which at last appears to be making considerable headway.

The teachers of Delaware and Lambeth Townships held their semi-annual convention at Lambeth recently. The president, J. H. Scott, opened the convention with a short address. The afternoon was given over to the reading and discussion of papers, which were practically and interestingly handled. The president read an excellent paper on "Euclid," which was followed by a paper on "Penmanship," by Miss Bacchus. Miss Mills took the next topic, "Composition," and Miss Duncan read a paper on "School Libraries." The election of officers followed. It was moved by Mr. Calvert, seconded by Miss Mills, that the presiding officers remain in the same offices for the ensuremain in the same offices for the ensu-ing year. On motion a vote of thanks extended to the wardens of the Lambeth Methodist Church for courtesies extended in the preparations for the convention

HARRIETSVILLE.

Harrietsville, Nov. 18 .- A large and appreciative audience assembled at the lit rietsville on Friday evening last, when Miss Ethel M. Marsh B.E. Ralstone University, Washington, D., made her initial appearance in an elocutionary entertainment. The highly favorable impression which she made will assure her of an enthusiastic reception on futures occasions. She was well assisted by Miss Edith E. Harrier, B.E., of Pennsylvania; Mrs. Luther L. Yorke and Miss Cora P. Jackson, of Gladstone, and Miss Grace Edwards, of Nilestown. In Scene V., Act H.. "Romeo and Juliet," Miss Harrier as the morres water. Miss Harrier, as the nurse, gave a most effective interpretation, and Miss Marsh made a charming Juliet, also scoring a great success in the "Telephone Ro-mance." "The Minuet" was gracefully done and well received, and probably the best of her efforts in the varied pro-gramme was the concluding number, a pantomime, "Holy City," given with very fine effect. In every way it was a most successful evening.

Conference of Iron and Steel Men.

Toronto, Nov. 19 .- A largely attended meeting of iron and steel manufacturers and allied lines of Ontario and Quebec was held yesterday in the rooms of the Canadian Manufacturers' Association. President Fred Nicholls was in the chair, and among those present was George Drummond, of the Drummondville iron mines, who is also interested in the smelter at Kingston. The object of the meeting was to discuse the changes that have been proposed by individual manufacturers in the fron and steel tariff, in response the circulars of the Canadian Manufacturers' Association. The idea is, if possible, to reconcile the various suggestions that have been made, and agree upon a schedule that will meet the wishes of all the manufacturers. It is understood, however, that no common line was laid down as a result of the meeting.

General Joubert's silver-fitted jaunting car, which was captured in South Africa, is now at Woolwich Arsenal. | died Tuesday morning.

LIVED A JEKYLL AND HYDE LIFE

Philadelphia Lawyer.

Revelation Came at Last When He Was Arrested for an Old Embezzlement.

Cincinnati, Nov. 19 .- A New York special to the Inquirer says: Freely admitting his identity, as Frank C. Marrin, who was a bright young lawyer and rising politician when he fled from Brooklyn eight years ago, accused of obtaining what was said to have been \$30,000, but which Mrs. Caroline Barry, his former friend and victim, now says was nearly \$70,000, a man years as Judge Franklin Stone, and who was recognized in New York Saturday, asserts his entire ignorance of the crime with which he is charged.

He declares the culprit was the chief clerk in his law office, on whom all the duties devolved because he himself was so engrossed with horse racing that he slighted his business. This clerk, whose name he refuses to divulge, was in ill-health, and when he was thought to be dying he confessed his sin to Marrin, first extracting a A new ferry dock is being built on the Windsor side of the Detroit River.

EVIDENCE OF TWO SIDES IS HEARD

Duplicity of a Bright Young Mr. Davis Again a Witness Before Tobacco Commission.

A GAMBLER POSING AS A SAINT DEALERS ALSO ON THE STAND

President of Concern Says Consignee Contracts Are Not Limited Provided Distribution Is Large Enough.

Montreal, Nov. 13 .- The greater portion of yesterday's sitting of the Tobacco Commission was occupied with the hearing of evidence adduced by the plaintiffs to show that since the coming into force of the consignee contracts of the American Tobacco Company of Canada and the Empire Tobacco Company, the business of inwho has lived in Philadelphia for eight dividual manufacturers had been injured, as such manufacturers had had difficulty in obtaining markets for their products. One witness testified that he had suffered a loss of threefourths of his trade, and another swore that he had been obliged to increase the number of his travelers in order to maintain the output of his factory; consequently, it was costing him more to distribute his goods than formerly. Dealers, who were not consignees of the tobacco companies named, had likewise experienced difficulty in obtaining such of these companies' goods as they required in connection with their business.

Mr. Mortimer B. Davis, president of the American Tobacco Company of Canada, and of the Empire Tobacco Company, who was on the stand when the court arose the previous evening, concluded his evidence, and deposed that consignee contracts, under which dealers received an extra commission for exclusively handling the goods of a particular firm, were known in many lines of business.

