The trotting races at the Provincia Exhibition on Wednesday and Thursday last were the best ever witnessed in this Province--indeed in the Maritime Provinces. In the 2.35 class on Wednesday a magnificent field of twelve horses faced the wire and not one of them was distanced in the first heat. The free for-all was a the first heat. The free for-all was a Lydiard, (Lydiard).... 4 2 1 5 4 1 record breaker. On Wednesday a Minota, 2.23 1, J. R. new Maritime record of 2.20\(\frac{3}{4}\) was

The 2.28 class also put up a splendid race. Doonie, J. A. Leaman, That the competition between the trotters in the different races was extremely close may be seen from the 2,211, 2.191. fact that it took seven heats to decide in the free-for-all and in the 2.35 class, and six heats in the 2.28 class. After the sixth heat in the 2.35 class Pandiet Jr., M. Trenholm, Aman exhibition running race of half a Minnie, Jas. McLeod, Summile was given by Topsy, a mare by Mr. P. S. Elmira Fallway

Last Friday night, Sept. 17th. a large audience assembled in the St. Columba; Hall, shortly after the appointed hour, for the purpose of renewing the agitation for a branch railway to Elmira, On motion Mr. Patrick Mc-Innis was appointed chairman and the

undersigned secretary. The first speaker to address the meeting was A C McDonald, M. P., who gave thanks for the invitation extended to him. Although the notice was short he put all other matters aside to attend the meeting so as to take part in discussing a subject of so much importas it is more needful than any railway

to any section. He assured the meet ing that he would assist as far as possible in promoting the claims of this much needed Public Work, John McLean Esq. was next called upon. He very ably pointed out that the diff-rent regimes had not built a that might be called their own. It was the duty, therefore, of every person ir-

respective of party to work hard for the Eastern Branch. He felt confident if Sir L. H. Davis was convinced of the feasibility of building a road to Elmira -as there is scarcely a hill to be met with from here to Elmira-that he would send the engineers to this section at once so as to get an idea as to the cost of construction. He positively believed, if the claims were rightly presented, that Sir Louis would exert himself in obtaining the road

Thomas Kickham, Esq., said that the people of this section were more entitled to a branch railway than any S and 9 o'clock on Saturday night, for a other part of P. E. Island as the sections of country that have received and will shortly receive a branch have have not. He urged upon all to continue the agitation until we get the

road to the east. Lauchlin McDonald, Esq. was pleas: ed to see so many assembled for such a laudable purpose, and to see both why the claims of East Point were always admitted to be strong, viz:—such a large extent of country deprived of

communication with shipping centres; the cheapness of constructing a branch ountains of Glendale, twenty miles from to the east, and the value and extent of the productions. He firmly believed had the matter been represented as clearly by the people of East Point as by those of Murray Harbor and Belfast, that we too would have a survey of this eastern route. He suggested a committee be appointed to draw up, re solutions to be presented to Sir L. H. Dovies, who, he felt sure, would do more in pressing our claims than any other man sent to Parliament from this Province, occupying as he does such an exalted position in the Parliament of Canada. Rev. A. J. McIntyre urged that practical steps be taken in instructing the delegation that would wait upon Sir Louis, so as to impress upon him the necessity of this branch. He claimed if it were constructed it

would not only be profitable for the people of this section but the Island Railway as well. The speakers were unanimous in the entiment that the time had come when the electors of this section should throw all party politics aside and unite in securing this Eastern branch. The

following resolution, which was pro-posed pnd seconded, was carried unan-Resolved, that a committee be apointed by this meeting to draw up resolutions to be presented to Sir Louis H. Davies, Minister of Marine and Fisheries, to impress noon him the ne-

cessity of constructing a branch railway On motion the following gentlemen were appointed as delegates to wait on Sir Louis; Thomas Kickham, Laughlin McDonald, and John Campbell, Es-
