Room 9. Burns Block

To the Electors of Ward No. 1.

Ladies and gentlemen: As it seems to be the general desire that I offer myself as a candidate for the position on the city council recently vacated by Mr. Ramsay, I have decided to accept. I may say that I am favorable to a strict enforcement of all our laws with absolute impartiality. I think that a commission should be appointed whose duty it would be to have charge of the administrative department of the city's affairs; that this commission should be composed of the best men available, and that the ybe allowed to act as independently of the city council as would be consistent with the idea of responsible government.

I am favorable to the principle of the municipal ownership of all public utilities and would consent to no dealings with any private individual which in my opinion jeopardised that principle.

The future growth of Calgary as a manufacturing centre depends almost solely upon our ability to furnish cheap power and every legitimate effort should be used to accomlish this end.

I thank those who have honored me with their confidence and if elected I will do my utmost to serve the ward and the city, conscientiously and well. Yours Truly

COMPANY, Ltd. Phone 80. 1st Street W.

To the Electors of Ward I.

Ladies and Gentlemen:

Having been requested by a large number of the business men of Ward 1 to allow my name to be placed in nomination for the vacancy in this ward, and being persuaded that it is the desire of the majority of the ratepayers that I should accept the nomination, I have decided

I appreciate the honor done me by those who have asked me to become a candidate, and I only desire to say that if elected I shall do all in my power towards the economical and intelligent handling of the city's finances, never losing sight of the fact that a first class modern asset is at all times worth its legitimate cost.

Extending the sewage and water systems as rapidly as possible, the making of good and permanent streets, I believe to be a great necessity for the upbuilding of the city, and one of the best advertisements any city can have.

The future growth of Calgary as a manufacturing and distributing centre depends largely on our ability to furnish cheap power, and it therefore becomes the duty of the council to use every effort to provide the same, and as quickly as possible, to the end that we may more firmly establish the supremacy which so justly belongs to Calgary, by virtue of her geographical position and natural resources as being the great industrial centre in Western Canada.

There are many questions of public interest that might be touched upon at this time, yet all I desire to say is that if honored with your confidence you can at all times depend on finding me a supporter of honest and consistent government, and a staunch advocate of anything which in my opinion tends to build up a Greater Calgary, and confirm her position as the commercial centre of the great west

I am, yours faithfully,

J. G. RUTTLE.
