

# OXYDONOR 'VICTORY'

(Trade Mark Registered)

INVENTED AND DISCOVERED BY

Dr. Hercules Sanche

A Native of the Province of Quebec, Canada, after 35 years of earnest investigation of the Natural Causes and Cure of Disease.

The Only Genuine Instruments for the Cure of Disease by this Method.

Oxydnor Gives Vigorous Health

And Cures all forms of Disease at any reasonable stage, without Medicine or electricity.

ONE OXYDNOR

will keep an entire family in good health, and will last a life-time if taken care of.

SHOWING HOW OXYDNOR IS APPLIED

The following convincing expressions from prominent and progressive people are kindly given us for publication to the benefit of humanity:

Ex-Governor of Florida, Hon. Geo. F. Drew, writes:

JACKSONVILLE, Fla., March 4, 1899.  
The Oxydnor "Victory" cured me entirely of injuries I sustained from a very severe fall, and I have never had a return of the trouble. It has twice cured me of inflammation, Rheumatism and twice it has given me almost instant relief from attacks of La Grippe. I have taken no medicine since I began the use of this instrument more than six years ago. My health has been better since I used the Oxydnor than at any period since I arrived at manhood, and I am now nearly seventy-two years old.  
Yours truly,  
GEORGE F. DREW.

Professor Fletcher Osgood

writes from Chelsea, Mass., July 25, 1899.  
I have found Dr. Sanche's Oxydnor a highly useful assistant in warding off or ameliorating attacks of illness. Under conditions of extreme nerve strain it has the happy faculty of producing natural and wholesome sleep.  
FLETCHER OSGOOD.

Rev. A. McBean,

SECRETARY AND SUPERINTENDENT, Religious Book and Tract Society, writes:  
461 William St., Winnipeg, Man.,  
January 15, 1899.

DR. H. SANCHE &amp; Co.

Dear Sirs:—I have been a sufferer from a severe case of Catarrh of the head and throat for fourteen years. Previous to using Oxydnor my health was broken down and I had to retire from my work. I have been using Oxydnor for about three years, and my general health is very greatly improved, and a radical and complete cure of Catarrh is being effected. I am now able, in my 73rd year, to resume my life work.

Quite a number of leading citizens in this city have obtained Oxydnors and speak of them in the most favorable terms.  
A. McBEAN.

Rheumatism, Sciatica.

GLENNARROW, Ont., March 20, 1899.

DR. H. SANCHE & Co.  
Dear Sirs:—It is with pleasure that I can testify from my own experience to the value of Oxydnor for curing Sciatica and Rheumatism of any kind. I have also used Oxydnor for La Grippe and colds with myself and other members of my family. Oxydnor is far ahead of medicine in my estimation.  
Yours respectfully,  
MRS. WM. MUNDELL.

DYSPEPSIA.

ARNPRIOR, Ont., Nov. 14, 1898.

DR. H. SANCHE & Co.  
Dear Sirs:—My wife, Jessie De Renzy, purchased one of your Oxydnors and has been using it almost continually ever since she received it. She is a new person, she has improved so much from Dyspepsia.  
You can use our name as reference.  
Yours respectfully,  
EDWARD DE RENZY, Postmaster.

Descriptive books containing hundreds of certificates of self cures sent to any address upon request.  
A 170-page book of directions accompanies each Oxydnor.

REFUSE IMITATIONS

advertised under different names. The genuine is plainly stamped with the name of the discoverer and inventor, "Dr. H. SANCHE." The buyer as well as the sellers and makers of the imitation is liable for damages.  
We sell our instruments at exactly the same prices in Canada as in the United States.

Dr. H. Sanche &amp; Company,

208 ST. CATHERINE STREET,

United States Office Montreal

## News Summary.

The Scott act in Brome, Quebec, was repealed Tuesday by about five hundred majority.

The Natal volunteers have been officially ordered to hold themselves in readiness for active service.

Hon. J. I. Tarte, Lord Strathcona and Sanford Fleming have been appointed commissioners to represent Canada at the Pacific cable conference in London.

The Spanish Chamber of Deputies on Monday approved the bill ceding the Caroline Islands, the Ladrone and the Pelew Islands to Germany.

During a storm Tuesday a boating party at Dunbar, Wis., was capsized and four adults and two children were drowned. Much damage was done to standing timber by the storm.

In a conflict Tuesday between peasants and police arising out of an election riot at Slatina, Roumania, the troops were called out and fired upon the mob. Several persons were killed and many wounded.

