TO-DAY'S SCHEDULE.

TO-NIGHT GAME.

The Hamilton Hockey Club held a good practice at the Thistle rink late on Saturday night, and the following team has been chosen to represent the club in the "sudden death" game with Collingwood at Toronto this evening.

Goal—Morris. Point—Morris. Cover—Southam. Rover—Seagram. Right—Harrison or Murison. Left—McKeown.

The team will go in a special car on the 5.35 train on the G. T. R., as not enough tickets were sold to warrant the company in running a special train. The rate is \$1.55.

SEMI-FINALS AND FINALS.

The end of the O. H. A. season is rapidly drawing near. In less than two weeks, if the weather man is on his good behavior, the champions in the respective series will be known.

The senior finals have been arranged. Stratford playing at Kingston on Wednesday and Kingston back in Stratford the following Monday, a week from today, March 2nd.

In the intermediate series the winner of to-night's Hamilton-Collingwood game at the Mutual street rink will meet London at home on Wednesday night and go to London on Friday night. The final will be played next week, on dates yet to be arranged.

The junior battles, in which so much interest has been manifested this season, are being closely watched by followers of the game all over the country. Toronto people are, of course, pulling for St. Michael's College, and the other twelve teams have armies of followers in their respective districts.

Stratford and Midland meet to-night at Midland, with six goals each now to their credit. If Midland wins, St. Mike's will go to Midland on Wednesday night and Midland will play the collegians at the Mutual street rink Friday. If Stratford's champions, between the Northstars, St. Michael's will go to Stratford on Thursday night and the Middlets will come to Toronto on the following Tuesday.

GUELPH "PROS" BEATEN.

Toronto, Feb. 24.—If the Torontonians anticipated another walk-away in their game with the reorganized team at the Mutual street rink Saturday night they were fooled. The Royals are a much improved team, and will give the other members of the Ontario Pro League more or less trouble before the end of the season. Stratford's score, 10 to 7 in favor of the Torontonians, but there were stages of the game when things looked as if Guelph might pull out a victory. In fact, it was not until the last ten or fifteen minutes that the followers of the Torontonians felt any sense of security.

Guelph started fast, and soon had Toronto in the hole by 4 to 1. The locals got going, however, before quarter time, and tied the score. When the intermission was called the prospective champions were one goal to the good at 5 to 4. The Royals must have had instructions to check closely and hard, and not let the fast Toronto line get working. The local forwards were totally unable to develop the combination which went through and around Brantford, and were compelled to use the individual style of going. There was very, very little combination work at any stage of the contest. The checking was too close, the point players, C. Corbeau and Sanford, made many rushes the length of the ice, and the local man notched the last goal of the game in this manner.

Toronto—Tyner, goal; C. Corbeau, point; Young, cover-point; Morrison, rover; Lalonde, centre; Mercer, right; Ridpath, left.

Guelph—Booth, goal; Sanford, rover; F. Corbeau, cover-point; Wismer, point; Fyfe, centre; Cruot, right; Oulelette, left.

TOURNAMENT IN BRANTFORD.

Brantford, Feb. 24.—Arrangements are being made for a hockey tournament. This city the first week in March, when the four teams of the Canadian Professional League will be asked to play a series of games. The plan is to offer two purses of \$500 and \$300, and possi-

ly a smaller purse for the third team. It is thought that large crowds would be attracted from outside points.

KETCHELL WON.

"Twin" Sullivan Knocked Out at San Francisco.

San Francisco, Feb. 24.—Stanley Ketchell, the Montana middleweight, surprised a big crowd at Colma on Saturday when he knocked out Mike (Twin) Sullivan, of Boston, in the first round. The men were matched to fight 25 rounds at 134 pounds for a share of the gate receipts, and Ketchell was a two to one favorite just before he entered the ring. Three successful battles with Joe Thomas served to place Ketchell out of his opponent's class, so a majority of experts expected to see him win, though not in big time.

Both men had trained hard for the mill, and were in splendid physical trim when they shook hands. Those who backed Sullivan believed that his experience and science would enable him to put up a stubborn battle, so that when he was beaten in a few punches they were ready to hail Ketchell as the coming middleweight champion.

When the gong sounded the men shook hands, and then sparred lightly. Ketchell tried a stomach blow, but missed. Then with terrific power he swung his right arm, catching Sullivan on the chin, sent the Boston man to the floor. It was a shock, for the spectators were in an uproar of excitement. Sullivan took nine seconds before he got up, and was clearly dazed when he got his hands up again. Ketchell jumped in with another heavy right hand than landed on the jaw, and down went Sullivan again in a heap. He was game, though, and after taking the limit, he arose in a groggy condition. Ketchell rushed him to the ropes, landing a storm of blows on Sullivan's head. Then he shot a great drive straight to the pit of the stomach and Sullivan doubled up like a jackknife, collapsed, writhing in agony. He was counted out, and Ketchell was declared the winner.

