

by local showers. The region of Battleford, Invermay, and Qu'Appelle are very favorable for wheat being and over. The prevailing winds in that part of Alberta are No. 30, is below the average of drouth and hot in the Edmonton district the crops suffering to some extent. The best reports come from the district, and those from the Saddle Lake district are particularly favorable. The British Columbia are all ears of late cereals—buckwheat for husking, beans, potatoes, and other roots, sugar beets for fodder have increased 2,150,382 acres, which is more than last year and more than in 1908. But this together in flax, which now has the highest price offered for seed has

come into favor with the farmers of the Northwest.

The only farm animals which show a noticeable increase since 1907 are horses, while sheep and swine have declined. The condition of all these animals over the Dominion, exceeds 99.