The government has ordered a battery of heavy guns to Kimberley for the defence of the diamond mines. There is great activity in the Cape imperial command and munitions of war are being sent northward in large quantities.

The Globe's London cable says: A contract has been agreed upon and will shortly be signed for the fast steamship service between the West Indies and Canada. An arrangement has been arrived at with the active assistance of the colonial office.

Miss Ethelwyn Pitcher of Montreal, a graduate of McGill, has been appointed principal of the Halifax Ladies' College. Miss Canong, sister of Professor William Canong of Smith College, has been appointed teacher of science.

In the parliamentary by-election held Monday in the southern division of Edinburgh Arthur Dewar, Radical, defeated the Liberal Unionist candidate, Major Gen. Andrew G. Wauchope, carrying the division by a majority of 831 votes. The late member, Robert Cox, was a Unionist.

The illness of Emperor Francis Joseph, of Austria, is causing alarm. The Emperor is confined to his bed at Ischia suffering from a relapse from a cold. He is reported to be better. Thousands of telegrams have been received enquiring about his condition.

Over fifty small villages have been looted and burned in the Tinnevely district. At one town more than a hundred murders were committed. The victims in many cases were literally hacked to pieces and thrown into the flames of their burning homes.

A special cable from London states: It is officially stated here in connection with the reciprocity treaty between Great Britain and Barbados, which was signed at Washington on Saturday last, that the British government has arranged that whatever concessions are given to the United States shall also as a matter of course be given to Canada.

Dr. W. N. Clarke's "Outline of Christian Theology," a notice of which lately appeared in this paper from the pen of Rev. A. C. Chute, can be obtained at the Baptist Book Room, 9 Richmond St. West, Toronto, Ont., price \$2.50.

Henry Norman, the London correspondent of the New York Times, says of Esterhazy that his dismissal from the army involved the loss of his pension of 6,000 francs a year, and that he refrained for so long from confessing to having written the bordereau in the hope that his pension might be granted to him again as the price of his silence. Nevertheless, he refused an offer for the confession of an annuity which would have paid him 6,000 francs a year for life. "I made him this offer myself," says Mr. Norman, "so I know."

Dr. C. A. McQuesten, who was on the staff of Gen. E. S. Otis and was health official at Manila, has returned home, invalid by overwork. Capt. McQuesten is of the opinion that it will take from 100,000 to 150,000 soldiers to properly subdue and hold the islands. He also says that the peace commission was an absolute failure and that its work from the start was without effect. He strongly supports the military government of the islands, except that he thinks more men will be necessary than has been estimated. The American soldiers simply cannot stand the climate. Fifty per cent of them will be incapacitated by sickness and the territory overrun will have to be abandoned. Manila will be in a state of siege then. As a matter of belief the Philippines think they have the Americans licked already. One solution of the situation might be to enlist colored men from the Gulf states and this might settle some of the race questions of that section. These men would be better able to stand the climate conditions around Manila and it has been proven that they are good fighters.

## PARSONS PILLS

will cure Biliousness, Constipation, all Liver complaints. They expel impurities from the blood. Delicate women find sure relief from using them.  
To Cure Sick Headache  
and remove impurities from the stomach and bowels. Put up in glass vials. Thirty in a bottle; one a dose. Recommended by many physicians everywhere, as the best Liver Pill made. Sixty-four page book sent free by mail. Sold by all Druggists, or sent post-paid for 25 cents in stamps. L. S. JOHNSON & Co., Boston, Mass.

### Plant Forest Trees.

I am fully convinced that many of our large farmers can do nothing more wisely than to plant at least one-sixth of each hundred acres to forest. Smaller farms might devote at least enough to forest trees to create a maple grove for sugar and to supply the home need for firewood and lumber.

Dr. Fernow, of the Agricultural Department at Washington, reports that the total yearly consumption of wood in the United States is not less than 25,000,000,000 cubic feet, or an average of fifty cubic feet to the acreage on a basis of five million acres of wooded land in the whole country.

This land has an average of two thousand cubic feet an acre. Hence it is easy to calculate that, at our present rate of timber consumption, the supply will last only forty years. This is a curious coincidence, that our wood supply and our coal supply will be exhausted in just about the same period of time. But we can replace our timber, while we cannot replace our coal. In Germany and Austria, however, where the forest laws are strict, the average increase is not over 35 per cent an acre. With this ratio of increase we shall not be able to catch up with the consumption, unless we can stop useless waste. The Secretary of Agriculture reports that the Government has now one hundred acres under public management. Economic changes in lumbering will be the result. A study of fire prevention and fire fighting is being made, in order to lessen the waste made by forest fires. Wood supply is becoming a matter of such importance that the Department deems it wise to give it more special attention.

