BRIDGES AND SCHOOL BOOKS.

J. D. Hazen, M. P. F., dealt with these topics in his speech at Albert the other day. The leader of the provincial opposition gave the history of the two bridge scandals, showing that the Emmerson government paid seven cents and upward per pound for bridges which could be furnished in the open market for half that price.

He proved that the New Brunswick government had regularly paid for bridges double the price paid for the same kind of structures by the Nova Scotia government, and by the Ontario municipalities.

Mr. Hazen disposed of Mr. Emmerson's excuse for these extraordinary transactions. The government justified itself for giving away some twenty or thirty thousand dollars a year by claiming that it was encouraging a home industry. Yet after all this lavish expenditure the bridge building industry in Nova Scotia had not reached the stage that it had attained in Nova Scotia, under competition, and with prices one half as high as ours.

Mr. Hazen compared the provincial government's bridge policy with the school book policy. When school books were to be made the government shut out New Brunswickers from a chance to do the work at home. The school book contract was given to a firm whose imprint as publishers is given on the title page. This firm has no printing office and does not get the work done in this province.

There are more good compositors and bookbinders in New Brunswick than there are bridge builders. Yet the whole of the printing and bookbinding of the New Brunswick school books is done in Ontario by a firm with which the New Brunswick contractor deals.

It is thus that Editor McNutt of the Fredericton Herald criticizes Sir Charles Tupper's speech: An abusive, decrepit old man * * Sir Charles, with advancing age, increases in vituperation and recklessness. His address on Saturday was merely the venomous uttering of a disappointed, rapidly decaying old man.

TIME IT WAS STOPPED.

When Mr. Blair became minister of railways he boasted that though the representation of New Brunswick was then nine to five against the government, he and his colleagues would have a majority from New Brunswick within a year. This meant that Mr. Blair would be able in twelve months to purchase for the premier the support of three members elected to oppose him.

Costigan. The latest statement which the minister and his friends have made for the gratuitous insult offered to the public men of this province is the revival of the boast in another form. We read in the press of other provinces, especially in La Patrie and Le Soleil, organs of the government in Montreal and Quebec, that Mr. Hale of Carleton and Mr. Robinson of Northumberland have agreed to give an independent support to Mr. Blair after the election. It seems to be rather low politics for Mr. Blair's henchmen to be circulating such slanders as these on members who during their four years in the house have voted against the government in every party division taken when they were present. The two members have enjoyed and still enjoy the confidence of the liberal conservatives in their constituencies. Even the exigencies of party strife furnish no excuse for the charge that they are ready to betray that trust.

HON. GEORGE E. FOSTER.

The speech of Hon. George E. Foster last evening was wonderfully effective. He carried the vast audience with him. His clear, far-reaching voice stirred every hearer. Every word was to the point. All his arguments were convincing. His arraignment of the inconsistency, faithlessness and corruption of the liberal leaders was thoroughly appreciated by the audience, who knew that every word he said was true.

As an orator Hon. George E. Foster stands unequalled among politicians in this country, if not on this continent. He is not only a great speaker, but he has a great grasp of affairs. He thoroughly understands the financial, industrial and business interests of Canada. Business men who interview him feel that he knows what they are talking about and that he really takes an interest in mastering all the details of any matter with which he has to deal.

The conservative party have reason to be proud of his record as minister of finance during a period of world-wide depression and business disaster. Eloquent, honest, economical, he is a great source of strength to the conservative party.—Montreal Star.

SIR CHARLES AS AN ORGANIZER.

Sir Charles Tupper is developing good qualities as an organizer. In Nova Scotia he has been successful in procuring strong candidates. In Prince Edward Island he has induced Mr. Leturgey to reconsider his determination not to contest East Prince. In Montreal, Dr. Roddick, the popular member for the St. Antoine district, who had decided to retire from public life, has agreed to be a candidate in the approaching contest.