TESTIMONY OF MR. DAVIS. Mr. Davis was the first witness of the day, and being examined by Mr. Max Goldstein, for the plaintiffs, he produced a list of the consignees who had entered into the cigarette contract with the American Tobacco Company of Canada, and it showed that in 1895, the year in which it was first put out, it was signed by 96 persons; at the present time the sig-natures number 485. The document natures number 485. The document also contained a list of the firms who had signed the contract, and had afterwards withdrawn from it. Witness likewise produced a list of those who had signed the Empire Tobacco Company's agreement. It showed that 79 firms had signed it in 1900, 18 had signed in 1901, and 103 had signed during the present year, making a total of 200. It likewise showed the names of those who had withdrawn from the contract, as well as a list of those who had been notified by the company that it would not further

consign goods to them.

Examined by Mr. Fleming, witness said that the cigarettes were made in Canada, but were wholly manufacturfrom foreign leaf. He did not know of any jobborg or dealers who handled the cigarettes on the 2 per Any person could them on that basis, provided he was a large enough distributor. It would not do to make too many distributors out of that class, as they would take away business from the other consigness The company's wish was to encourage the use of Canadian tobacco, and in order to do that they gave prizes, coupons and contracts.

NOT AWARE OF DECREASE. He was not aware that the fiscal year ended June last showed a derease of manufactured products at liette and Granby. Inded, since business had increased threefold. The company still stored at Joliette, and was considering the question of reopening there.

never left his home until almost noon daily. At 7 o'clock he was back for dinner. He and his wife went driving had been removed to Granby. To issue exclusive contracts to protect the wholesalers was a common practice in other trades than the one he represent-Such contracts were used in the match, tanning, cordage, axe, scythe, Jekyll and Hyde for years, deceiving and edge-tool business, the rice business and the Force Food business. Of the persons mentioned in the Emoire Tobacco Company's list which he much so that once seen he would be had produced, and of the consignees of recognized instantly when met again.

Through the door of the house none passed whom he did not wish to see: and the others were tobacco jobbers. and the others were tobacco jobbers.
The jobbers or wholesale grocer not dare to seek him there; when the dealt with the retail trade, which, generally speaking, had no contracts with anybody. He thought that there would be about 25,000 or 30,000 retailers of tobacco in Canada, and so far as to the door to see some caller he he knew there was no contract which

> MR. LANDRY AS CONSIGNEE. Mr. Napoleon Landry, Montreal, stated that he was a manufacturer of Canadian cut tobacco, and he also sold packages put up by other manufacturers. When he first desired to become a consignee for cigarettes of the American Tobacco Company, there was a nuestion of the manufacture of cut tobacco, Mr. Davis saying that the company could not supply the cigarettes, as witness would be introducing his

CANCER ATE RIGHT CHEEK

A Distressing Case Completely Cured by the New Constitutional Treatment After Plasters Failed.

Cancer of the face is peculiarly dis-

tressing, not only on account of the suffering involved, but also because of the terrible disfigurement. The case referred to was one in which the right cheek was almost gone, having been eaten off by the disease and the plaster treatment, from the eye to the lower part of the jaw and back almost to the ear. Instead of helping the cure, the plaster extended the area of the tissue destruc-

When the New Constitutional Treatment was started, its beneficial results became apparent, the cancer ceased to spread, the tisues became healthy and commenced healing, till, in a comparatively short time, the ease was cured completely, and, we may say, permanently, for there has been no recurrence in the past three

A complete account of this case will be found in our book "Cancer, Its Cause and Cure," which will be sent to anyone on receipt of two stamps. A. STOTT & JURY, BOWMAN-

years.

INGRAM.

149, 151 and 153 DUNDAS STREET.

own goods at the same time as he was would be given communication of selling the tobacco company's. Mr. Davis would not accept him as a onsignee unless he ceased the manufacture of cut tobacco, but eventually he was allowed to become a consignee. and at the same time to sell cut to-bacco of his own manufacture. He was a consignee for two years, when he thought he could do better by sellthe goods of all manufacturers. After ceasing to be a consignee of the American Tobacco Company, he ing them from various people, as he could not get them from the factory. He requested to be supplied with them from the factory on the 2 per cent basis, but he could not get them. He had great difficulty in obtaining cigar-

continued to sell its cigarettes, obtainettes from the proper consignees of the tobacco company. He manufactured cut tobacco for Messrs. Gratton & Co., purpose of centralization that the business formerly carried on at Joliette had been removed to Graphy. The cut topacco for Messrs. Gratton & Co., but subsequently they ceased buying from him, as they had become consigness of the American Tobacco for Messrs. Gratton & Co., but subsequently they ceased buying from him, as they had become considered to Graphy. SAME BRAND ON MARKET.

