EIGHT KILLED
By Courier Lensed Wire.
Bulletin—Montreal, July 13.—Eight are dead and five injured as a result of an accident in the Metal and Munitions Produce Company, Montreal, this morning.
The killed for the most part consisted of moulders. When the upper floor gave way its tremendous weight shells crashed through the floors underneath, and fell three stories to the cellar.
The eight men killed were buried up in the debris. First pipes filled the cellar with water, drowning any who may have lived through the fall.

went into effect on Tuesday. Canning factories are now busy on peas, and reports from all sources indicate that under favorable conditions a good pack may be expected. The early pack is said to be excellent quality. Tomatoes are looking fine, and if weather proves good a splendid pack may be expected. Strawberries are scarce, and growers demanding very high prices. An advance of 6 cents per pound in mustard and higher prices on salt, baking powder, ammonia, cleanser and vinegar barrels and kegs have been named. Winnipeg—Prospects of a heavy crop of white beans, with indications that government requirements for the year have been largely met, point to a possibility of lower prices for this line. Japanese beans, new crop, have been offering at a decline of 5c per pound. Winnipeg jobbers generally are carrying fairly heavy stocks of high-priced beans. So a drop is not looked for until present stocks are largely cleaned up. Rice at primary points is high, and the trade is not looking for a decline when new crop is offering. Jobbers' stocks locally are in good condition and prices considerably below replacement value. Tapioca has shown a slight decline, while sago is said to be unobtainable at primary points. A decline of 2c. per pound has been recorded in shelled almonds, though orders are being taken subject to being able to get them through. Fairly good stocks of 1917 dried fruits are still on hand, and big orders of prunes and raisins, 1917 stock, for August shipment, have been placed, and will, it is hoped, come through. Business generally is fair.

According to the reports an Austrian from the Pacific party of Professor Lammasch arrived several days ago at Bern. This emissary presented himself at several legations of the Allied Powers, but in no case was he received. Professor Lammasch is the individual who on several former occasions is said to have made peace overtures to Americans as well as representatives of other allied countries.

BEST IN THE LONG RUN

"Tested"

The Last Word in Tires

TESTED, the clinching quality of proven strength Goodrich puts into tires, means a lot to tire users. It means sure service—a long life for the tire, and durability wherever the motorist takes it, with no long steps for repairs—because it is proven service.

True to its creed never to market an untried product, Goodrich sent forth six Test Car Fleets to put the road test to Goodrich Tires. After months of mauling them through mud and frozen slush, against sand, rock and gravel, the Goodrich Test Cars brought back the last word for tires, TESTED in—

GOODRICH TESTED TIRES

Here are the tires truly tested, for the Test Car Fleets grand total mileage of 4,178,744 tire miles, have tested them and proved their strength and lasting wear beyond the faith of the maker.

SILVERTOWN CORDS, and BLACK SAFETY TREADS, came triumphant through the test, and vindicated Goodrich's faith in the spiral-wrapped, cable-cord tire body, and the tough, cross-barred, close-clutch, black safety tread.

Get sure tire service in the tires that won from the roads the title "Canada's Tested Tires."

Eat less Bread

Some interest is dried articles with oil is noticeable, the difference in price of about 2c. per pound against those without oil being a factor when prices range so high. The course of prices is attaining a little more positive shape. Two of the medium sizes will be absorbed by the United States government, it is thought, and with very few large sizes available, the small size will dominate the market. Sugar is somewhat scarce locally, though improvement in supplies is looked for, sufficient to take care of requirements during preserving season. An advance of 10 cents per cwt.

Silver Stocks

The fixing of silver metal price at \$1.00 means great prosperity for Cobalt properties. This price will remain for years to come. The purchase of \$350,000,000 ounces by the United States Government cannot be completed under five years, possibly ten. Buy now before the boom starts in Silver shares.

The New York Curb is beginning to take an active interest in Silvers. We have direct wire to that market.
