, the only applicant for both received the appointment. A number of the senate strongly urged that action should be delayed in the matter, but the opinion of the majority favored settling the matter up at once. Up to a late hour tonight Mr. Jones had not been heard from, but it is pretty likely he will take for granted that as he was an applicant he will accept. The position of chancellorship is a most important one for besides being the head of the University, he is also a member of the senate and of the board of education. The salary is \$2,000, with residence and light and fuel supplied. Former chancellors also held the position of superintendent of the meteorological system worth about \$400 and this no doubt will also go to Mr. Jones. The senate, it is understood, today considered no names outside of the applicants, though it is understood that Prof. Walter Murray, of Halifax, was telegraphed to last evening, but as Dr. Murray is not at present in Halifax no answer was received. Probably he has not yet been heard from his name might have been considered along with the others today.

No appointment of chancellor was made, as this appointment is made by the government, but the appointment of professor of mathematics today was clearly made, with the understanding that the government would make Prof. Jones chancellor if Mr. Jones will accept. Premier was present at the senate meeting this afternoon.

## MONTREAL SHIP LABORERS STRIKE FOR MORE PAY

MONTREAL, Sept. 6.—One hundred and fifty ship laborers working for the Canadian Pacific Steamship and Dominion lines are out on strike. They have been receiving twenty cent an hour for day work, thirty for night work and forty for Sunday. They demand twenty-five, thirty-five and fifty cents an hour. This the companies do not feel they should pay, as the men are only laborers. Their work is chiefly building cattle stalls on steamers and kindred work. They are not carpenters, and almost any man who can drive a nail can be ship liner. The demands met with a prompt refusal. The greater number of the strikers were employed by the Canadian Pacific. The company at once put fifty sailors at work and several carpenters and this afternoon a good sized crowd is going from the railway to the steamers. With these the company claims the work can be done, and meanwhile men are being hired to permanently replace those who are out. The Dominion line is also filling vacancies and business is not suffering, according to the statement of the officials.

Letters testamentary of the estate of the late James V. Brown of St. Mary's have been granted to his widow, Mary Ann Brown, and Wm. R. Floyd, the executrix and executor named in the will. The estate is valued at \$7,310 real and \$1,200 personal property. The testator by his will left \$1,000 to his daughter, Mrs. Geo. Floyd, who resides in the west, and the balance of the estate to his widow for life, with power to use the principal as she may see fit. The balance after the widow's death is to go to the daughter, Mrs. Floyd. — *R. Chapman*, probator.

## NEW FALL CLOTHING

## AT ATTRACTIVE PRICES

The Exhibition has been a big attraction; but we have been hustling, showing our excellent values in

## Men's and Boys' Clothing!

Everybody has been delighted with our display, and we have gained a great many new friends and customers.

If you are a visitor in town, don't go home until you see our display of

## Up-to-Date Clothing

At \$6.00 and \$8.00

we have best Suit Values in St. John

...At \$10 and \$12...

we offer something in a Suit that other dealers charge \$12.00 and \$15.00 for.

All our Clothing Values run along the same proportions.

If your Boy wants a NEW SUIT, OVERCOAT or PAIR OF PANTS, bring him in and see how nicely and cheaply we fit him out.

Satisfaction, Always

**Henderson & Hunt,**

## DESPATCH NEWS.

### Result of Analysis of Milk in Canada.

More Gold Discovered in Ontario—Ocean  
Records Broken—Stuffing the  
the Doukhobors.

LONDON, Eng., Sept. 6.—The Society for the propagation of the Gospel has received a donation of \$15,000 from an American donor who requests that the money be devoted to the extension of church work in Western Canada, in view of the influx of colonists into the district.

OTTAWA, Sept. 6.—The chief analyst of the dominion has examined 215 samples of milk taken from all over the dominion. There were 189 genuine, eighty-five adulterated. None of the samples from Nova Scotia or New Brunswick were adulterated. There were two adulterated from P. E. Island, two from Quebec district, six from Montreal, seven from Toronto, six from London, five from Manitoba, three from Calgary, four from Ottawa and six from British Columbia.

The imperial dockyards at Halifax, will, in all probability be transferred to the Canadian authorities about the middle of October. The minister of marine is now in communication with the admiralty in regard to the transfer. Canada's offer was accepted some time ago by the home authorities.

The order-in-council appointing W. T. R. Preston trade commissioner to Japan, China and Corea, has been approved by the governor general. It is likely that he will assume his new duties at an early day. Mr. Preston will report direct to the minister of trade and commerce.

