

PRIMARY MEDS.

Freshmen Busy With Bones—Hallowe'en Preparations are Choice.

WE WANT THE CHAMPIONSHIP.

The boys all seem quite contented now that they have seen the Duke and Duchess, and one and all are quietly going back to the usual routine of work. The freshmen are dreaming and puzzling over their bone-grinds once more, and anybody passing by the Biolog can easily size up the freshmen by the femurs, os innoms, etc., that they carry around with them.

We are all glad to see that the Meds. are going to have a championship football team out this year, and have already elected the officers for the coming season. They are as follows: President, Mr. Shortt; secretary, Hendry; captain, G. Wilson; committee, T. Buck and a first-year man.

On Tuesday the senior elections took place, and good men were elected to every position. Mr. F. Britton was chosen president, Mr. Brown vice-president, and Mr. Shaver secretary.

Congratulations are due Mr. H. G. Campbell of the senior class on his becoming the recipient of a handsome gold watch from the Orangeville Lacrosse Club.

Word has been received from Stratford that Mr. G. A. Fraser of last year's juniors has received an addition to his family in the shape of a young son, Shake, George! Bring him up in the way he should go.

Many words of praise have been heard of Pinard's "club-swinging" on King street the night the Duke was in town, and it might be mentioned that he introduced a movement or two with which the stranger seemed to be unfamiliar.

Everyone misses the genial face of G. W. Bald around this year. There has been a certain uneasy feeling that his old complaint had kept him away, but it has been learned that that report was without foundation.

A number of the boys have already begun to take advantage of the Undergraduate Club. Night and day some of them are up learning which is the proper end of the cue to chalk. In every way the Union is a splendid organization—something that has been needed for a long time by the different colleges.

Bill Wood of the junior class is still decorated with a scar or two on his facial anatomy, as a result of the Port Hope-Stratford lacrosse game. Despite this, he is a very busy man as track captain and secretary of the U. of T. Track Club.

It was strange the number of men among the juniors who wanted the same "running-mate" for the chemical laboratory.

Tommy Routledge is supposed to be taking "scrapping" lessons down town, and a number of the seniors think that they can guess the reason.

The critics say that Peterson was in "active training" at the Grand on Tuesday evening last.

The seniors have arranged for a boxing match, to take place just before every 8.30 lecture from now on. It is rumored that Hicks and Duprau are to be the contestants in the first bout.

Who has Robertson's engine? Everybody ought to subscribe for Topics. It is the paper for every student in every year of every college.

On Friday last the Track Club of the University held their annual games, and as usual a number of Dents were entered in the different events.

If the ever-fervent correspondent of the Royal College of Dental Surgeons had referred his sporting news to some of the sporting fraternity last week he would have found that no definite football match had been arranged for between the Dents and Pharmacists.

Beginning lectures at 8.45 a.m. and not finishing till after 5 p.m. is keeping up the good work almost "ad nauseam." In fact, some of the boys seemed to consider it "ad summum," if nodding noddles are any indication of somnolent repose.

DENTAL COLLEGE.

INTER-YEAR FOOTBALL—Y.M.C.A. RECEPTION TO FRESHMEN—SENIOR ELECTIONS—UNDERGRADUATE UNION—NOTES.

On Thursday last the Seniors and Juniors, apparently to their great sorrow, played a game of Association football with the freshmen of the School. The weather conditions were anything but favorable, a drizzling rain falling during most of the game.

The Harmonic Club has three branches. The Banjo, Mandolin, and Guitar Club has been under the leadership of Mr. George Smedley for the past few years, and has met with nothing but success.

The prospects for this season are of the brightest. An extensive combined tour is being arranged, and it is certain that no ordinary difficulties will prevent the executive from giving the members of the club the great treat some time near Christmas.

The orchestra branch will be self-supporting this year, and its present members are looking forward to a very interesting and successful season.

The Men's Glee Club have seldom sung so well and been so enthusiastic as last year, under Mr. Jackson's leadership. Having this in mind, the executive re-engaged Mr. Jackson for the present season.

The highly esteemed musical director and poet laureate at Pharmacy, who fractured the bone of one of his toes a week or so ago while —, is quite spry on his feet again and ready to meet all comers in the lightning-change act of turning prose to poetry.

Wake up, Dents! The "Dook's" gone. The photographer recently paid a flying visit to Pharmacy to get in a couple of shots at the students, and he will not doubt consider himself amply repaid for his trouble by the smiling physiognomy that greeted him—and the "cents per photo" that he will collect later on.

The value of the souvenir will be much enhanced by the fact that our lady undergrads were also present. They will add a special attractiveness to the photo, and also serve to break the monotony of the row upon rows of bewhiskered (in embryo) faces.

Queen's II. beat the R.M.C. team on Saturday by 9 points to 4. Cheer up, Varsity II! You trimmed Trinity easily enough.

UNIVERSITY HARMONIC CLUB.

For the benefit of freshmen and all others ignorant of the organization, membership, and aims of the musical clubs of the University, the following information is given:

The University of Toronto Harmonic Club is the controlling body of the various musical organizations of the University of Toronto. Its position is quite analogous to that of the present Athletic Directorate, which has supreme jurisdiction over the policy, members, and finances of the athletic clubs of the University.

The Harmonic Club has three branches. The Banjo, Mandolin, and Guitar Club has been under the leadership of Mr. George Smedley for the past few years, and has met with nothing but success.

