CANCER GAINING. EXPERTS STATE

Dr. E. S. Judd, Mayo Specialist, Addresses American Association.

FORMS DESCRIBED

Special to The Advertiser by a Staff Correspondent. Chicago, June 13.—Cancer is gain-ing ground, in spite of the determined battle of physicians and scientists against it. This was the opinion of Dr. Edward Starr Judd of the Mayo clinic, delivered at today's session of the annual convention of the

American Medical Association The discussion was opened by Dr. Francis Carter Wood, New York, who told of the newest researches in at-tempts to produce cancer experi-mentally in animals. It was found that repeated painting with tar would produce cancer fairly easily in the white mouse, with great difficulty in the rabbit and white rat, and hardly at all in the guineapig. Cancer and sarcoma had been produced in cer-tain instances by the use of anima parasites. It was his belief that heredity played a relatively small part in the production of cancer in
