I. E. Bill, known as the boy lecturer, has been lecturing at Newton, Mass., where, says the *Journal* of that town, he held his audience spellbound as he pictured eloquently, "London, as seen by boy-eyes." He is a son of the Rev. I. E. Bill, of Liverpool. He graduated from Acadia University, Wolfville, in June last, and is now at Newton Centre Theological Institution, Mass. He is invited to fill a very important position in a series of lectures in the city of Salem, April 25th, and has chosen for his subject "The Land of Evangelism."

The Torbett Concert Company has been engaged to appear in Scotia Hall, Wolfville, on Tuesday evening, April 10th. This combination of artists comprises the most eminent musicians on this side of the Atlantic, whose extraordinary talents have received highest commendations from the press and public of North America. The world famous and unrivalled Lullman Sextette from Stockholm, Sweden, which is included in the company, have been accorded the admiration of the public of both continents. Wolfvillians who desire to attend this entertainment will probably be assisted in doing so by a special train, and it is hoped a large number will avail themselves of the opportunity and thus contribute to the friendly spirit which Kentville always displays in enterprises of a like nature.

Ask to see the latest styles in Four in Hand and Five. Boys in great variety—largest stock in town.

C. H. Borden.

Saturday evening the last entertainment of the "Star Course" will be given at College Hall, when the people of Wolfville will have an opportunity of hearing the celebrated "Old Homestead Quartette." The quartette will be assisted by the attractive and talented young lady reader, Miss Alice Girardeau, who was for two seasons one of the famous "Kelly Tabernacle & Art Company," and attracted great attention. See the letter from Prof. Kelley below.

Miss Alice Girardeau is one of the best artists I have ever had. She is endowed with all those natural gifts so much to be desired: talent, presence, grace, magnetism, judgment; add to these her development by study and practice, and I am sure her entrance upon Lyceum work last season is only the threshold to a national reputation, as the best lady reader before the public—Samuel H. Kelly, Principal New England Conservatory, School of Elitism.

A special train will be run from Kentville, which will give the residents of our sister town an opportunity in sharing the rich treat.
