The High Testimony

Of hundreds of druggists affords convincing proof of the great merit of Nerviline in all painful affections. F. R. Melville, druggist, Prescott, writes: "My customers who have used Nerviline speak highly of it. I am satisfied it will take a leading place in the market." This expresses the universal verdict, and if you are suffering from any painful affection, internal or external, give Nerviline a trial and immediate relief will be as certain as the sun shines. Nerviline is a powerfully penetrating pain remedy. Sold by dealers everywhere.

Inebriety a Disease.

The doctrine is still preached by some that drunkenness is simply a social vice which a man can overcome by force of will. It is as rational, from a medical point of view, to treat drunkenness by expostulation pledge signing, reproaches and legislation, as it formerly was to treat insanity by incantations, and the laying on of hands. A fair enumeration of the signatures of total abstinence pledges and of the succeeding relapses into drunken ways, has always demonstrated the fallacy of attempting to deal with Inebriety other than as a disease. On the other hand, the records of Lakehurst Institute prove conclusively the soundness of the theory underlying their treatment and emphasize its superiority over all other known methods of reclaiming alcohol's victims. The disease, for such it is, is treated scientifically and always successfully. Lakehurst Institute, Oakville, was the first and is the only successful Institution in Ontario employing the Double Choride of Gold Toronto office, 28 Bank of Com-

Jerry Flanmigan, who had been one
of the persons, but whose name was
struck off the information, gave evidence which corroborated that of the other witnesses who had seen Fields led out and taken to the corner.

Dr. Waugh, of London, who made the post-morten examination, swore that the cause of death was inflammation, occasioned by exposure a week previous to the man's demise.

The counsel then addressed the court

The defense might, he said, be able to explain that Fields had been exposed subsequently, or the crown might not be able to prove that it was the exposure on the night in question which had been the actual cause. Where, however, death had resulted eight days after such an incident and exposure was the cause, there was fairly good room for the presumption that it was attributable to this, and he regarded it as sufficient to commit on. He made some very strong remarks about the absolute necessity of stamping out any attempt at mob violence The law was strong enough and sufficiently well administered to deal with all cases of crime. LAMBETH.

Lambeth, April 3.—The gentle spring has been somewhat rudely disturbed in these parts. A number of farmers have been engaged in the sugar bush, but the sudden reappearance of old winter has put an end to the work for a time. It is said by the knowing ones that several good runs of sap will yet be had. The delay causes no little disappointment to the small boy, who was anticipating fine weather and sugar for his Easter holidays.

School closed on Thursday night for Easter. The holidays extend to Tuesday, rather shorter than was expected, the new school law not having taken effect as yet. On Wednesday promotion examination com-

lowed them down stairs, but they shut mences in the public school. The Royal Templars propose celebrating their first anniversary on Sunday, April 26. THE COMING MARRIAGE. Archbishop of Canterbury, assisted by the Bishops of London and Winchester, will officiate. There will be a procession in state from Buckingham Palace to St. James' Palace and the Chapel Royal, and as the distance between the two places is very short, many thousands of people will be disappointed in their hopes of witnessing the pageant. However, everything possible will be done to give her Majesty's subjects as good a view as possible of the pageant. The Queen will take part in the ceremony, the streets and the park and the Mall joining the palaces will be held by the Horse Guards, Life Guards, Grenadier Guards, Scots Guards, Coldstream Guards, and other crack regiments, and, if the weather permits, there will be a gathering of Londoners about the palaces seldom seen nowadays. After the wedding there will be two breakfasts at Buckingham Palace, one for the members of the royal families in the state dining-room, the other in the state ball-room for the general company. Only near relatives of the families are coming to London from the continent for the occasion, so the royal breakfast will be quite a family affair and a most enjoyable one a Princess "Harry," as Maud is that. known, will have eight pepularly bridesmaids; her sister, Princess Vic-toria of Wales; Princesses Ingeborg and Thyra of Denmark, sisters of the groom; Princess Victoria of Schleswig-Holstein; Princess Beatrice of Saxe-Coburg and Gotha; Princess Alice of Albany; and Princesses Ena and Victoria of Battenburg. The Prince of Wales has taken Appleton House, on the Sandringham estate, for Princess Maud and her husband, and the young couple will spend four months there every year, according to the present programme.

POPULAR MARTIAL SPIRIT. There has been an unusually strong turning out of the British Volunteers for the Easter maneuvers this year. In fact, at no time since the formation foe has there been such martial spirit displayed in England. There is no doubt that this large muster of volunteer soldiery is one of the results of the recent war scares; but, it is also the Ship Hotel, Greenwich, which will partly attributed to the fact that the popular commander-in-chief of forces, Lord Wolseley, regards their efforts in a much more serious light than his predecessor, the Duke of Cambridge. The latter, a stiff-necked soldier of the old school of stocks and pipeclay, Brown Bess, flogging and other army abominations, looked with almost contempt upon the British volunteer and sighed for the days of the old regulars of the Crimea, etc, but Lord Wolseley, more up to date, though not up to the continental standard of a modern general, is quite a believer in the volunteers. He frankly acknowledges that, in case of an invasion of Great Britain, they would prove of immense service; therefore he tends greatly to better their arms and equipment, the improved Martini-Henrys now being discarded by the regulars will be placed in the hands of the volunteers as quickly as possible, and the latter, in due course of time, will be armed with the new Lee-Metford rapid-fire magazine rifle. Better quarters in many cases will also be as signed to the volunteers, their work at the targets will be greatly encouraged, and, in short, Lord Wolseley will do all in his power to encourage the volunteers in their outings, which in future, it is hoped, will be more in the nature of practical tests of their powers as coldiers than of the capacity to enjoy picnics, which has been the case in the past.

"ROYAL MAUNDY." The usual "Ancient Royal Charities," designated as "Royal Maundy," took place on Maundy Thursday, in Westminster Abbey. The number of recipients is governed by the Queen's age; thus, last year 76 men and 76 women received the royal alms. This year, 77 men and 77 women (Her Majesty being 77 years old) joined in the procession which was formed at about 1 o'clock in the nave and passed into the choir. At the head of the procession was the gorgeously clad, though picturesque,

It is a twostory structure of gray stone, Elizabethan in style, and in ornamentation severely plain. It is separated from the street by handsome iron gates, and the first floor of the building is guarded by a gigantic, gold-laced porter, and occuried by an army of clerks.
