POWER COMPANY ASKS COMMISSION

(Continued from page 3)
of the war and while the present high price of coal obtains, the maximum amount that your petitioner may charge for gas may be fixed in the direction of its Board of Directors at any sum not exceeding two dollars and fifty cents per thousand cubic feet.
14. Electric Light—Your petitioner's change in the rates for electric lighting and power from those previously charged by the St. John Railway Company was due to your petitioner's expectation forthwith to develop its water power. It was felt that with its nineteen thousand horse power of water power developed your petitioner would be able to furnish power in large quantities at greatly reduced rates, and therefore your petitioner's charter provided for a revised tariff principally effecting large consumers. In the course of working out this tariff on a scientific basis a minimum standby charge of one dollar per month was made for electric light. This minimum charge of one dollar per month for electric light has been considered by the public in practice to

bear unduly hard upon a large portion of the community and your petitioner is desirous that during the period of the war the community may if possible be relieved from the necessity of paying the minimum charge of one dollar per month. The imposition of this charge prevents many from having the benefit of electric light, because they feel they cannot afford to pay the minimum amount of one dollar per month, though the standby service and labor on your petitioner's part amply warrant the charge. At the same time owing to the increased cost of development of waterpower it is probably not practicable during the continuance of the war for your petitioner to develop water power. This is due also to the great difficulty of financing the expense of water power development at the present time and to the government's requirements for war loans. The rates previously charged by the Saint John Railway Company should, it is respectfully submitted, be available to your petitioner during the period of the war until the expense of operating remain at their present level or until hydro-electric development is practicable, and your petitioner therefore prays that it be permitted to charge the rates previously charged by the Saint John Railway Company. In view of the increasing cost of coal and the increasing cost of supplies, which are likely to still further increase, it may not be possible for your petitioner to continue operation without a further revision of rates and therefore in your petitioner's bill a clause has been inserted giving the Lieutenant Governor-in-Council power to grant your petitioner should the price of coal increase beyond the price now paid of seven dollars per ton, to increase your petitioner's rates to an amount commensurate with such increase in the cost of operation. This provision has been not uncommon throughout the Eastern United States and has been found satisfactory. The further probable increase in the cost of coal and the proposed daylight saving legislation, may make your petitioner's position so serious that assistance may be urgently required before the legislature meets again.

15. Your petitioner's securities are largely held by shareholders throughout the Province of New Brunswick and throughout the New England States. The Bonds were purchased by Messrs. Forbe & Company, of Boston, Massachusetts, and an issue of one million dollars of preferred stock by Messrs. Bodell & Company, of Providence, Rhode Island, and Boston, Massachusetts. The companies are regarded as the most reliable companies in their respective lines of business in the New England States and recommended your petitioner's securities as an investment. It is in the interest not only of your petitioner, but of the credit of the entire Province, that a sufficient revenue should be assured to enable the interest on such bonds and the dividends on such preferred stock to be paid. The result of defaulting in such dividends and interest would be disastrous to the Province.

16. The increased revenue which your petitioner will receive by reverting to the Saint John Railway rates will be about fifty-eight thousand dollars per annum if there be no daylight saving legislation and if daylight saving is passed the amount will be much less, probably not over thirty thousand dollars per annum. If all the relief asked for be granted, your petitioner's net revenue for 1918, making no charge for depreciation and assuming the revised charges go into effect on the 1st of May, 1918, will be \$308,965.04, and the amount required to pay your petitioner's bond interest is \$87,500.00 and preferred stock dividend is \$94,500.00, leaving an estimated surplus for depreciation and maintenance of \$126,965.04.

18. In a letter on February 19, 1918, to the Secretary of the Treasury, President Woodrow Wilson says: "I fully share the views you express regarding the importance of the Public Service Utilities as a part of our national equipment, especially in War time. It is essential that these utilities should be maintained at the maximum efficiency possible at every moment with that end in view. I hope that state and local authorities, where they have not already done so, will, when the facts are properly laid before them, respond promptly to the necessities of the situation."

Your petitioner as in duty bound will ever pray.
New Brunswick Power Company.
L. R. ROSS, President.
H. M. HOPPER, Secretary.

OBITUARY

Arthur Fox.
The death of Arthur Fox of this city occurred early yesterday morning after a lingering illness. He was a son of the late James Fox, at one time a well known brick manufacturer here. Fox was sixty-eight years old and leaves two sons, Arthur of this city and Samuel of Montana; and five brothers, Matthew, George, Andrew and Walter of this city and Albert of Houlton, and one sister, Mrs. William Wilson, of Cambridge, Mass. The funeral will be held this afternoon at 2.30 o'clock from his late residence, 15 Frederick street. Mrs. Murdoch McLean.
The death of Mrs. Murdoch McLean, formerly of this city, and daughter of McLeod Kierstead of Belleisle Creek, took place in Winnipeg on Feb. 28 after a lingering illness. She leaves her husband, one son and daughter, two sisters and brother to mourn. Interment was made in Winnipeg.

