Guide's Improved Livestock Service

A consensus of opinion among Guide readers, recently taken by The Guide editorial department, revealed the fact that many readers of The Guide would like to have more information along the lines of livestock production than The Guide has given in the past.

As you are aware, The Guide, among the farm papers of Western Canada, has hitherto specialized in giving the Western farmer up-to-date information and practical help to enable him to secure better prices for what he has had to sell. Now, while retaining the marketing features which have done so much to establish livestock raising in Western Canada upon a profitable basis, The Guide will also deal fully with the various phases of livestock production.

This improved livestock service will command for The Guide a wider audience of stock farmers than ever before. The Guide's present strong position among livestock raisers is emphasized by the amount of livestock classified advertising carried in the three leading farm papers of Western Canada. Below are the comparative figures for the sixteen months ending September 30 last:

Grain Growers' Guide	Livestock Classified Advertising
Second Paper	Great Lines
Third Paper	Value of Line Rate
	\$1,712.22
	\$754.08
	\$754.44

In addition to being the recognized medium for livestock classified advertising in Western Canada, and carrying a strong livestock department in every issue, The Guide offers you the largest net, paid, audited circulation of any farm paper in Western Canada.