It is thus that Editor McNutt of the Fredericton Herald criticizes Sir Charles Tupper's speech: An abusive, decrepit old man * * Sir Charles, with advancing age, increases in vituperation and recklessness. His address on Saturday was merely the venomous uttering of a disappointed, rapidly decaying old man.

The Telegraph says that though John Macdonald is fifty years old he has not greatly distinguished himself or given indication of superior ability. The organ does not think it was much of a feat to smash the power of Mr. Sifton and Mr. Greenway in Manitoba.

The Telegraph still says that Sir Charles Tupper is St. John's greatest enemy. It is sad to think that Dr. Hannay should have lavished such splendid eulogies and so many of them on such a foe.

J. J. RITCHIE NOMINATED.

LIVERPOOL, N. S., Sept. 13.—At a largely attended conservative convention, held in Sable River today, Jas. J. Ritchie, a leading barrister of Annapolis, received a hearty and unanimous nomination by a standing vote for Queens and Shelburne. The following resolution was enthusiastically carried: "That this convention desires to express the warmest regard for and confidence in their venerable leader, Sir Charles Tupper, and trusts he may be long spared to lead the conservative party, and that the forthcoming election will place him once more at the helm of state, to effect which object the conservatives of Shelburne and Queens will use their best endeavors."

HOW TO TREAT CATARRH.

Dr. Sproule was born about forty years ago, in the North of Ireland, of the sturdy, intelligent, Scotch-Irish Presbyterian stock. To the sound and liberal early religious and social training which he received in his native land, he added the practical and scientific education of a specialist in Chronic Diseases. This idea he held in mind during the six years of his stay at Trinity College, Dublin; then while travelling as surgeon in the British Royal Naval Service, and still later, while working at the hospitals of the world and among his private patients. As a result he stands today pre-eminent as a master in all forms of Chronic Disease.

Since coming to America he has devoted himself largely to that curable of this land, the Consumption-breeder—Catarrh. Always alert and energetic, he works from morning till night over his vast correspondence; diagnosing, prescribing, sympathizing, curing. He knows that success only comes from deep thought and conscientious care given each sufferer. No two patients can be treated alike. For previous conditions, peculiarities, age, sex, occupation, all bear upon each case.

He knows that success only comes from deep thought and conscientious care given each sufferer. No two patients can be treated alike. For previous conditions, peculiarities, age, sex, occupation, all bear upon each case. Dr. Sproule is a writer of note among medical men, and in a late contribution says: "Catarrh, as I have shown, is due to the presence of a foreign germ. These germs fill the air in summer as well as in winter. They are thus constantly entering the system. During the summer, because of the thinner state of the blood, they do not cause so much mucus, and their presence is not recognized, although it may be felt, in a general laucous, and in a tendency to stomach and liver troubles. But, concurrently with the return of cold weather, and the consequent thickening of the blood, the old symptoms return, and the sufferers imagine that they have caught a fresh cold."

Do hold therefore, that summer is one of the most favorable times for eradicating Catarrh from the System. The sluggish condition of the germs makes them easy victims, and after proper treatment the patient finds himself able to face the rigours of the next winter boldly and unshaken. No one who during the previous winter has had Catarrhal Troubles should be allowed to enter upon the next winter without having cleansed the disease from his system.

CATARRH OF THE HEAD AND THROAT.

The most prevalent form of catarrh, and results from neglected colds. Do you spit up slime? Are your eyes watery? Does your nose feel full? Does your nose discharge? Do you sneeze a good deal? Do crickets form in the nose? Do you have pains across the eyes? Does your breath smell offensive? Is your hearing beginning to fail? Are you feeling your sense of smell? Do you hawk up phlegm in the morning? Are there humming noises in your ears? Do you have pains across the front of your head? Do you feel dropping in back part of throat?

