tary condition is perfect. I have thoroughly studied the condition of America and there is little danger of an outbreak of the disease there, provided thorough cleanliness is maintained and sanitary precautions are adopted. With a complete inspection of all steamers arriving at American ports there is little danger of infection through travelers. One danger to America is the Canadian frontier. Canada has imported several epidemics of cholera and typhus fever from England, and might do so again. The greatest danger is in the importation of rags and the first and the firs

will shortly go to Russia to study the epidemic there. Dr. Virchow said that the choicera appeared to be localized in Russia at present, but it may appear here at any time. Concerning America, he said: "No one need tell your people that they must remove all dust and dirt and exercise the utmost cleanlines and that they will be all right." Dr. Hirseh said: "I had formed an opinion that the disease had changed its character, owing to the immunity of other places in spite of the constant recurrence of the disease in Italy and Southern France since 1883, but its rapid progress in Russia and its reported appearance in Northern France proves otherwise. I think that sooner or later it will attack all Europe. There is, however, little fear of an epidemic in Berlin, as the city's same, county Mago, Ireland, Sept. 25, lasses the man who killed the informer, James Carey, who was shot on board the steamer Melrose at Port Elizabeth. South Africa, by a passenger named O'Donnell. Similarly condition is perfect.
