Little Friends of the Liver

The liver is the regulator of health. If the liver is active and well, good health and happiness prevail; but once you allow your liver to get torpid and sluggish, life becomes a misery. Dyspepsia, Indigestion, Biliousness, Constipation, Headaches and Melancholy assail you, resulting in lack of energy, loss of memory and ill health; but remember Carter's Little Liver Pills touch the liver and correct all liver ills. Small Pill—Small Dose—Small Price DR. CARTER'S LITTLE LIVER PILLS, Nature's great nerve and blood tonic for Anemia, Rheumatism, Nervousness, Sleeplessness and Female Weakness.

THE IMPERIAL THEATRE PACKED TO HEAR DR. GEO. PORTER

Nearly Two Thousand Citizens Attended Mass Meeting Yesterday Afternoon Under Auspices of Anti-Tuberculosis Association—Lieut.-Governor Pugsley Presided—Dr. Porter a Forceful Speaker Listened to With Rapt Attention.

That the people of St. John are greatly interested in the campaign for public education in the prevention and cure of tuberculosis was shown by the large attendance at the meeting held under the auspices of the St. John Anti-Tuberculosis Association in the Imperial Theatre yesterday afternoon. Many could not obtain seats but remained standing throughout the meeting. Dr. George Porter, secretary of the Association, presided at the meeting and Lieut.-Governor Pugsley presided and the speakers, in addition to Dr. Porter, were Hon. W. F. F. Farris, minister of health for the province, Rev. Father Duke, and Col. Murray MacLaren, who has recently returned home after distinguished service in the war.

The large attendance was a tribute to the work of the St. John Anti-Tuberculosis Association, which has conducted a free dispensary in the city for ten years or more, giving free advice, medical attendance and the services of a nurse. The association has also been active in promoting the establishment of the St. John County Hospital, an institution which is doing a great work for the cure of consump- tives. Since the association began its work here the death rate from con- sumption in St. John has been reduced from 26 to 12 per 10,000 of population, a convincing proof of its utility.

Dr. Porter, who is a frequent speaker, declared that consumption was not hereditary, and could be cured if properly treated in time. He warned his hearers against the use of patent medicines, and recommended rest, food, and fresh air, and plenty of it, as the essentials in effecting a cure.

Points brought out by the speakers were that four of the most consump- tive is needless, that poor health from any cause is conducive to consump- tion, that people suspicious of bron- chitis, neurasthenia, or other ailments being symptoms of consumption, should at once consult a phy- sician, and give themselves plenty of rest, good food, and fresh air, that hermetically sealed houses were dan- gerous and storm windows should al- ways allow for proper ventilation, that neglected childhood, overwork, un- der-nourishment, poor sanitary condi- tions, vice and disease lowered resistance to tuberculosis, and that householders who were afraid of the sunlight fading their carpets were inviting the destruction of their children.

Lieut.-Governor Pugsley said the meeting was large and representative. It was held under the auspices of the St. John Anti-Tuberculosis Association which had done excellent work in this community. In the past too little at- tention had been devoted to the care of human life. Governments had been more concerned about cattle and vegetables. Rev. Father Duke said a few words of appreciation for the interest shown in the work of the society for the prevention of tuberculosis. Everybody was liable to become a subject of this disease. The society was like a tree with three branches—the first branch was the work that could be done fighting tuberculosis by pen, pamphlet and press—the second branch was the work done by the living voice—the third branch was the work done in the sanatoriums and hospitals. There was abundant testimony to the value of the work done by the sanatorium at River Glade and the St. John County Hospital.

Father Duke went on to point out how the work of the society was helped by voluntary effort, and to urge continuance of the effort to stamp out this disease. Dr. Porter. Dr. Porter was delighted to see such a great crowd to welcome Dr. MacLaren back to St. John. New Brun- swick was the first province to appoint a minister of health. The federal government followed this example, and the farmers' government appoint.

Getting Too Fat? Try This—Reduce

People who don't grow too fat are the fortunate exception. But if you find the fat accumulating or already cumbersome, you will be wise to fol- low this suggestion, which is endorsed by thousands of people who know. Ask your druggist (or if you prefer write to the Marmola Co., 864 Wood- ward Ave., Detroit, Mich., for a large case of Marmola Prescription Tablets, \$1 is the price the world over. By doing this you will be safe from harm- ful drugs and be able to reduce two, three or four pounds a week without dieting or exercise.

The Vessel Failed To Leave The Ways

Builders and Large Crowd of Spectators Disappointed Saturday Morning When "Cutty Sark" Held Fast—Another Trial This Morning.