James Cofforth, the promoter of the battle, said afterwards that he would hang up a purse for a fight of 25 rounds between Ketchell and the winner of the Hugo Kelly-Bill Papke mill, which will be decided in Milwaukee on March 6.

AUSTIN SCORES KNOCKOUT.

Port Arthur, Feb. 23.—Vernon Austin knocked out Paddy McClintch in the fifth round last night. It was Austin's fight in every round, knocking McClintch down several times. In the fifth Austin landed on McClintch's jaw, flooring him. McClintch got to his knees and received a swing on the jaw that put him out. In the preliminary Kid Grant knocked out T. Atkins in the third round.

A FISTIC CARNIVAL.

Spokane, Wash., Feb. 24.—Frank A. Smith, of Spokane, who raised a fund of \$100,000 among mining operators and business men in Spokane and the Coeur d'Alenes last spring to put on a week's carnival of fights, in which the foremost heavy, middle and lightweight battlers in the world were to compete for purses of \$50,000, \$30,000 and \$20,000 is on the way to Los Angeles to see "Jim" Jeffries, with the view to induce the big fellow to re-enter the arena against Johnson or a man to be selected.

Smith says: "The \$100,000 fund for the

big fight still goes, though it may be we will have battles in four classes instead of three. The plan is to bring Jeffries and Johnson or another man in the class together, or match Burns and Johnson for the heavyweight championship. That is the purpose of my visit to Los Angeles. If the deal is made the purse for a fight between Gans and Nelson, McFarlane and Unholz will be \$20,000, similar amounts being offered for battles between Attell and Moran and Ketchell and Papke.

BANKERS BATTED.

Drummers Pitched in Great Style on Saturday.

In the "Big Three" baseball League series on Saturday afternoon at the Y. M. C. A. gymnasium the Bankers defeated the Travellers by a score of 34 to 14. The batting of the Bankers was the feature of the game. Wilson, the Drummers' pitcher, did not get as good support, however. The team seemed to lack its accustomed ginger, and with the exception of Tracy, Whitney and Eddie Dore, the team played in a listless manner. The Bankers were in great form. Their base running was also good. They made every inning a batting bee, and in the fifth and ninth innings they piled up eight runs each time. The teams were:

MAN CAN ENDURE MORE THAN THE BRUTE.

Tom Eek, the old-time trainer of athletes, skaters and bicycle riders, has this to say about training: "When I began training horses, my father told me always to let my horses have green grass every day, and I'd never have a horse go wrong. I made it a rule, and I never did have a horse get out of shape under my handling. When I began training men, I thought the same idea ought to work. In the old days they used the old English vegetables, much rare meat and any amount of dry, stale bread. It was stale bread three times a day, and ale to drink instead of water. Scores of athletes died of fever simply on account of that diet."

"I switched from that idea, gave my men plenty of fresh vegetables, whatever meat they wanted and no stale bread. The result was that none of the men I handled went stale or became fever dried. I let them have ice cream and good clear water. Good water never hurts any athlete. "Look at the way a trotting horse can repeat, running ten or twelve heats in a day, and all within three seconds or so of the same time. It's a matter of condition. A man has to take the endurance of a horse. Man is the strongest animal in the world. In six days a man can run a horse to death. "If you could take your athletes and shut them up in box stalls, feed them within five minutes of the same time every day and give them nine hours a night of undisturbed sleep, work them under the supervision of men as smart as the men who train horses and then send them out to compete, you'd have the greatest record-breakers in the world, and they'd be able to go out and repeat as often as you wanted them to."

Hamilton Juniors Were Victorious.

At Toronto on Saturday night the Hamilton Y. M. C. A. basketball team III. won the junior Canadian championship, defeating the Toronto West End team 38 to 31 and winning the round by 32 points. George, and many other representative citizens will take part in the opening of, not only the second annual C. B. A. tournament, but the opening of the newly-formed Canadian Bowling Club, as well. Twelve miniature balls will be rolled simultaneously down each of the twelve drives by the above named gentlemen at 8 p. m. sharp, and at 8.30 o'clock the five-man teams, scheduled to roll will take their allotted places on the alleys, and the tournament, which will last over a week, will be a reality.

est class programme of the season was presented at City Park on Saturday, with the Martha Washington stakes, worth \$1,500 to the winner, as the star attraction. Schreiber's Miss Highland, by Sain, ridden by L. Smith, won all the way from Corrigan's Anne Magee and After All, the latter an added starter. Jack Atkin settled all doubts regarding his ability to carry weight in the six furlongs handicap. The big son of Sain was a 3 to 5 favorite, and, with 145 pounds, he simply made a show of his company, and won easing up with four lengths to the good.

SHORT ENDS.

Little Paragraphs of Sport From Far and Near.

