# Silver is King

Last year Copper was king of metals, advancing from 12 to 30 cents a pound.

This year Silver is King, and is advancing by leaps and bounds This year Silver is King, and is advancing by leaps and bounds
—no man dare say what the ultimate price will be. Last summer silver was worth 46½ cents per ounce—to-day it is 74 cents and going higher every week.

ADMIKES IOMMI AIKINS.

No French general holds a higher continuous of British soldiers than does General Foch. During our 1912 man-oeuvres, which he attended, he said,

The advance in copper last year caused a sensational market in copper shares, many low-priced copper stocks advanced more than 1000 per cent.

'Your cavalry and artillery are excellent. Your infantry—well, I would sooner fight with it than against it!"

An illustration of the brilliant leader's methods, which have led to his

That was last year; this year it is Silver, and now is the opportune moment to purchase high-class silver stocks.

We have underwritten 250,000 shares of Lorrain Consolidated Mines, Ltd., at 20 cents per share net to the Treasury of the Company, and are now allotting these shares to our clients at 22 cents

The fact that we have underwritten this large block of treasury stock, thereby guaranteeing the Company \$50,000 for development

purposes, is the best evidence of our sincere belief in the future of the Company.

Lorrain Consolidated has, in our opinion, the three necessary elements of a successful mine. The Company owns outright 53 acres in the South Lorrain-Cobalt silver district, on which engineers have the South Lorrain-Cobalt silver district, on which engineers have the South Lorrain-Cobalt silver district, on which engineers have the South Lorrain-Cobalt silver district, on which engineers have the South Lorrain-Cobalt silver district, on which engineers have the South Lorrain-Cobalt silver district, on which engineers have the South Lorrain-Cobalt silver district, on which engineers have the South Lorrain-Cobalt silver district, on which engineers have the South Lorrain-Cobalt silver district, on which engineers have the South Lorrain-Cobalt silver district, on which engineers have the South Lorrain-Cobalt silver district, on which engineers have the South Lorrain-Cobalt silver district, on which engineers have the South Lorrain-Cobalt silver district, on which engineers have the South Lorrain-Cobalt silver district, on which engineers have the South Lorrain-Cobalt silver district, on which engineers have the South Lorrain-Cobalt silver district, on which engineers have the South Lorrain-Cobalt silver district, on which engineers have the South Lorrain-Cobalt silver district, on which engineers have the South Lorrain-Cobalt silver district, on which engineers have the South Lorrain-Cobalt silver district, on which engineers have the South Lorrain-Cobalt silver district, on which engineers have the South Lorrain-Cobalt silver district, on which engineers have the South Lorrain-Cobalt silver district, on which engineers have the South Lorrain-Cobalt silver district the South Lorrain-Cobalt s located four large and six smaller veins. \$40,000 has already been spent in proving up the property and two shafts have been sunk, one reproduced in a series of pictoral enhancements, rarely if ever excelled 162 feet, and the other 110 feet. Drifting and cross cutting to the extent of several hundred feet has also been done.

The management of Lorrain Consolidated is in the hands of men whose names stand for everything that is honorable in mining.

Men of this character do not associate themselves with a mine for a background there is presented a unless they are fully convinced of its merit, and we never underwrite a stock until we are satisfied it has a good chance of making good.

This Company has a well-located property, an honest and efficient management and ample capital for development. We therefore feel justified in recommending the purchase of the stock.

Application will be made for listing the shares in Toronto, Bos-

Reports of development work to date and extracts of engineer's By Special Wife to the Courier. statements will be furnished free on application.