The prospects for this season are of the brightest. An extensive combined tour is being arranged, and it is certain that no ordinary difficulties will prevent the executive from giving the members of the club the great treat some time near Christmas.

The orchestra branch will be self-supporting this year, and its present members are looking forward to a very interesting and successful season.

The value of the souvenir will be much enhanced by the fact that our lady undergrads were also present. They will add a special attractiveness to the photo, and also serve to break the monotony of the row upon rows of bewhiskered (in embryo) faces.

Queen's II. beat the R.M.C. team on Saturday by 9 points to 4. Cheer up, Varsity II! You trimmed Trinity easily enough.

this year at the Star Theater. We sincerely hope that the rumor is entirely without foundation, and that it will immediately be contradicted by the "powers that be" at Varsity. Such a thing would really be too hard a blow—for the Star.

In spite of the fact that the Junior term is not yet half over, the boys are already receiving the welcome (?) news from certain professors that lectures in their respective subjects are pretty well over. Can it really be possible? But don't get too cock-a-torum, boys, at this announcement, for there are tricks in all trades, and work is not likely to fall off very much before exams.

There are already those who have begun burning the midnight oil; but, alas! others there are who can sleep serenely under the impression that embryonic and voltaic cells both generate electricity. First it's exams, then exams, then —! (if you don't get through).

Surely that wasn't a Pharmacy lad sitting on St. James' Square Presbyterian Church steps in earnest confab with a very nifty morsel of femininity this day week? Church is all right in its place, but that place is slightly out of place beside the O.C.P. Don't let it happen again, K—tl. If you specially desire to give a practical demonstration of the magnetic qualities of your make-up to the assembling O.C.P. students, don't hang round the suburbs of the college, bring her right over and introduce her to the faculty.

What's the use of putting up 'steen "bucks" to belong to an up-to-date college (Dents excepted) if you cannot let your friends slide on your own cellar door?

"Father" Poyntz, one of the '01 honor men, paid Pharmacy a visit last week. A goalkeeper of our last year's championship eleven, he gave this year's football men some valuable point(2)ers as to how to do the trick and again land on top of the bunch.

Old boys seem to be taking quite a lively interest in O.C.P. matters, as their letters very well indicate. Their advice is all good, and the only addition we can possibly think of is that every man who does not need a bottle of white pine and tar the morning after Hallowe'en will be tarred and feathered summarily.

A word to the wise is sufficient. Hallowe'en must be a "nothing" success for Pharmacy. No, Hallowe'en, you will not have to bring your prayer-book along on Hallowe'en. Somebody's been gyping you.

For that "tired feeling" take a blue pill at night and a selditz powder in the morning. Dents please note bene.

ST. MICHAEL'S

We were all disappointed when word came last Monday from St. Andrew's College that they would not give us that long-promised game. Again, on Wednesday the same sad message came. As a result, football at St. Michael's is growing stagnant. We would suggest, as St. Andrew's have won all their games and as St. Michael's have also a clean sheet of wins, that a game for the college championship be played in the near future.

No word has as yet been received from Victoria College or Trinity, but we are in hopes of a game with both soon.

Well, handball is about to start. John Shanahan attended the first meeting some few days ago, and again yesterday. Capt. Shanahan and Joe Dooley acted as delegates for the Saints at the second meeting. The teams entering are about the same as last year—two from Toronto Meds., Victoria College, Dents, and two from St. Michael's.

We have ever since the institution of the league carried off the honors in both divisions; and, judging from the material on hand, should do so this year. Of last year's team, J. Dooley, J. Shanahan, Gibbons are available, and, with Mr. Pickett to make up the quartette, should give a good account of themselves.

What happened the second football team that organized some few weeks ago? We have not heard even of their practice.

Varsity field day sports were held on the 18th, and it is the first time in many years that St. Michael's did not have a representative. J. W. Kelley and J. E. Dooley certainly should have trained and entered to uphold the honor of old St. Michael's.

William Eagan is confined to house with a bad cold. Master W. White of Lindsay entered college this week.

Mr. Bergeron is visiting the Pan-American with his brother. Joe Golden's friend arrived Thursday evening.

Mr. Joseph Ditman is teaching German again this year. Rev. Father Murray promises us a musical treat early next month.

Golden Jubilee at St. Joseph's convent last week. Word has been received from some of the boys who were at St. Michael's last year. J. J. Golden, '00, is in Scranton, Pa.

W. P. Curtin, '99, is in the Grande Seminary, Montreal. J. J. Hehir, '00, is at St. Joseph's College, Dubuque, Iowa.

M. J. McCaffery, '00, is at Niagara University. On last Tuesday evening a large crowd gathered in the recreative hall to watch the recital of Mr. Jack Pickett's step-dancing class.

The following gentlemen assisted Jack in his terpsichorean endeavors: William Conaty, J. Trainer, Jim Riley, and E. Pepar. The services of the McAuley orchestra have been engaged for the season, and amid the dreamy strains of the "Hibernian Laundress," Jack and his class tripped it off to the King's taste.

The boys are to be congratulated on their new storekeeper, Mr. Shanahan. But I fear when coin gets thin, Jack will fall in line with his predecessors, Pickett and Golden, who so conscientiously stuck to their motto, "When you ain't got no money—well, you needn't come around."

Everyone is very anxious to hear St. Michael's new baritone, Mr. S. A. Nealon, who is to make his singing debut in the near future. That friend of Lew O'Rourke's did
