ONTARIO

About Canada.

Germany has captured all the United States and a part of Canada, startlingly announces the Rocky Mountain News. The conquest took place ten years ago, all on the quiet and unknown to the inhabitants. The Kaiser at the time admitted the occupation and subjection of this territory and issued maps for the edification of the little Huns in the public schools of the fatherland, whose guilibility left them believing that the select and rich parts of the world belonged "by divine right" to the German people, and all the rest was inhabited by swine and heathen.

But America has at last come to the full knowledge of its predicament by reference to page 55 map No. 1. of the Volksshul-Atlas von C. Diercke (public school atlas), used in the schools of Germany ten years ago.

in the schools of Germany ten years ago.

As the youthful Hun struggled through his geography lesson he became "enlightened" about the world. He knew Germany, for he had seen the great pompous dignity of its emperor reviewing the imperial troops, Germany was a reality to the child. But about the rest of the world, Bah! They were heathen and "low brows."

And then the teacher came to page 5 of the lesson and then to map No. 1. It is titled "Verteilung der Menschenrassen," or the division of the human race. In great, stirring red ink the pupil was at once attracted to a vast area covering the whole of the United States and almost half of Canada.

And across the whole was written "Germanen," meaning Germans. To the north was a strip of green designating that there was the home of the "Noramericanische Indianer," meaning the North American Indians. But the skillful art of lying, even in the face of an untruth, because they thought they could get away with it, led the authorities of Germany to step farther, and, behold, the race that gave to Germany the first knowledge of telephones and telegraphs, the submarine and airplane, through American inventions, was transformed into "heathen."

Map No. 2 on page 5 shows the western hemisphere in another light—that of the division of religions. Here the miracle of miracles is being worked, for in a heathen country German missionaries are battling the elements and savagery of a hideous race to plant the imperial and holy

German missionaries are battling the elements and savagery of a hideous race to plant the imperial and holy flag of Germany upon its soil and to bring "Christian" enlightenment to their unholy souls.

Across the face of the United States and Canada dark shaded places are shown, with a footnote reading Geblet deutscher Heidenmis sionen." meaning spheres of influence of German missionaries to the neathen.

IMMIGRATION.

Trade Will Not Flow Strongly For

Over a Year.

Probably a year, or slightly more han a year, will elapse before the novement from Great Britain to sanada reaches a resilly large number, in the opinion of Hon. James A. Calder, Minister of Immigration and Colonization. Mr. Calder, who has returned to Ottawa, after an official trip to England and Scotland, finds that shipping conditions are at present operating to restrict the movement. Moreover, Canadian immigration agents overseas have instructions to take every precaution to see that no more people migrate to the Dominion than can at present be absorbed.

They advise persons not likely to find employment within a reasonable time of their arrival in Canada to defer their departure from England. Shipping agents, too, in view of the penalties to which they are liable for bringing unsuitable persons to the Dominion, are careful to scrutinize applicants for passages. In consequence, Mr. Calder asserts that Canada is securing a better and more suitable class of new citizens than ever before.

The shipping situation, however, prevents any immediate increase in the volume of immigration. Mr. Calder interviewed officials of the North Atlantic shipping conference, and was informed that accommodation on vessels coming to Canada was booked for about a year. In so far as the outlook for immigration in the future is concerned, it will depend a good deal upon economic conditions in Great Britain. For instance, Mr. Calder states that there is at present almost as great a shortage of domestic servants in England as in Canada. Women, who were trained for domestic service, found employment in industry during the war. They are only gradually leaving that field and returning to domestic service. The Minister of Immigration, however, found in Great Britain a feeling that a fairly serious unemployment situation might develop there in the near future. Such a condition would tend to drive people to seek homes and livelihoods in other countries. It has been variously estimated, moreover, Mr. Calder points out, that Gre aer points out, that Great Britain has a surplus population over pre-war days of from 609,000 to 1,200,000. Before the war 250,000 people left Britain every year. At the same time, having regard to the shipping situation, Mr. Calder inclined to the view that immigration would not reach really large numbers for probably a year, or until the spring of 1922.