It is certain that the next generation, even if electric heating comes about, will use more wood than we do. To avoid economic disaster, we must make preparation for the needs of our children. Dr. Orton, president of the American Association for the Advancement of Science, believes that by 1950 we shall be once more in great need of firewood.

### Have You Weak Lungs?

Every Sufferer From Lung Weakness, Consumption, Bronchitis and Throat and Lung Troubles Can be Cured.

Nearly everybody you meet will regard it as a kind of insult to be asked if they have weak lungs. All seem to have a solid faith in the soundness of their own breathing machine. In cases of trouble they will admit there is a "heavy cold," a "touch of Bronchitis," or even a "spell of Asthma," but as to weak or unsound lungs—never—NEVER. Even the poor consumptive who scarcely speaks without coughing, whose cheeks are wasted, hollow, and bear the hectic flush of doom, will assure you with glistening eyes that his cold is on the mend, and he will be all right when the weather changes.

Never was there a cure for lung troubles equal to the newly-discovered Dr. Slocum treatment. This forms a system of three remedies that are used simultaneously and supplement each other's curative action. It cures weak lungs, bronchitis, coughs, consumption and every other ailment of the pulmonary region. It destroys every germ that can affect the respiratory system, and even in advanced stages of lung trouble positively arrests the tubercular growth, while it also builds up the patient so that his system is enabled to throw off all other wasting diseases.

Thousands of cured cases already prove these claims. Thousands of grateful people bless the discovery.

If the reader is a consumptive or has lung or throat trouble, general debility or wasting away, do not despair, but send your name, postoffice, and nearest express office address to the T. A. Slocum Chemical Co., Limited, 179 King street west, Toronto, when three large bottles (the Slocum Cure) will be sent you free. Don't delay until it is too late, but send at once for these free samples and be convinced of the efficacy of this great remedy.

Persons in Canada seeing Slocum's free offer in American and English papers will please send to Toronto for free samples.

Mention this paper

Cramps,  
Colic,  
Colds,

Croup,  
Coughs,  
Tooth-  
ache,

Diarrhoea,  
Dysentery,

and all Bowel Complaints.

A Sure, Safe, Quick Cure for these troubles is

## Pain-Killer.

It is the trusted friend of the Mechanic, Farmer, Planter, Sailor, and in fact all classes. Used Internally or externally.

Beware of imitations. Take none but the genuine "PERRY DAVIS." Sold everywhere.

25c. and 50c. bottles.

## No Summer Vacation.

St. John's delicious summer weather, and our superior ventilating facilities, make summer study just as pleasant as at any other time. In fact, there is no better time for entering than just now.

THE IRVING PITMAN SHORTHAND and the New Business practice (for use of which we hold exclusive right) are great attendance promoters.

Catalogues to any address.

S. KERR & SON.

## CANADIAN PACIFIC RY.

### SINGLE FARE

TO

## Christian Endeavor CONVENTION

At Detroit, Mich., July 5 to 10.

A PERSONALLY CONDUCTED PARTY to the above will also spend one day at each of the following places, viz:

MONTREAL, OTTAWA,  
TORONTO, NIAGARA FALLS

Write for pamphlets of rates and dates showing that the entire trip of 11 days can be made for an expenditure of less than \$60.00.

A. H. NOTMAN,  
Asst. Genl. Pass. Agt.,  
St. John, N. B.

## Scrofula.

Another permanent cure by B.B.B. after two doctors failed.

Ask any doctor and he will tell you that, next to cancer, scrofula is one of the hardest diseases to cure.

Yet Burdock Blood Bitters applied externally to the parts affected and taken internally cured Rev. Wm. Stout, of Kirkton, Ont., permanently, after many prominent physicians failed; Cured Mrs. W. Bennet, of Crewson's Corners, Ont., permanently, when everyone thought she would die. Now Mr. H. H. Forest, Windsor Mills, P.Q., states his case as follows:

"After having used Burdock Blood Bitters for scrofula in the blood, I feel it my duty to make known the results. I was treated by two skilled physicians, but they failed to cure me. I had running sores on my hands and legs which I could get nothing to heal until I tried B.B.B. This remedy healed them completely and permanently, leaving the skin and flesh sound and whole."
