A NEW COMBINE

Strong Talk of European Commercial Union Against the United States.

Vienna, May 14.—The Wiener Allgemeine Zeitung, which is sometimes inspired by the foreign office, prints an article under the caption of "The New Continental Blockade," in which the dangers of American industrial competition are discussed. It declares that the Americans are preparing a bold extension of the Monroe Doctrine, which "no longer means America for the Americans, but America and Europe for the Americans."

It recalls the warning of Count Goluchowski, the minister of foreign affairs, given three years ago, that the European countries would be compelled to unite in a blockade of American imports, and adds that various official circles in Germany and Austria are opening communications with agricultural and industrial firms with the view to discussing how European commerce can be best protected against American competition.

THE BRITISH POWER SHOWN

Premier Salisbury So Interprets Events of the War in South Africa.

Other Nations Will Beware of the Empire's Prowess—Report That Kitchener Will Burn the Veldt to Compel the Boers to Surrender.

London, May 14.—Prime Minister Salisbury, who has just returned from France, made a speech in London last night, in which he reviewed the benefits which he believed had resulted from the war in South Africa. He said: "It is a sad retrospect when we think of the number of young lives that have been quenched, the splendid hopes cut short and the amount of bloodshed in the war in South Africa. It is a grievous retrospect. Yet from it any suggestion of wrong on the part of the empire is absolutely absent. Indeed, there are circumstances which can make every lover of his country look back with exultation and gratitude upon the two years just passed. These circumstances have been able to show that the spirit of our countrymen has been as bright as at any other period in our history."

"When I was at the foreign office I used to hear not infrequently that our time had passed, that our star had set, and that we were living on the valor of those who had gone before. The war in South Africa has shown the strength of England, which was never more conclusively shown."

"There is no power in the world now but knows that, if it defied the might of England, it would defy one of the most formidable enemies it could encounter."

Subsequently the premier said: "If home rule had passed in 1893, what would England's position, with a hostile Irish government in Dublin, have been today? What would our position have been if we not only had to meet the Transvaal and the Orange Free State, but also an equally hostile Ireland on our side? We know now from our South African experience the danger of letting Ireland have a measure of independence. We know now that, if we allowed those who are leading Irish politics unlimited power of making preparations against us, we should have to begin by conquering Ireland and if we ever had to fight any other power."

KITCHENER'S LATEST SCHEME.
London, May 14.—According to a dispatch from Pietermaritzburg to the Daily Mail, Lord Kitchener is about to try a new plan of burning the veldt in order to compel the Boers to surrender.

THE BOERS DID NOT KNOW.
London, May 14.—At a banquet of the Cornish Association, held in London, Gen. Pole-Carew said: "At the beginning of the war, had the Boers fully realized their strength and our unpreparedness, we should have been driven into Durban and Cape Town, and we would have presented the spectacle of reconquering South Africa from the sea coast."

CAMPS FOR BOER PRISONERS.
Hamilton, Bermuda, May 14.—The British Government has rented Tucker's and Morgan's islands to be used as detention camps for Boer prisoners. Active preparations continue at Darnley's Island, obtained for the same purpose, where camps are being arranged.

CANADIAN SOCIETY IN PRETORIA.
Ottawa, May 14.—A circular has been received in the city from Pretoria, South Africa, containing the notice of the calling of a meeting for the purpose of discussing the formation of a Canadian society, having as its primary object the erection of memorial tablets over the graves of the deceased Canadian soldiers, and for other matters of a social nature. Mr. Howard C. Symmes, of Aylmer, Quebec, who sends the notice, says that the meeting was held and there were fourteen present.

REPLY OF CHINA TO THE POWERS

She Might Pay Indemnity in Thirty Years.

Cable Communication Between Tachi Fu, Tsing and Shanghai Interrupted.

London, May 14.—Dr. Morrison, wiring to the Times from Peking, May 10, says the Chinese plenipotentiaries are drafting a reply to the ministers of the powers, expressing astonishment at the amount of indemnity demanded, and urging a reduction on the ground of the empire's financial difficulties, but undertaking, if the full amount is exacted, to pay in thirty annual installments of 15,000,000 taels from the likin, salt tax and native customs. Pending a revision of the tariff, they also ask the powers to consent to an increase of the maritime customs and the import and export duties by one-third.

The Commercial Cable Company has issued the following notice: "We are advised that the cables between Tachi Fu and Tsing Tau and Shanghai are interrupted."

CHINESE BLUE BOOK.
London, May 12.—The foreign office has issued a Chinese blue book, bringing up the negotiations of December. The cable mistake by which Mr. Conger was instructed to agree to the conditions imposed on China being irrevocable forms the basis for almost a score of dispatches.

DEATHS OF A DAY

Demise of the Man With the Musical Heart.

Elgin, Ill., May 14.—Robert B. Brown, "The man with the musical heart," whose melodious pulsations had for years furnished him a living and physicians a subject for much fruitless speculation, died at the Sherman Hospital here today, of pneumonia. A post-mortem examination revealed the fact that Brown's heart was four times normal size.

New York, May 14.—James Frederick Goddard, trunk line commissioner, and formerly vice-president and general manager of the Atchafalaya, Topeka and Santa Fe railroad, died of pneumonia yesterday at his home in Brooklyn, age 59 years.

Bangor, Me., May 13.—Prof. David Shephard Holman known throughout the scientific world as the inventor of Holman's slides, which are extensively used by microscopists, is dead. Prof. Holman was a member of the academy of national science of Philadelphia. He was born in 1826.

TO VISIT ENGLAND

Premier George W. Ross Will Take a Business and Pleasure Trip.

Toronto, May 14.—Premier Ross yesterday announced that he would visit England on a trip, combining business with pleasure. He will sail by the Dominion Line on July 3, and will return early in September. He will visit Hon. Joseph Chamberlain, secretary of state for the colonies, and intends to confer with the imperial authorities with reference to the establishment of a remount station in Ontario, and on other matters in which the province is interested. The trip is, of course, intended to combine with such public duties as can be discharged at the same time.

The announcement of Mr. Ross disposes effectually of the statements made every now and then that an election would be held this summer.

RAILS SPREAD—TWO MEN KILLED.

New Orleans, May 13.—Spreading rails caused the southbound Illinois Central fast mail from Chicago to jump the track today on a curve near Hazlehurst, 30 miles south of Jackson. Two persons were killed and two were injured. The dead are: C. E. Rose, of Fulton, Ky., mail clerk, and Thomas Lee, fireman.

The census of South Australia shows the population to be 362,536, an increase during the last decade of 13 per cent.
