

SALADA BUILDING, MONTREAL.

The magnificent building shown above, situated at the corner of St. Lawrence Blvd. and La Royer Street, Montreal, will be occupied by the Salada Tea Company about February 1st, next. The present building at 111 St. Paul and St. Sulpice Sts., erected 11 years ago, has for some time proved inadequate for the business.

SALADA BUILDING, TORONTO.

THE THREE LARGEST TEA-WAREHOUSES IN THE WORLD

These three huge warehouses owned and operated exclusively by the Salada Tea Company, are the largest in the world devoted to the blending and packing of tea. In less than 20 years "Salada" has become a household word throughout Canada and the United States and is, indeed, by far the largest selling tea in America. Large quantities are also exported to South America and to Europe.

Besides these buildings in Toronto, Montreal and Boston, other Salada offices are situated in Winnipeg, New York, Chicago, Detroit, Buffalo, Pittsburgh, Philadelphia, Los Angeles, San Francisco and London. The Company trades only in tea and only in tea of Salada quality, thus assuring undivided attention to the product. Every packet of Salada wherever bought may be relied upon to be of exactly the same fine quality and to yield an unequalled cup of tea. This policy of keeping faith with the public has been responsible for Salada's extraordinary sale.

SALADA BUILDING, BOSTON.

This building, situated at Stuart and Berkeley Streets, Boston, is constructed of granite and limestone, and has eight stories and a basement. It is replete with every modern convenience for the speedy and "cleanly" packing of tea.

Prof. Morrison Legge, the eminent British scientist, in a recent address before the students of Harvard University, described it as "the finest example of commercial architecture he had ever seen."

UNEMPLOYMENT SITUATION IN FRANCE SERIOUS

Said to be 125,000 Out of Work and the Number Increasing Daily.

Paris, Nov. 21.—The number of former workers now unemployed in France is 125,000 according to official statistics. The total is increasing by eight thousand in the metallurgical industry, leather trade, textile and clothing manufacturing industries and the problem is attracting the attention of the government.

During the war the plea of manufacturers was that speedily delivery of goods was impossible owing to the lack of labor. Now available labor far exceeds the demand.

There are numerous reasons for this surplus, pecuniary among which are given: Lack of raw material; rate of exchange against France in most importing countries and high freight rates. It is believed, however, that there is another reason of purely internal order. Speculators have held back stocks in order to be able to raise them when prices were aught, and consequently do not need to manufacture at present. Others are said to deliberately restrict production in order that prices may be kept to their present abnormal level. The high prices have caused consumption and the public finally has purchased to articles of absolute necessity, with the result that retailers are not sending such large orders to wholesalers as formerly.

Leather Industry Worst Off

The leather industry is suffering most, nearly half the workers ordinarily employed being out of work. Purchases in general have reduced to pay 120 francs for a very ordinary pair of shoes. At Limoges alone, 4,000 shoe-makers are without employment.

The clothing industry is also reported to be in a bad way. Forty per cent of the workers are idle at a time when ordinarily the factories are at their busiest.

The textile industry, on which the towns of Roubaix and Tourcoing depend, is going through a period of the greatest difficulty, and the textile industry is also affected, owing to the excessive price of raw materials, such as wool and cotton.

Thirty per cent of the automobile workers are idle; some 15,000 or 20,000 skilled workmen. Considerable numbers of men employed in the devastated regions have also left their work; some voluntarily, hesitating to spend the winter in draughty shacks without comfort and amusements; others dismissed by contractors who have not yet been paid by the state and who hesitate to retain workmen whose wages they may be unable to pay.

Dismissing Situation

The question was discussed at a recent cabinet meeting, industrial groups are occupied in formulating possible solutions and a mass meeting of unemployed is to be held at the Labor Bureau. The principal difficulty is not so much in finding work for all concerned but rather the difficulty of finding suitable work for the many skilled workmen who are at present without employment. There are plenty of openings for unskilled labor in the devastated regions, and the leveling of the Paris fortifications but laborers are scarce while skilled workmen are plentiful but their employment at such work as is available would be nothing less than wasting the country's resources.

