MUST DEMAND SERVICE.

Up to the present writing, so far as the Graphic has, been able to learn, there has been no definite promise of the restoration of the suburban service between Campbellton and points east. True several letters have been received promising consideration but that is not satisfying.

Campbellton must have this service. It is a pure case of discrimination against our town and we, as citizens, must stand up for our rights.

We are not asking for an extensive train service, but feel sure that any service which will allow residents from east to come into Campbellton during the forenoon and return home the same evening will be satisfactory.

The suggestion has been made that one of the new type of enotor cars in operation in Ontario might be tried out here and we feel sure it would be a success.

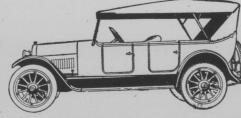

The service between Campbellton and Jacquet River must be a paying one, and we are sure that we, the citizens of Campbellton, are within our rights in demanding that the service be restored.

But the loud talk of our Board of Trade or articles in the newspapers

Performance heads the list of essentials of those who actually drive the car. Ruggedness of chassis that spells dependability; engine power and flexibility that result in quick acceleration, plenty of speed and rare pulling and climbing ability—these are inherent in Oldsmobile

This touring car brings to the family all the comforts of a very high grade automobile at a cost that the man of average means can comfortably afford. And the moderate investment price is enhanced by the very low cost of

Monday the police rounded up two auto speeders. Each of these were fined \$8 and costs.

fined \$8 and costs.

On Monday night the police took into custody a man who was loitering about the streets and refused to give a satisfactory account of himself. A fine of \$5 and costs was imposed upon the costs.

#### Census for School Board

The BOARD OF SCHOOL TRUSTEES are engaging a Census taker, who will visit all the homes with a view of ascertaining the number of children within the Town limits. It is needless to say that the School Board asks for the co-operation of all families in the supply of this information. The taker will be a lady, and we ask you to treat her with the same courtesy that you would the Board, and kindly give all the information asked. It is only to be used for the purpose of making our School system in the Town more efficient and for no other purpose, and for this reason we look for the co-operation of all the citizens in the Town. This census taker will call upon you in the immediate future, and at such an hour as the heads of the families will be at home. We ask you to be prepared for her visit.
