# Her Baby Nearly Died

## WAS TAKEN SICK WITH Dysentery.

Mrs. Chas. Farrell, Oakland, Man., writes:-"My dear baby was taken sick last fall, and we got the doctor and he said she had dysentery. She nearly died with it, but two or three doses of Dr. Fowler's Extract of Wild Strawberry completely cured her.

"My two little boys got a bad case of diarrhoea and two doses made a wonderful change and they were completely cured also. I would not be without such a grand medicine as Dr. Fowler's Extract of Wild Strawberry if it were twice the price, as I consider it a wonderful medicine, and I cannot recommend it too highly."

Dr. Fowler's Extract of Wild Strawberry has been on the market for over cixty-five years, so you are not experimenting when you use this old and tried remedy.

Do not accept any of the many sub. stitutes for this sterling medicine, but ask for Dr. Fowler's and insist on getting what you ask for. Price 35 cents.

Manufactured only by The T. Milbura Co., Limited, Toronto, Ont.

TOMATOES RIPEN EARLY WHEN THE VINES ARE STAKED UP

The illustration shows how N. M. Ross does it on the Indian Head Forestry Farm. Seed was sown under glass February 27; plants were set in boxes March 19 and in the garden June 6.

When the photograph was taken July 27, the tomatoes were bigger than hens' He always keeps seed from the first large smooth fruit that ripens.

The annual report of the Canadian Forestry Association for the current year (1910) has just been issued, and is now being mailed to members of the association. In addition to a report of the business meeting of the association, a full report of the convention held in Fredericton, N. B., in February last, is contained in the volume. All papers read are given in full, and much of the ensuing discussion as well. valuable information is contained in regard to the protection of the forest from fire, the wood-pulp industry, the education of professional foresters or forest engineers, and many other aspects of forestry, especially in Eastern anada. Requests for copies of the report should be addressed to James Lawler, secretary Canadian Forestry Association, Ottawa, Ont.

An excellent lawn or garden roller may be made of a length of glazed tile, say two feet in diameter, filled with concrete. Before filling, fix in the center of the tile a piece of inch-and-a-quarter gas pipe, allowing the ends to project two or three inches from each end of the tile, to which an iron handle may be attached. Any blacksmith can make the handle, at small cost. Fill the cylinder with small stones, and pour in a mortar composed of one part cement to six parts sand, thoroughly mixed and then made so thin with water that it will fill all the spaces between the stones. When the cement has become hard and dry, one will have a cheap and handy implement with which to roll his beds after planting.