Gold is reported to have been discovered in paying quantities on the farm of Henry Hurdman in Early Township. The discovery was made while boring for water.

LONDON, Eng., Sept. 6.—Louisa Birt, just returned from a trip across the dominion, in the course of a lengthy letter to the Liverpool Daily-Post Mercury, warns every one going to Canada that it is no place for those "born tired." All work in Canada from the president of the C. P. R. down.

MONTREAL, Sept. 6.—The Dominion liner Ottawa arrived here at ten o'clock tonight, beating all records for the Liverpool to Montreal trip. Leaving Quebec at eleven o'clock this morning, the Ottawa, drawing 24 feet 6 inches, came up through the most difficult part of the channel by night. The time of the Ottawa from Liverpool was exactly seven days, a whole day better than the best previous time for the same trip. She had on board 300 passengers, most of them Americans from the western and middle states, who are crossing by the Canadian route in rapidly increasing numbers.

HALIFAX, Sept. 6.—Two coal workers on the steamer Basuta were almost killed today. They were knocked off the gangway by a flying tub of coal and hurled into the hold of the ship, thirty feet. Their skulls and ribs were fractured and ribs broken. Both may recover.

WINNIPEG, Sept. 6.—Because they refused to eat, fourteen Doukhobors in Regina jail have to be fed by scientific method of pumping nourishment into them. It was a case of being either forced to take food or starving to death, and three times daily they are forced to eat.

DIGBY, Sept. 6.—A despatch received from the customs department, tonight sustains the seizure of the Italian bark which was made at Digby for not reporting, and she will be compelled to pay a fine and all other charges before receiving her clearance papers at Annapolis for Buenos Ayres.

HALIFAX, Sept. 6.—If there is one thing more than another that Halifax people prize it is the public gardens. At a recent meeting of the city council it was decided to remove the fence. This action was rescinded tonight when the aldermen voted almost unanimously, for reconsideration and for the erection of a new iron fence to cost \$10,000.

### KASIER STARTLES GERMANY.

Appointment of Dernburg as Head of  
Colonial Office a Great Surprise

BERLIN, Sept. 6.—The Kaiser's appointment of Bernhard Dernburg as head of the Colonial Office has caused a sensation throughout the empire. The choice of a hustling financier to fill a post traditionally given to aristocratic bureaucrats is regarded as a revolutionary step.

Herr Dernburg is wholly without political experience, but he has a great reputation for energy and daring. He began life as a factory clerk. He emigrated to New York, where he was for some time employed in a bank. Much influenced by his American experience he returned here a confirmed admirer of transatlantic methods, which he immediately adopted when rapid advancement placed him in a controlling position.

The public generally approves the appointment, hoping that Herr Dernburg will straighten out the complicated middle existing in the affairs of the Colonial Department. It is predicted that he will have a tough struggle against militarism and bureaucracy.

Herr Dernburg abandons an income estimated at \$100,000 for an official salary of \$17,500, but he is reputed to have immense independent wealth. It is anticipated that his energy will give impetus to German colonial enterprise in a manner that will affect all the world, especially Great Britain.

The great interest being taken in the Salvage Corps carnival to be held at St. Andrew's Hallway on Monday night next reminds one of old times when a carnival was a carnival in every detail as well as name. A liberal amount is to be given for prizes, and the number of inquiries that are being made daily at the rink is indicative of the large number of costumes that are being prepared. No skaters allowed on the floor unless properly costumed and masked or "made up." Tickets can be secured from any member of the Corps and should be procured at once before they are all gone, as no more will be issued after the present lot are sold. — *Adv.*

## EXHIBITION WEEK! FINE READY-TO-WEAR CLOTHING AT SPECIAL DISCOUNTS!

Facts Concerning The  
**20th Century Brand Clothing**  
—the most correctly tailored ready-to-wear clothes made in Canada—we are sole agents.

MERCHANT TAILORS no longer monopolize the production of faultlessly cut and tailored garments. Today the most fastidious dresser finds difficulty in distinguishing between high priced custom made and the fine tailored 20th Century Brand ready-to-wear clothes.

DURING EXHIBITION WEEK we are giving 10 PER CENT DISCOUNT OFF THE PRICES of all our READY-TO-WEAR CLOTHING. Our wardrobes are crammed with Fall Suits, Fall and winter Overcoats, Raincoats, etc.—opened expressly for Exhibition Week.

### MEN'S SUITS

S. B. and D. B. SACKS. A splendid collection in stylish and fashionable fabrics. \$10, \$12, \$12.50, \$15, \$16.50, \$18, \$20, \$25.
