

FORESTS, FLOWERS, and FEATHERED FOLK!

To the teachers of Canada:

We wish to announce that we will issue some new Nature Study Books, one on trees and one on flowers. These will be ready for distribution early in 1918.

The tree book has been prepared by D. W. HAMILTON, Ph.D., B.S.A., of Macdonald College, P.Q., assisted by G. H. PRINCE, B.Sc., Nelson, B.C. This book will be illustrated with many original drawings, and with half-tone engravings of photographs from the collections of the Forestry Department of the University of Toronto, the Dominion Department of Forestry, and other sources.

The flower book is also by DR. HAMILTON, and will be profusely and beautifully illustrated with zinc etchings and half-tone engravings, many of the latter made from photographs of flowers furnished by A. B. KLUGH, M.A., Queen's University. These are without doubt the finest in existence, and constitute the best selection of half-tones appearing in any flower book on the market.

The price of the tree book, well bound, cloth, is \$3.00, post-paid, and of the flower book, \$1.00.

Get the Best. Order Now. Pay when book is received.

We also wish to call attention to the **New Canadian Bird Book**, "The Standard Bird Book of Canada", by W. T. MACCLEMENT, M.A., D.Sc., Queen's University. This book has stood the test of time, and fills a real need in the library of the nature student. It has a concise description of every bird of Canada, and contains 60 full-page multi-coloured lithographs of birds, true to life in posture and colouring. Price, \$3.00, cloth, post paid.

Nature Study Lessons, Bird Studies, by G. A. CORNISH, B.A., Professor of Science, Faculty of Education, University of Toronto, contains lessons on birds, based on the classroom work of the author, and is of inestimable value to the teacher in assigning observations to be made by the pupils in the study of birds, and in answering the innumerable questions asked by the pupils when interest in the subject is properly stimulated by the use of this book. Price, \$1.00, cloth, post paid.

Live and progressive teachers do not underestimate the importance of securing THE BEST books on Nature Study. The four books listed above cover the Forests, Flowers, and Feathered Folk,—all by CANADIAN authors. Can you afford to do without any one of them?

Sign the coupon now, and pay when the book is received, or when you receive your next salary. We extend every business courtesy within reason to teachers.
