# A HITCH IN THE RESUMPTION OF WORK AT MARKLE'S MINES

## REFUSE COMPANY'S CONDITIONS

What the Employers Have to Say-Engineers and Firemen Have a Grievance.

Hazelton, Pa., Oct. 24.-The employes of the G. B. Markle & Co.'s colleries, and the men working at the different mines of Coxe Bros. & Co., voted last night to continue on strike until the conditions under which they are to be taken back by these firms

One of the officials of Coxe Bros. & Co., said today: "We insist that all the men formerly employed at our mines who went on strike shall apply to the respective foremen as individuals if they wish to return. If we have room for them and they committed no acts of violence during the strike they will be taken back with the understanding that the non-union men must not be molested. Every man who struck is considered by us as having left our employ and that is why we will not resume operations by permitting the men to return to work in a body."

At Silver Brook colliery, operated by J. S. Wertz & Co., the men must also make applications as individuals before operations are resumed.

ANOTHER GRIEVANCE. Chicago, Oct. 23. - President Morton, of the International Association of Stationary Engineers and Firemen, stated today that all members of the association all over the country will be ordered to refuse to handle anthracite coal until every member af-fected by the anthracite strike is re-instated on the basis on which the miners returned to work. The Bro-therhood has a membership of 14,000, and local unions in 114 towns and

President Morton declares that his organization is in a position to shut ard coal out of all cities where it has local unions, and such action will be taken, if necessary, for the protec-tion of members of the union who have lost their positions on account of the anthracite strike. This is President Morton's view of he situation: "According to all reports from the eastern mines, our men are getting the worst of it, while

firemen and engineers in quitting work helped materially to win the fight. Although it is true a majority of the firemen are members of the Miners' Union, because they were forced to that organization, they have retained their membership in our union, and have already asked for our assistance. We propose to give it to them, and I ecutive board, when action will be am going to call a meeting of the extaken looking to that end.

FRICTION MAY WEAR OFF. Wilkesbarre, Oct. 24.-As was to be expected there was more or less dissatisfaction among the old employes over the reopening of the mines yes-Where it was decided in a number of cases not to resume work for a few days the men took it that the coal companies did not want their services, and many complaints reached President Mitchell's headquarters. But as the day wore on and the true situation became known there was a better feeling all round. Until all the collieries do resume there will be more or less idle men airing their discontent. The firemen are being taken back in larger numbers than any of the other steam men. That is because they are experienced, and they take the places men who are not so capable. The

the miners objected to being lowered into the mines by non-union engineers. NON-UNION MEN QUIT. Scranton, Pa., Oct. 23. - The nonunion man was a scarce article around the collieries this morning. The companies did not dismiss the men that had worked during the strike, but with the stockade living quarters gone and the almost impossible task of securing boarding houses confronting them, the imported non-unionist packed up and left for other and more congenial

only friction reported between union

Thirty-five non-union men left the Raymond washery in a body today because of the closing up of the stockade living quarters. At about half the col-lieries practically full forces of men were put to work. At all, except a few, a portion of the men were sent

Falls of roof, which blocked roadways, were responsible in most cases for only a part of the force being re-employed. These falls can be cleared up in a few days. Every chamber that could possibly be worked was opened up. With the exception of the Hallstead, which has been abandoned, and the Sloan and Central, where new switches are being laid, all the Delaware, Lackawanna and Western col-

lieries made a start. Supt. Tobri said that he knew of no instance of a man being refused work, but was not prepared to say there were no such instances. Those whose places were not open for them were offered

vote of thanks was tendered W. Hamilton, treasurer, for gratuitous services. "Our Needs," was the subject of a talk by J. A. Jackson, B.A., general secretary. More liberal giving, closer union between all branches of the work

and better trained teachers were the principal needs advocated. Mr. F. W. Merchant, M. A., principal of London Normal School, discussed the question, "How Far Can the Methods of Secular Schools be Applied in Sunday School Work?" He thought the Sunday school could profitably follow the methods of the public

schools in nearly every way. The study of Acts was taken up by Rev. Elmore Harris, B.A., after which the session adjourned.

At the evening session the programme, after a service of devotional exercises conducted by Rev. D. R. Drummond, consisted of talks on the subjects: "The Mind of the Child," by F. Tracy, B. A., lecturer in philosophy in Toronto University, and "What Interest Has the Business Man in the Sunday School?" by Mr. N. W. Rowell, K. C., Toronto.

CLOSING SESSION. Thursday morning's session of the Provincial Sunday School Convention was slimly attended upon opening, but when the conference began later on the body of the church was well filled. The nominating committee reported through its sercetary. The report was received and adopted. The following officers were elected: President, Rev. George W. Webb. Toronto: vice-presidents, Hon. Washington, Oct. 24.-The members of the strike arbitration commission

appointed by President Roosevelt met

at the White House shortly after 10

o'clock this morning and went into conference with the President. E. E. Clarke, president of the Order of Railroad Conductors, was the first member of the commission to arrive. Bishop Spalding, accompanied by Dr. D. J. Stafford, of this city, was the next to put in an appearance. Gen. Wilson, who arrived a moment later. Secretaries-W. E. Tilley, Ph.D., and was followed by Thomas H. Watkins and Commissioner Wright, the recorder of the commission. Then came E. W. Parker, the mining expert. Judge Speculations as to Who Will Be Mine Gray, of the United States circuit court, was the last member to reach

the White House. With his arrival the commission was complete. Several of the members had never before met. The introductions were transferred from this city to Montreal, made in Secretary Cortelyou's office, where the Premier went this morning, and immediately thereafter the com-mission ascended the stairs to the Pre-

sident's reception room. GREETED BY ROOSEVELT. The President greeted the members of the commission cordially. The interview was brief. The work to be done by the commission was informally discussed. The President impressed upon the commission the importance of expedition, and informed them that he had decided to appoint two assistants to the recorder to facilitate the work. He then presented to them their in-

structions, as follows: "White House Washington, D. C. "Oct. 23, 1902.

Ottawa, Oct. 23.-The center of political interest has been temporarily accompanied by Lady Laurier. From Montreal Sir Wilfrid goes to Quebec, and will spend Sunday at his country home in Arthabaskaville. His visit to Montreal and Quebec is doubtless connected with the choice of a successor to Mr. Tarte. Hon. James Sutherland is acting minister of public works, and it would not be surprising if the portfolio of that department, for the present at any rate, were committed to his care. Mr. Sutherland's administration of the marine and fisheries department has been progressive and practical, and he has won golden opinions from the shipping interests by his promptness in carrying out improvements for rendering still more safe the navigation of Canadian waterways, especially on the River and Gulf of St. Lawrence. Should Mr. Sutherland go to the public works department, the new minister would seemingly be given the
