

SIR GEO. ROSS' LAST MESSAGE

His Speech In Reply to Address in Reality His Farewell.

DEATH TOOK PLACE SATURDAY MORNING.

Entered Politics in 1883 and Was Appointed to the Upper House Seven Years Ago.

Toronto, Mar. 7.—Sir George Ross, Senator of the Dominion of Canada, and, prior to 1905, Premier of the province of Ontario, died at 8 o'clock this morning, after an illness of several weeks.

The Hon. George William Ross was born in Nalra County, Ontario, on September 18, 1841. After completing his education in the public schools, he qualified as a teacher, later becoming an inspector of schools. After passing the necessary examinations, he was called to the Ontario Bar in 1887, but never practiced. The development of educational facilities was, however, his special hobby, and he edited a publication called the Teacher, which did much to promote the cause he had at heart. A strong advocate of temperance, he was elected a delegate to the Congress upon the subject held in London in 1888.

In 1883 Mr. Ross entered the House of Commons, but resigned his seat to become Minister of Education in the provincial cabinet of Ontario under the premiership of the late Sir Oliver Mowat and the Hon. A. S. Hardy, holding that office until 1899, when he was nominated premier, and took the portfolio of provincial treasurer.

During his administration educational and temperance measures were prominent features of his programme and he actively interested himself in the institution of the Empire Day movement. At the general election of 1905 the Conservative party obtained a majority for the first time since 1872 and Sir James Whitney was called to the office of premier, which he still holds. Mr. Ross acted as leader of the Opposition in the provincial house until 1907, when he was called to the Senate. He was Opposition leader in the Senate for a brief period.

His Last Message.

Ottawa, Mar. 7.—The farewell message of the late Sir George Ross to the people of Canada, is given in his last words in the Senate, in concluding his speech on the address in reply to the speech from the throne on January 22. The physical effort of that speech delivered in an overheated chamber had probably something to do with the illness which immediately followed and which resulted in his death. His last words were:

"Now let us apply our energy to the great problems that lie before us. That is my politics whether I am here or elsewhere. Canada has to confront tremendous problems. We are a country as large as the continent of Europe. Lord Strathcona has predicted that we will have twenty millions of a population within the next ten years. We are the forerunners of a tremendous destiny, which should weigh on the minds of every one of us. If a navy is necessary for the defence of the Empire, let us make a bill to which both parties will agree. And in whatever respect legislation is necessary for strengthening the institutions of this country, for assimilating our foreign population, for furnishing suitable transportation, for deepening our harbours, for strengthening the ties between us and the Empire, for extending our commerce on the seven seas, for standing as prominently as we ought to stand before the nations of the world as a great commercial people, thoroughly independent—leaning on no arm for assistance, not even the arm of the Empire—let us work out our destiny in our own way. Let us stop quarrelling about matters of mere party differences, and let us join hands. Let there be no discord or dissension. The task is large enough to demand all the powers that we possess. To that task, this Senate, I hope, is as willing to address itself as is the House of Commons, or any political body in the Dominion of Canada."

TO DISCUSS THE REDISTRIBUTION QUESTION

Charlottetown, Mar. 8.—Premier Matheson and Hon. John McLean, member of his executive, left tonight for Ottawa, having been summoned to discuss with the committee on redistribution the federal representation of the Island. Hon. W. S. Nervous Energy Is Limited

There is only so much energy in each human body. A few persons have an abundance, but more have not enough. Hence the necessity of conserving vitality.

If wasted by mode of living, disease or worry, there must be a result. It may be headache and weak, nervous system. It may be nervous indigestion, or it may be merely lack of energy and ambition, and feelings of fatigue or indifference. Of course, the cause of all this is the same. The nervous energy is being dissipated, and the result is a general weakness, which may be cured by the use of Nervine.

Dr. J. C. Williams, of New York, writes: "I have known many cases of nervous energy being dissipated by the use of Nervine. It is a powerful tonic, and it will build up the nervous system, and give you the energy you need for your work."