FUNERALS

The funeral of Mrs. Prudence Amelia Vail, wife of the late William H. Vail, took place Wednesday afternoon at two o'clock from their residence in Springfield, Kings county, N. B. She leaves to mourn four daughters, Elouise M. and Mrs. Walter Kierstead of St. John, Mrs. J. A. Deubart of Springfield and Mrs. Geo. E. Gray of Belleisle, also four sons, Charles B. and Daniel E., at home, Chesley M., councillor of Springfield and David H. of Swift & Co., Providence, R. I. There are sixteen grandchildren, two of these, Isabelle and Willie Kirk, having made their home with their grandmother.

THE SPRING TONIC FOR PALE, THIN PEOPLE

If you Want to Gain in Weight and Recover Your Appetite, Energy and Ambition, Try This Well Known Remedy.

With the passing of winter many people feel weak, depressed and easily tired. The body lacks that vital force and energy which pure blood alone can give. In a word, while not exactly sick, the indoor life of winter has left its mark upon them, and a blood-building, nerve-restoring tonic is needed to give renewed health and energy. Dr. Williams' Pink Pills are an all-year-round blood builder and nerve tonic, but they are especially useful in the spring. Every dose helps to make new, rich, red blood, and with this new blood returning strength, cheerfulness and good health quickly follows.

If you are pale and mallow, easily tired, or breathless at the least exertion; if your complexion is poor, or if you are troubled with pimples or eruptions, Dr. Williams' Pink Pills are just what you need to put you right. If you have twinges of rheumatism, are subject to headaches or backaches, if you are irritable or nervous, if your sleep does not refresh you, or your appetite is poor, you need the treatment which Dr. Williams' Pink Pills alone can give—you need the new blood, new health and new energy this medicine always brings.

A COMPLETE WRECK.

Mrs. C. Forsythe, R. R. No. 2, Fisherville, Ont., says: "At the age of four my daughter Wola was feeling very much run down in the spring. Then she was attacked with whooping cough which left her a complete wreck. She had no appetite, could not sleep well nights and was subject to chills which sometimes kept her in bed for the day. She was doctoring steadily, but not apparently getting the least benefit, and I naturally grew very anxious. One of my neighbors suggested giving her Dr. Williams' Pink Pills, and I got a box. When she began using the pills she weighed only eighty-seven pounds. Before the box was all gone I sent and got six more boxes, and under their use she constantly grew stronger. Her appetite improved, the color came back to her cheeks, she could sleep well, and feels and looks like a different person, and with all this while using the pills she gained twenty pounds in weight."

A SALLOW COMPLEXION.

Mrs. Gladys Marshall, Chatham, Ont., says: "I suffered from nervousness and my blood was in a very poor condition. My face broke out in pimples and my complexion was very sallow. I took doctors' medicine but without beneficial results. I was feeling much discouraged when a friend recommended Dr. Williams' Pink Pills. I used all six boxes, and was overjoyed to find that my complexion had become quite clear, pimples had disappeared, my nerves were strengthened and my old-time health and ambition returned. I shall always have a good word to say for Dr. Williams' Pink Pills."

Notwithstanding the increased cost of all drugs, there has been no change in the price of our Dr. Williams' Pink Pills. They can be had through any medicine dealer at 50 cents a box, or six boxes for \$2.50, or will be sent on receipt of price by The Dr. Williams' Medicine Co., Brockville, Ont.

since the death of their mother, Mrs. H. W. Kirk, also four sisters and two brothers, one of whom is on active service. Deceased was ill only a few minutes and died of heart failure at the early age of fifty-seven. She was a loving mother and her chief joy was in helping the needy, in which she was untiring. After a short service at the house and service at Belleisle Creek Methodist church, of which she was a member, interment took place at the Union burial ground. Rev. Dr. Ramsey and Rev. Dr. Fenwick officiated. The pallbearers were J. E. McAuley of Millstream, W. D. Gillies, W. B. Scovill, G. E. Akerly, G. N. McIntyre and Albert Reed of Springfield. The funeral was largely attended and many floral tributes tended to show the high esteem in which she was held by all who knew her.

SAVE YOUR HAIR AND BEAUTIFY IT WITH "DANDERINE"

Spend a Few Cental Dandruff Disappears and Hair Stops Coming Out.
Try This! Hair Gets Beautiful, Wavy and Thick in a Few Moments.

If you care for heavy hair, that glistens with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine.
Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff; you cannot have nice, heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots flail, loosen and die; then the hair falls out fast.

If your hair has been neglected and is thin, faded, dry, scraggy or too oily, get a small bottle of Knowlton's Danderine at any drug store or toilet counter for a few cents; apply a little as directed, and ten minutes after you will say this was the best investment you ever made.
We sincerely believe, regardless of everything else advertised, that if you desire soft, lustrous, beautiful hair and lots of it—no dandruff—no itching scalp and no more falling hair—you must use Knowlton's Danderine. It eventually—why not now