He manufactured a brand of rouge and quesnel, and the tobacco company put a brand bearing the same name on the market, although his was already on. There was a good demand for the tobaccos of independent manufacturers, and he did not in the least regret having ceased to do business with the American Company. Examined by Senator Beique, K. C., witness stated that he manufactured Canadian tobacco only, his production of cut and roll being about 25,000 pounds a year. His trade was increasing each year. When he became a consignee of the American Tobacco Company, although he was not prohibited from selling his own and other cut tobaccos, he was only allowed to sell the company's cigarettes. His commission on the American Company's cigarettes, when he was consignee, was about \$100 a month, which would represent a sale of about 40,000 cigarettes a week. He preferred not to say from whom he was now getting the American Company's cigarettes. which he sometimes got at a discount and sometimes did not. He sold the brands of tobacco manufactured by the Empire Company, and he sold more of them than of all the other

brands put together. On reassembling after luncheon, Mr. Justice McTavish remarked that he had received by mail copies of resolutions passed by Wholesale Grocers' Guilds at London. Ont.: Toronto. Kingston and Hamilton. He intended to acknowledge receipt of them through Mr. Owens, secretary of the commission, and to state that the matters to which they referred would be mentioned in due course. He thought, however, that in the meantime, it would be well to postpone final action them until the investigation was actually over, but interested parties

Cook's Cotton Root Compound. Ladies' Favorite,
Is the only safe, reliable regulator on which woman can depend "in the hour and time of need." Prepared in two degrees of strength. No. 1 and No. 2. No. 1.—For ordinary cases

them.

MR. LEGAULT'S STATEMENT. Mr. O. W. Legault, manager of the tobacco factory at St. Laurent, where Canadian and combination leaf is manufactured into plug smoking and chewing tobaccos, stated that the firm fused to sell him any. His contract began to lose accounts in Ontario as soon as the agreements with the Emforce. Up to that time the firm's sales had increased regularly each year from the starting of the business. The carefully, the company having several the starting of the business. The firm also lost accounts with wholesale grocers in Montreal who represented the cream of the trade in this province. Nearly one-half of the firm's business was done with these people, and it had to double its travelers in this province and in the Maritime Provinces to try to keep up the sales

to what they were before. It consequently cost the firm more to sell its morning at 10:30 o'clock in the court goods than was formerly the case. Before the consignee agreements came force witness's business was a profitable one, and since then he had, perhaps, sold more tobacco, but he had to spend so much money to sell it, that the profit was swallowed up. If the contract system continued there would be no future for the manufacture of Canadian tobacco, and unless he could find some way of improving business, it would be perfectly useless to try and continue it at a

SELLS AT WHOLESALE RATE. Examined by Mr. Campbell, witness stated that his firm did not now sell to wholesalers in the Province of Quebec, but it did sell to persons in the province at wholesale rates. It did not sell to any in Montreal at these rates, but it did to a few in the pro-vince. The firm formerly dealt direct with the retailer in Montreal, but i did not do any business in this city now. The firm could supply all the demand there was for its goods, but it cost more to do so than was formerly the case. Its total production was over 160,600 pounds a year, and of that output about 80 per cent was plus tobacco and the remainder was cut. Mr. Isale Tetrault, manufacturer of Canadian tobacco, Montreal, said that until a year or two ago he distributed his goods in Montreal to jobbers and other dealers, but since the Empire Tobacco Company's contract came into force, he could not sell to the jobbers any more. The effect of this contract had been to diminish his business about three-fourths. Up to the time of this contract coming into force some of the best firms in Montreal were his customers, but he lost them then. Mr. C. de Cazin, manufacturer cigarettes and tobacco, testified the American and Empire Companies contracts had not affected his bacco business much, but they had affected his cigarette trade, and he found it very difficult to sell them outside of Montreal, on account of the con-

signee system. SYSTEM NOT PROFITABLE. The system of dealing with the retailers was not a profitable one, account of the cost of carriage and transfers, and the collecting of the accounts was an expensive matter. He had found that advertising his products did more harm than good, be-cause when the retailers tried to obtain them from the wholesalers they could not do so, and the supposition was that the articles were not good, and were not saleable. Mr. A. Roy, wholesale and retail dealer and tobacco jobber, stated that

he was a consignee of the Empire Tobacco Company for plug tobacco. The American Tobacco Company of Canada had asked him to become signee for cigarettes, but he had re-fused. He had been waging war against this company for a long time in cigarettes, and he was of opinion

that if he had been willing to come in on the contract, he might have got a horse and buggy to cease competition. He found it difficult to get the cigarettes that he needed in connection with his trade, consignees having apparently been forbidden to sell to him; in fact, a jobber told him so, and rewith the Empire Company called upon as the agreements with the Em-Tobacco Company came into tobacco, but he had no undertaking with regard to cut tobacco. The peo-

agents looking after its trade. Examined by Mr. Campbell, witness said that he had only had the contract with the Empire Company about two months. He could not say whether the demand for Canadian tobacco was increased year by year. The commission then rose for the day, and will resume its sittings this of appeals.