CASE OF VETERAN BOER AROUSES GREAT INTEREST

Gen. Syman, Turned Off Ranch In Mexico Was Naturalized Britisher, and Turned Rebel.

El Paso, Texas, March 8.—Great interest was manifested today in the case of General M. B. Syman, the former Boer general who has been ordered from his three thousand acre ranch, La Reina, 45 miles south of Chihuahua, and the estate itself confiscated.

Syman is well known here. He was one of the leaders in forming a Boer colony in Mexico after the British triumph in South Africa. He was born a Boer but became naturalized as a Briton and before the war was elected to the Cape assembly. He turned rebel against his adopted country, however, but was restored to citizenship several years ago by King Edward's proclamation of amnesty.

Syman is accused of allowing the federalists to use his ranch as a recruiting headquarters, and there is said to be a further allegation that he has not paid for his ranch. Friends of Syman and his son, G. C. Syman, now here, deny the charges.

The veteran Boer fighter was outspoken against the rebellion of Madero against Porfirio Diaz, but he is said to have maintained a neutral attitude since then.

AVERS SLAVERY EXISTS IN THE PHILIPPINES

PROF. DEAN C. WORCESTER

Slavery in the full meaning of the word exists throughout the Philippines, even in the city of Manila, and peonage is general in the islands, according to a special report Dean Worcester, a commissioner, has made to the insular government. It has not been received by the War Department, but copies are in the hands of other officials.

Philippines in some parts of the islands commonly capture children and sell them into slavery for profit; some are sent to China, where they are dressed in the native fashion. Some children have been enticed from their homes by slave agents upon promises of scholarships in schools, and some of these, in an instance which Mr. Worcester reports in detail, were sold and others were turned out for money.

'LONGSHOREMEN IN MONTREAL ASK FOR INCREASE IN WAGES

Refusal May Mean Tie-up of Shipping During Summer—Strike Would Involve Three Thousand Men.

Montreal, Mar. 8.—Serious trouble with the longshoremen may occur when navigation opens for the season. They are presenting a petition to the Shipping Federation asking for an increase in pay to bring them in line with the longshoremen along the Atlantic.

There are nearly three thousand men employed around the docks in the summer and a strike of these would tie up the entire shipping service of the harbor and the St. Lawrence river.

Report Denied.

Thomas Robb, secretary of the Shipping Federation, said tonight, that there was no truth in the report that trouble was impending between the longshoremen and the shipping interests on the question of wages. In fact there was a standing agreement between the steamship companies and the men, which had several years to run, and in addition to this the relations between the steamship companies and the longshoremen were very cordial, without the slightest difficulty of any kind in sight.

Hunter Raine will stand trial, and, according to his lawyers, will lay bare a sensational story of negligence and breach of trust which will include in its ramifications financiers hitherto regarded as of unimpeachable character. Magic "Nervine" Cures Toothache, Earache

IT RELIEVES EVERY EXTERNAL PAIN.

Cures Colds, Coughs, Sore Throat

Tight Chest and Hoarseness.

It's when sickness comes at night, when you are far from the druggist or the doctor, that's when you need Nervine most. Experienced mothers are never without it. One of the children may have toothache. Without Nervine—a sleepless night for the entire household. With Nervine the pain is relieved quickly. It may be earache, perhaps a stiff neck, or one of the kiddies coughing with a bad chest cold. Nothing can give quicker results than vigorous rubbing with this old-time family remedy.

Nervine is too useful, too valuable to be without. For lumbago, lame back, sciatica or neuralgia there is no salve so effective as Nervine's power to penetrate and ease the pain.

As a family safeguard, as something to ward off sickness and to cure the minor ills that will come in every family, to cure pain anywhere, you can find nothing to compare with old-time Nervine, which for forty years has been the most widely used family remedy in the Dominion. The secret ingredient was in the large 50c. family size bottle, small trial size 25c. All druggists sell Nervine.
