

Two Minute Talks About PANDORA RANGE for Coal or Wood

THE Pandora Range is for those who desire to make a permanent investment. The high quality of the materials and the superior method of construction assure long life.

The *Body* of the Pandora is very heavy. The *Rods* and *Bolts* are on the outside where they cannot burn or rust out. The *Expansion Rings* of the cooking section provide ample allowance for extreme expansion and contraction and eliminate the possibility of the metal cracking.

The *Cooking Top* is *Burnished* which toughens the surface of the metal and increases its strength. *McClary Oil Cement* is used between the joints. Unlike cheap, ordinary cement, it will not dry out and need replacing. The *Nickelling* will not tarnish and is many times more durable than the single coat of nickel on ordinary ranges.

The *Semi-Steel Fire Box Linings* are twenty per cent. heavier than cast or gray iron linings. Sulphur fumes, so destructive to cast iron, cannot penetrate the hard, smooth as glass surface of Semi-Steel. The *Grates* have *Three Faces*, which allows the wear to be distributed on three sides, insuring triple durability.

If you want a range of *guaranteed quality* get the Pandora. It's built to give you lasting service.

McClary's

Stands for Guaranteed Quality

London, Toronto, Montreal, Winnipeg
Vancouver, St. John, N.B., Hamilton, Calgary

NEXT TIME you are in need of a Tub or a Pail or a Fire Bucket, see that your dealer shows you the ones made of

MENTION THE FARMER'S ADVOCATE WHEN WRITING ADVERTISERS.

STANDARD (REGISTERED) FORMALDEHYDE (40° VOL.)

(Sometimes called Formalin.)

FOR DESTROYING SMUT IN WHEAT, OATS, BARLEY, also FLAX WILT.

Add the contents of this bottle to **27 Imperial gallons** of water, pile seed grain in heap on floor and sprinkle well with solution, and shovel over so all grains are thoroughly wet—(if badly smutted immerse for ten minutes in solution). Cover over for two hours with sacks or blankets to keep in the gas, then spread out to dry, and sow within twenty-four hours if possible.

Potato Scab—Soak the whole potatoes in the water solution for two hours—dry and cut for planting.

General Disinfecting—Use one to two ounces to a quart of water and flush sinks, cellars, closets, damp and mouldy places, stable walls, mangers, feed troughs, etc.

MANUFACTURED BY

The Standard Chemical Co. of Toronto

Manning Chambers, Toronto

Are You Going to Build?

Learn the True Economy In Roofing and Building Papers

The closest students of economy are the great railroad systems of this continent. In the last 20 years they have bought 75 million square feet of Neponset Roofing and insulated 75% of the refrigerator cars with Neponset Waterproof Paper.

The economy of Bird Neponset Products is just as certain for you as it is for the railroads. It is just as important for you to save the expense of repairing leaks and the cost of replacing a roof as it is for them.

There are different Neponset Roofings for different types of buildings—one kind for residences, another for industrial buildings, barns, etc., and still another for smaller structures, where low cost roofing is required.

Bird NEPONSET Products

ROOFINGS AND WATERPROOF BUILDING PAPERS

NEPONSET Proslate Roofing: For residences and all other buildings requiring an artistic roofing and siding.

NEPONSET Paroid Roofing: For roofs and sides of farm, industrial and railroad buildings.

For poultry buildings, brooder houses, sheds, and temporary buildings, Neponset **Red Rope Roofing** is unequalled.

Our **Building Counsel Department** is placed at the disposal of any one that is building or repairing. Give us full particulars and we will gladly give you expert advice on any roofing or waterproofing question. Bird Neponset dealers everywhere. If you do not know the one in your neighborhood, ask us.