ALL PASTRY IN GERMANY UNDER BAN THIS WINTER

Berlin, Nov. 21.—The "Kuchen Krieg," or pastry war, which the food police have been waging for weeks against cakes and pastry containing more than 10 per cent of white flour, will become a war of extermination, with no quarter even for 10 per cent delectables.

Cakes and pastry of every sort will this winter be placed under a ban in Germany, owing to the shortage in flour, eggs and sugar. The budget commission of the Reichstag has just asked the food minister to issue a general prohibition against the baking of any of these luxuries except in the home.

The 10 per cent regulation has been in force for months, but has been honored more in the breach than in the observance. The police for weeks have made a practice of confiscating the stocks of certain cafes and restaurants for Sunday trade every Saturday.

One leading offender, to justify his plea that "everybody's doing it" and that he was stung out for unjust persecution, arranged an exhibition for the police and the public of samples of illegal wares purchased in 150 cafes and restaurants in Berlin the same day as his stock was seized.

HEAVY SNOW STORMS UP NORTH

North and South West Rivers Reported Frozen—Rafting Operations Not Finished.

A gentleman who came from the Miramichi district on Friday reports that there had been heavy snow storms last week and then had turned to the northwest, had frozen the north-west and south-west rivers. Rafting operations had not been finished, and unless there came a soft spell so that the lumber could be removed, it is liable to be last in the spring's run.

Comb Sage Tea In Hair To Darken It

It's Grandmother's Recipe to keep her Locks Dark, Glossy, Beautiful.

The old-time mixture of Sage Tea and Sulphur for darkening gray streaked and faded hair is grand-uncle's recipe, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the mussy mixing at home. All drug stores sell the ready-to-use product, improved by the addition of other ingredients, called "Wych's Sage and Sulphur Compound." It is very popular because nobody can discover it had been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights ladies with Wych's Sage and Sulphur Compound, is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive.

GERMANS LOOK FOR AN ALLIANCE WITH THE UNITED STATES

Predict New World War Within Four Years in Which Huns Will Recover.

Copenhagen, Nov. 21.—"A strong German-American alliance against the Anglo-French Entente is a forgone conclusion since the election of Senator Harding," is the boast of German officers here.

They declare their opinion "that before Harding's term expires, a new world war will give back to Germany the territories she lost in the late war and will add Denmark and Holland to the Empire."

This arrogant prophecy has produced violent scenes between patriotic Danes and Prussian officers. The latter are retreating after leading their forces across the Lithuanian frontier, where a large number of trained soldiers of the former Kaiser are awaiting the opportunity to lead a revolt against the German republic. They hope to be masters of Germany in four years.

METHODISTS WANT VENDORSHIPS CHANGED

Special to The Standard.

Hartford, Nov. 21.—At a public meeting in connection with Woodstock District held at Hartford on Tuesday, Nov. 16, 1920, the following resolution was unanimously carried: Moved by M. E. Connor of Woodstock, and seconded by H. Miller of Centerville, that we in district meeting assembled, representing the Methodist people of Carlton and Victoria Counties, petition the Provincial Government to change the system of vendorship of intoxicating liquors, removing it from the druggists, and giving it to one licensed person for each town or district, who shall not be engaged in any business which might make more difficult the strict enforcement of the Temperance legislation of our province.

FLYNN GOT IN; COLONELS FAIL

Officers Couldn't Prevail on Policeman to Pass Them, But C.W.V.A. Leader Won

Toronto, Nov. 21.—Colonel "Bart" Rogers, D. S. O., who led the Third Battalion through the "Hun" lines ever since a snow Friday night when accompanied by Lieut.-Colonel Carson McCormack, also of that famous Toronto unit, he presented his uniform tickets to the "Bobby" in charge of the Victoria street entrance to Massey Hall, where the Meichen meeting was held.

"Place full, can't get in," announced the official. It didn't matter whether the applicants were Kings, colonels or what they just couldn't get in. Disappointed, the twin were turned away when they were pulled by a third claimant for entrance.

"Stand aside gentlemen, please," said the new arrival, "I'm Flynn. He got in, the other two didn't."

LABOR CANDIDATE LOST IN EAST HAM

Workers Lost Five Seats in Municipal Council Out of Seven Contested.