When all was ready, the blocks having been knocked away on Saturday morn- ing the new four-masted schooner Cutty Sark failed to leave the ways at the Grant & Horne yards, Marsh Bridge. Lines were run to two tug- boats, but they failed to start the ves- sel. The cause of the ship sticking on the ways is said to have been due to the grease becoming hard. It was a great disappointment to the builders and the large crowd that assembled to witness the launching. The vessel was made fast again, she was jacked up, she ways have been taken out, scraped and made ready again and another at- tempt will be made this morning at 11.45 o'clock to give the Cutty Sark her maiden dip. It is expected that the launching will be successful this time.

EVANGELIST CAME ON SPECIAL TRAIN

Dr. Charles Ingles Reached City on Steamer Special and Addressed Three Meet- ings in Brussels St. Church.

Dr. Charles Ingles, of London, Eng., was the speaker at three meetings held in the old Brussels street church yesterday. Dr. Ingles was scheduled to arrive in the city Saturday night from the States, but unfortunately was held over at Vanceboro, Me. Al- though an elderly man he was un- daunted and made arrangements with the C. P. R. officials which enabled him to come to St. John by special train that was taking passengers through to Halifax to embark on a steamer for England.

Despite the inclement weather there was good congregations and all were much impressed with the earnest and able manner of the speaker. His sub- ject for this evening will be "Somes- I have witnessed in the condemned cells of the world." Dr. Ingles will speak every night this week until and including Friday.

LONG DISTANCE MESSENGER

A Western Union boy, E. Foster, was engaged last Wednesday as mes- senger, and safely delivered a valuable parcel at Campbellton, returning to his home on Friday night.

THE ST. JOHN PROTESTANT ORPHANS' HOME

White), \$1,000.00; "In Memoriam," from family of deceased life-long con- tributor, \$500.00; Mrs. Stanley E. Elkin, \$100.00; Vassie Co., Ltd., W. H. Thorne & Co., Ltd., \$50.00 each; Mr. Joshua Stark, \$10.00 each; Miss L. A. Fairweather (Robtessy), E. L. Jarvis (Robert), Wills, Herbert R. Steeves (Campbellton, N. B.), \$5.00 each; Mr. and Mrs. Geo. E. Asha, \$3.00; Mrs. J. Fen Fraser, \$2.00; L. P. D. Tilley, \$50.00; "A Friend," an additional \$50.00 worth of furnishings; St. Martins Sports' Committee, proceeds supper and dance (per K. S. Lynch), \$137.57; Mrs. I. Edgar Golding, \$2.00.

Colonel MacLaren

Dr. Murray MacLaren was given an ovation, which lasted for several minutes. The object of the meeting, he said, was to stimulate interest in the campaign against tuberculosis, and to disseminate information regarding public health. The basis of the treat- ment of the subject was sanitation and hygiene. Once the public understood how to deal with tuberculosis they had gone a long way. Governments were expected to do a great deal in the matter of public health, and New Brunswick, under Dr. Roberts, was taking a leading part. What the governments were doing was vital and essential, but another thing was needed. There should be general re- cognition of our individual duties; there must be willing co-operation with the health authorities. We should inform ourselves about public health, and have a working knowledge of the general rules of health. Every soldier receives certain instruction in sanitation and first aid.

WANTED IN PITTSBURG.

Chief of Police Smith has received a communication from Pittsburg, Pa., that W. B. Stearns is wanted there for forgery. It appears that after Stearns left here, he made his way to that city and there continued his forgery practice. It will be remem- bered that Stearns has been sentenced to two years in Dorchester by Mag- istrate Ritchie for forgery of gratuity cheques.

PROPERTY NOT SOLD. The land on Prince William street opposite the Customs House, owned by T. L. Morrisey and other Montreal men, which was to have been sold at auction in Montreal on Friday, has not yet been disposed of. It may be privately sold this week.

DON'T BUY DUST DUST-LADEN TEAS ARE CHEAP AND TRASHY AND POSITIVELY INJURIOUS TO GOOD HEALTH. "SALADA" CONSISTS OF PURE WHOLE LEAF TEAS PROPERLY BLENDED AND IS ABSOLUTELY FREE FROM DUST.

BABY'S OWN SOAP The flower-fragrant lather of Baby's Own Soap, is so skin-healing and so pleasant, that five generations of Canadians have adopted it as their Standard toilet and nursery soap. Experience has justified this confidence, and because it is "Best For Baby"—Baby's Own Soap is "Best FOR YOU."