Wellington, N. Z., Feb. 24.—Webb and Treasurer decide the world's sculling championship Tuesday. The betting favors the former. Arst, the New Zealand slinger, challenges the victor.

A western paper states that Boston's drafted pitcher, Barney Joy, is a native of Honolulu, but not a Kanaka. As a matter of fact, Barney is not even a native of the islands for his birthplace is a little town near Montreal, and he was taken to Honolulu when a small boy. Joy wants \$4,000 for the season, \$400 advance money and a return ticket from Honolulu. That settles Mr. Joy's case.

New York, Feb. 24.—Both the American and National Baseball Leagues will meet in New York this week. The principal business before both leagues will be the adoption of the playing schedules for the summer. At the National League meeting, it is said, President Pulliam will take a stand on the black list resolution adopted last fall at the meeting of the National Association.

THE AIR IS BLACK.

A Remarkable Discovery by a British Scientist.

New York, Feb. 23.—The world publishes to-day the following special cable from London: Frederick Hovenden, a prominent English scientist, claims to have photographed the ethereal waves of heat and electricity, which are invisible, of course. He says they are a fluid which, properly illuminated, becomes visible to the naked eye and can be cinematographed. He fills a square glass box with tobacco smoke, put his finger through a hole in the side and turns on a powerful electric lamp. Then, he says, he sees the ether issuing from his finger and permeating the tobacco smoke. The ether escapes from his finger even when it is covered with a tight-fitting rubber cap.

Hovenden also demonstrates that the air we breathe is coal black in color. He illuminates powerfully and microscopically enlarges by many diameters ordinary air issuing from a hole in a glass box. Then the black molecules forming the air can be seen.

SUICIDE AT MONTREAL.

Young Man After Taking Poison Turns on the Gas. Montreal, Feb. 23.—Tired of life at the age of 22 years, Francois Xavier Cadaret killed himself early this morning by first swallowing strychnine and then jumping into bed and turning on the gas jet. He left a note, written on an envelope, addressed to his sister, stating that this was the third time that he had attempted to kill himself, and that he sincerely hoped he would be successful.

No reasons whatever were given for the rash act, but it is thought that the young man had been disappointed in love.

SHEFFIELD'S WAY.

No Approval There of Methods of the Suffragettes.

London, Feb. 23.—A Sheffield newspaper has taken a referendum of the women of Sheffield on the subject of woman suffrage to the question, "Are you in favor of having the suffrage?" The vote was 9,001 for and 14,652 against. On the question "Do you approve of the methods of the suffragists?" the vote was: Yes 3,664; No, 17,924. In many cases the canvassers were supposed to be agents of the suffragists, but were turned away with contempt and the voting papers indignantly torn up, unread.

CHANGES IN LIQUOR ACT.

Manitoba Legislature Makes Some Important Amendments.

Winnipeg, Feb. 23.—The Legislature on Friday made further changes in the bill restraining the liquor traffic. A vote on local option, or the repeal thereof, may be taken annually on twenty per cent. of the resident electors of any municipality petitioning for it. No bar-room shall have more than two doors, nor shall there be any stairway or other means of communication with the basement or cellar.

SOCIETY SHUNS CASTLE.

Theft of Crown Jewels Has Left Its Effects.

Dublin, Ireland, Feb. 23.—Many English fashionables, both in the nobility and out of it, come her each year to enjoy the gaieties of the Castle season, which begins this week and will last until St. Patrick's Day. But this year the court of the Viceroy, the Earl of Aberdeen, is rigorously boycotted, not only by the English, but by the Irish aristocracy, and the season threatens to be a flat failure. There is only one reason for this, of course—the scandal surrounding the theft of the Crown jewels from Dublin Castle.

West Victoria Conservatives have nominated Mr. S. J. Fox, M. P. P., for the Legislature. A number of American capitalists have agreed to erect a \$800,000 plant at Campbellford to manufacture steel plate if the town grants certain concessions. Winnipeg Grain Exchange will stop trading in futures on account of the legislation passed by the Legislature, and there is talk of moving to Fort William.

ON VERGE OF AN OUTBREAK.
Portuguese Government Folds One Plot to Overthrow It.
London, Feb. 24.—The Lisbon correspondent of the Daily Mail, telegraphing by way of Madrid, refers to the many sensational reports of plots to overthrow the Government. He says there was undoubtedly a reactionary plot by the followers of former Prime Minister Franco, with the object of causing public riots, which would give an excuse for the resumption of repressive measures. The coup was planned to occur on Thursday night on Friday. It was almost successful. An armed crowd assembled in the streets, but the authorities, realizing that a conflict with the troops was part of the reactionary intrigue, confined the soldiers to their barracks and thus averted trouble.
Windmill Severs Arm.
Avon, Feb. 23.—Thomas Burdge was the victim of a distressing accident to-day, by which he will lose an arm. He was fixing the windmill eye and a half mile east of here, when his arm was caught and nearly severed. He hung for some time before help arrived.