London, Nov. 21.—Although London has no municipal elections on November 1, the result of the by-elections in East Ham, a huge East London industrial municipality, yesterday showed a heavy defeat for the Labor party, similar to that which occurred in other parts of the country. Seven vacancies were caused by the elevation of Labor councillors to aldermen, but only two Labor candidates were returned, the remaining seats being won by Rate-payers Protection Association candidates.

"TIGER" OF FRANCE IS FULL OF FIGHT

Coming Back from India to Take up Challenge of His Attackers.

Paris, Nov. 21.—Word has come from India that the old "Tiger" of France—ex-Premier Clemenceau—has decided to return the attacks recently made upon him by his political enemies; that he will emerge from his retreat and once more give battle royal.

Members of the Clemenceau family, commenting on the fact that the attacks have been made while the "Tiger" was far away, have let it be known that the ex-premier is coming home soon and that the "greatest duel of his career is in prospect."

In a recent interview given by Marshal Foch he suggested that the negotiators of the peace be sent before the high court. It also is affirmed that at the time Clemenceau was beset for the presidency by M. Deschanel, the illustrious soldier affirmed that the election of Clemenceau would be "quite a national misfortune."

It is said that it is on this point that the octogenarian statesman and the commander of the allied armies will first cross swords.

C. N. R. DISPUTE TO BE HEARD AT TORONTO

Vice-Presidents of Various Railway Labor Bodies to Represent the Employees.

Winnipeg, Nov. 21.—Negotiations in the dispute between D. B. Hanna, president of the Canadian National Railways and the employees over his political order, may be shifted from Winnipeg to Toronto, according to H. E. Barker, chairman of the western joint commission in charge of local operations.

Mr. Barker also announced that all international presidents heard from had agreed to nominate vice-presidents of the various organizations located in Canada to attend the conference, believing that as the dispute was of a purely Canadian political nature, these men would be in a better position to handle it.

Actual decision as to where the conference will take place will not be made known for a day or two, but as the offices of President Hanna are located in Toronto, western men expressed themselves as willing to meet the eastern committee there, providing this was the wish of the majority.

Simplicity Is Most Expensive

One Must Pay to Get Lines in Unadorned Dress at Present.

By Lavinia Kingdon (Staff Correspondent Green-Art Newspaper Service, Inc.)

London, Nov. 21.—There may be more than one way to simplicity, but the most expensive is the unadorned dress, the plain blouse, with lines that seem right, the simple black suit, the dress that is so expensive that it is the result of a very few. It has not been educated to realize the art of looking simple in the most expensive of the frock, a broad street label or the plain hat that came straight from the mill.

"I do love those plain little 'you wear' says the man 'you could look so pretty in such clothes.'"

The girl smiles, but laughs by, knowing how many articles she has to buy to get the very best of simplicity has on her and her dress.

"Just Right" Lines

This does not mean dowdy lines, of course—the badly made and the ill-fitting blouse—but the unadorned dress, the plain blouse, with lines that seem right, the simple black suit, the dress that is so expensive that it is the result of a very few. It has not been educated to realize the art of looking simple in the most expensive of the frock, a broad street label or the plain hat that came straight from the mill.

The girl smiles, but laughs by, knowing how many articles she has to buy to get the very best of simplicity has on her and her dress.

Castoria

Underclothes probably about as much more than any other form of apparel.

Wander down the well-known streets and look at the displayed in the windows of shops, and you will see that the garments are pretty almost with masses of lace, ribbons, and frills.

Then turn aside to the tiny shops, and you will see the simplicity of pure linen, a little hand-embroidery, a screen of lace, or some of the simple, but perfect workmanship and lines.

Although this very costly style is not for all of us, the Englishman of all classes is learning to achieve the smart simplicity within her reach.

She is sticking to a few old-fashioned things that are smart and are not. She now knows that a plain, and therefore smarter, a black suit, a white blouse, a washing glove, black hat, a blue coat, a mauve scarf, and a few other things, are all that is needed.

APPLE CARAMEL

Fare and core the required of apples, add one teaspoon each apple, a sprinkling of salt with water around the apples over. When almost done cover with a fair sprinkling of cracked crumbs, dash of cinnamon and small pieces butter, and all a layer of brown sugar.

If the oven is very hot cover with a thin layer of paper, but that it just reaches the point.
