**TALK OF THE TOWN**  
**Little Incidents Interesting the Citizens at Present**

As Detailed by Them to Representatives of the Planet.

Mr. Howard, of the Raleigh-Harwich townline, was in the city yesterday. He states that the roads are getting good except where road-work has been done.

"A man," said Mr. Howard, "can go back on the concessions and buy a farm for two or three thousand dollars. He gets all the drainage improvements, while we who own farms on the townline and are assessed for two or three times as much get nothing. The heaviest tax-payers get the least for their money. It seems unfair. The result is that the man on the back concession has a better road than we have, although we pay more taxes. Then we have to do seven or eight days' road-work, and in nine cases out of ten this road-work spoils the road."

**SCORE FOR CANADA.**  
"Have you noticed," said a well-known citizen, "that of all the speakers brought here by the C. C. I. Star Course entertainments the Canadians are the best. The three finest orators of Trinity College, Toronto; James L. Hon. Geo. E. Foster. I have heard all these speakers and in my opinion, the best talent from the other side was not in it with our own men."

**A MYSTERY SOLVED.**  
"A strange thing came to my attention recently," said Caleb Wheeler last evening. "Mrs. Wheeler awakened me about two o'clock in the morning, and said something was bothering the ducks in the creek. I got up and went down with a gun. It was a bright moonlight night and the trees on the bank opposite threw shadows on the water. I have some 150 ducks and they seemed in great excitement, but I could see no cause at first and I began to think the ducks were just afraid of themselves. I noticed every little while half a dozen ducks take to hasty flight and on a closer inspection I perceived something swimming in the spot where the ducks had been. I was going to shoot, but decided to wait. Pretty soon the commotion amongst the ducks ceased and a fox terrier and mongrel dog half greyhound came ashore. These two dogs had been swimming around amongst the ducks worrying them. In the morning, besides two dead dogs I found six dead ducks. A mystery that had been troubling my wife and myself for weeks was also solved. When we got up almost every morning we found one or two dead ducks that seemed to have been worried to death. We could never explain it till I discovered the dogs. The most peculiar thing about the whole affair was that the dogs neither barked nor uttered a sound. Both Mrs. Wheeler and myself are light sleepers and the slightest sound would have awakened either of us. I tell you it made one feel peculiar to look on those excited ducks in the moonlight, with no cause for their excitement apparent."

The great amount of design work done at the Victoria Avenue Green House is sufficient proof of the excellence of the work. Nothing but the best at the lowest prices. Phone 181.

Have you seen Northway's windows to-day?
