Acadia's President in the City.

Dr. G. B. Cullen, president of Acadia University, was at the Dufferin yesterday on his way home from the convention at Sussex. Speaking to a reporter, he said the campaign to raise \$200,000 for the university was progressing favorably. Already three men have subscribed a total of \$75,000, and further subscriptions are in sight. "The indications are," he added, "that the classes at the college next term will be unusually large."

Horseman Breaks a Limb.

While leading a horse on City Road about 7 o'clock last evening, Thomas Green, the well known horseman, was kicked by the animal, and as a result is now lying at his home in Haymarket square, with a broken leg. The force of the kick knocked Mr. Green to the street in a semi-conscious condition, and a large crowd thinking that he must have been killed, gathered about the place. The ambulance was summoned and he was taken to the Brunswick Hotel, where his injury was attended to by Dr. Geo. O. Baxter. He was later reported to be resting easily.

Fears Accident on River.

A gentleman who travels a good deal on the river declared yesterday that river craft, and especially motor boats are in the habit of winding sharp bends in a rather reckless manner, and without blowing their whistles, "some of these fine days," he added, "there will be a collision, and lives may be lost. Many of these motor boats travel at a great speed, and two of them coming from opposite directions are liable to collide any time at the sharp turns. It seems to me the boats ought to make signals of some kind when approaching the turns, in order to warn any craft approaching from the opposite direction."

ANNUAL INSPECTION

OF THIRD REGIMENT

Col. Humphrey and Major Ogilvie Inspected Artillery Last Night and Were Pleased With Showing Made.

The annual inspection of the 3rd New Brunswick Heavy Brigade, Canadian Artillery took place on the Barrack Green last evening when the men were inspected by Col. J. M. Humphrey, D. O. C., and Major A. T. Ogilvie, of the R. C. A., Halifax, inspector of artillery. The brigade was under the command of Lt. Col. J. B. Baxter, No. 4 Battery in command of Major W. H. Harrison, No. 5 in command of Major S. B. Smith and No. 6 in command of Major L. W. Barker.

It was 8:15 when the brigade lined up and after Col. Humphrey and Major Ogilvie had inspected the lines, Major Ogilvie inspected each battery in infantry movements. No. 4 Battery was then put through section and gun drill and several of the officers and non-commissioned officers were examined in their duties.

This evening Major Ogilvie will inspect No. 5 and No. 6 Batteries at gun drill and will also complete the examination of the officers in their duties. The regiment is in a high state of proficiency having been instructed during the spring and summer in drill by Sergeant Instructor Sutherland from Quebec. On Monday a muster parade will be held on the Barrack Green at which Paymaster Siroon, of Halifax, will be present.

EXPECT THAT ROSSI

MAY PLEAD GUILTY

The Italian Who Shot Diego Siracuso Will be Arraigned Again in the Police Court Today.

The preliminary hearing of the young Italian, Giovanni Rossi, will be resumed before Magistrate Ritchie in the police court today. Although Rossi appeared to take his position lightly during the first few weeks of his confinement in prison, recent developments seemed to have awakened him from his apathy, and his indifference has changed to brooding and morose sullenness. During the last few days he has eaten but very little and is beginning to grow wan and thin. He has not expressed any desire for counsel and the general belief is that he will plead guilty when arraigned before Judge Landry in the supreme court.

It has been arranged with Mr. Theodore H. Bird, director of the amateur production that the proceeds of this special benefit performance be handed into the Mayor's office, Tuesday, 19th, to be added to the general public relief fund. The hotel proprietors of the city are of the opinion that the accommodation of visitors to the big fair will be a large problem, the more especially as the tourist season will be in full swing, when the exhibition is held. Some of them express the opinion that the date of the exhibition should have been fixed later in the autumn, so as to relieve the pressure on the accommodation for transients.

PLUMBERS AND STEAM

FITTERS TO ORGANIZE

Building Trades Council Met Last Night and Considered Practicability of Organizing These Trades at Once.

A meeting of the Building Trades Council was held in the Bricklayers' Hall on Brussels street last evening. President Brown in the chair. After the transaction of some routine business, arrangements for organizing the plumbers and steam fitters were discussed. It was decided to hold a meeting of these trades for organizing purposes in a short time, and to send notices to all the journeymen plumbers and steamfitters in the city. A communication was received from Secretary Draper of the Trades and Labor Congress of Canada, notifying the council that the annual convention would be held at Fort William, Ont., in September, and pointing out the advisability of sending delegates. It is expected that John A. Flett of Hamilton, the well known labor organizer, who is now working in the west will be sent to St. John in the autumn to assist in the work of organizing trade unions here.

THINKS CITY SHOULD

CLEAN UP FOR FAIR

Walter McPartland Submits Offers to Clean the Exterior of the City Hall and Post Office.

Walter McPartland, a St. John man, who has spent some years in the states has returned for the purpose of helping St. John put on a good front for the exhibition. His idea is to clean the face of stone and brick buildings with a sand blast machine. The other day he offered for consideration, to clean up the city hall and make it look as good as new, and Mayor Frink, who is not particularly pleased with the mildewed appearance of the civic palace, would like to see him get to work. Mr. McPartland has also called the attention of Post Master Sears to the ancient and moldy aspect of the post office and intimated that it would be a good thing to have it cleaned-up before exhibition week, so that visitors going down to mail picture post cards of the big fair, might not carry away an impression that St. John is in the same class of cities as "dear dingy Halifax."

CITY HOTELS REPORT

VERY GOOD BUSINESS

Tourist Season Has Opened Well and All Indications Point to a Very Heavy Summer Travel.

For the past week a hot wave has been rolling over the states, and the hubbub of the hub and other places, are doubtless hurrying and singing as they tell the good news that the wife has gone away. A goodly number of these wives are headed for the green glades and breezy beaches of the Maritime Provinces and St. John is beginning to be gay with the white linen and multicolored sweaters of tourists. Most of the tourists who grace St. John with their presence are birds of passage, and after taking an observation of the Reversible Falls, and a stroll in Rockwood Park, pick up their grips and fly away to the beaches.

The Eastern Steamship Company's boats carry hundreds of passengers every trip, but probably a majority of these so far have proceeded on to the Land of Evangeline by the Prince Rupert. This route is becoming popular, though the boats running from Boston to Yarmouth and Digby still carry as many tourists as they can comfortably accommodate. The St. John hotels are doing a good business, though the season has just begun, and the indications are that the tourist traffic this year will be unusually large. The manager of the Royal stated last evening that the number of tourists registering there was quite large, and that twelve different parties were expected before long. The prospects were, he thought, that the tourists would flock to the city this summer in greater numbers than ever before. At the Dufferin it was said that the tourist business so far was fair, and that a good season was expected. The cheaper hotels are doing a good business, and some of them are not able to accommodate all the tourists of this class that apply for rooms. At the information bureau of the tourist association, the inquiries have been more numerous up to the present than in any corresponding period in previous years.