If you have some of the above symptoms your disease is catarrh of the head and throat. If you had some of the above symptoms last winter, and were only cured by warm weather, rest assured that the Catarrh still lurks within. It will not fail to come forth at the next approach of cold weather. Cut out the above symptoms, mark them, and send them with information to your present condition of general health to Dr. Sproule (Graduate Dublin University, Ireland, formerly Surgeon British Royal Navy Service, English Specialist in Catarrh and Chronic Diseases, 7 to 13 Doane Street, Boston. He will dispense your case free.

HENRY MORGAN & CO., Montreal.

REV. JOHN PRINCE.

The Venerable Clergyman Died At Moncton Last Night Aged 80 Years.

MONCTON, N. B., Sept. 13.—Rev. John Prince, retired Methodist minister, died here last night after a few days' illness, of pneumonia in his 81st year.

Rev. John Prince was of excellent English ancestry. His grandfather, Thomas Prince, settled in Maine, and his father, Thomas Prince, Jr., came to New Brunswick in 1814 as a lumber merchant. Rev. John Prince was one of nine children, receiving his elementary education in Moncton, and studying for the ministry under Rev. W. Wilson. He also attended the Baptist Seminary at Fredericton. His first probationary charge was in Prince Edward Island, and his ordination took place in old Caledonia church in St. John in 1850. Since that time he has had charge of some of the most important circuits in the province. In 1874 Mr. Prince had the honor of being chosen as a delegate to the General Conference, held in Toronto, and afterwards was chairman of a district conference, and served as president of the New Brunswick Conference, as also financial secretary of the New Brunswick Conference. In 1879 he was forced to retire from active pastoral work through ill health; but his influence for good as an upright, honest man and a true christian abides in the community in which he lives, and extends far out into the world around him. In 1859 Mr. Prince married Ann J., daughter of the late Thos. Embree, of Amherst, her death occurring in 1889. She left two daughters, Mrs. Geo. H. Barnes, of Sussex Vale, and Mrs. John W. Hickman, of Amherst. Mr. Prince was married the second time to Mrs. Cynthia Wood, mother of Senator Wood, of Sackville. Prof. Simon Newcomb, the famous American astronomer, and Anita McGee, M. D., wife of Prof. McGee, the eminent scientist, are nephew and niece of the deceased Moncton clergyman.

A GREAT CROWD THURSDAY.

Fine weather smiled on the exhibition Thursday, with the result that the patronage sprang up with a bound. The morning attendance was good, while the afternoon and evening kept the turnstiles clicking merrily. All departments of the show were in full running order, and the carpenters managed to repair the mid-air runway in time to enable Marvellous Marsh to give his long postponed thrilling ride in the evening. This, with the best display of fireworks ever seen on the exhibition grounds, delighted the multitude that thronged the parade grounds. Amusement hall was packed at each performance, and the Waragraph pictures did a rushing business. Agricultural hall with its vegetables and fruits and practical dairy, was a scene of bustling activity, and the horse ring had its large quota of admirers.

The attendance for the day reached the high figure of 10,616, against 10,491 last year. The patronage to date for the two years is:

Table with 2 columns: Year, Attendance. 1899: 1899, 1900. 1st day: 590, 2,012. 2nd day: 3,970, 2,987. 3rd day: 4,877, 4,178. 4th day: 10,491, 10,616. Total: 19,921, 19,693.

RICHIBUCTO

RICHIBUCTO, Sept. 13.—Bernard Gorman, J. P., one of the oldest residents of St. Louis parish, died this morning, aged eighty-eight years. The deceased leaves a number of sons and daughters, among the former being J. Gorman of the Bay View hotel, Buatoche, and Thomas Gorman of the Brunswick at Moncton. The liberals have called a convention to meet at Buatoche on the 19th.

MADRID, Sept. 12.—The Swiss arrested at San Sebastian yesterday, charged with plotting to assassinate a European monarch, is named Walter. He is thirty years of age and was born near Lausanne. His departure from New York about three weeks ago was due to the police searches in an archivist centre in consequence of the assassination of King Humbert.
