Russia's Hopes and Aims.

London, Aug. 3.—The frank statements In Russian papers that the Zulficar pass matter will be kept open until the English elections are over have increased the feeling that war is inevitable, and the steps which the government are taking to get ready for it receive unanimous assent. The appointment of Gen. Roberts to Indian control is hailed even by the radical papers as admirable, and the statement that an entrenehed camp is to be forthwith constructed in the Peshin valley is generally welcome. The Russian papers confess dismay at El Mabdi's death, as giving Lord Salisbury a freer hand in Central Asia, and the Novoe Vremya fully expresses the hope that Russian diplomacy will find a way to prolong the English embarrassment in Egypt. the Detectives Cannot Get Him. DUBLIN, Aug. 3.—Farquharson, the defaulting manager of the Munster bank has been traced to Leith, and it is now supposed that he has sailed thence to Morway, where he would be beyond the reach of extradition laws. Inquiry shows that he took with him between \$50,000 and \$75,000 in cash and negotiable paper. He had lost heavily in the speculations on the London stock exchange. Farquharson, at the time of the collapse of the bank, was engaged to be married to the daughter of a rich and well-known Dublin brewer. The wedding day was fixed for the end of Angust

LONDON, Aug. 3.-The St. James Gazette voices general public opinion in severely criticising the Archbishop of Canterbury, Cardinal Manning and the bishop of London for acting as a volunteer bishop of London for acting as a volunteer committee to aid in advertising the filth of the Pall Mall Gazette. It claims that by their silence regarding its rhetoric, which not one of them would dare to read from his pulpit, they sanction an obscene use of the press, and claims that they also failed to rebuke the "scoundrel who narrated his own little experiments on virtue and his successes." Public opinion everywhere asks what becomes of the pretence that the legislature aids the rich to debauch the poor when the lords three times passed a remedial bill, and the commons, who are supposed to be the poor man's friends, have so far failed to do so. The ecclesiation have greatly lost the confidence of the public and their friends.

From the Chicago News. Notwithstanding that American ships in the coasting and lake trade are protected to the point of full prohibition of foreign competition, while the coasting trade of Great Britain and a few other countries is free to all, there is probably no property in the country or the world at present in such a condition of deep depression as that

comprised in our lake marine.

A convention of those interested therein has been suggested. Owners aver that there are altogether too many grain vessels in commission, notwithstanding that we are in the midst of harvest; that we should are in the midst of harvest; that we should be on the eve of large shipments of the new crop, and the old crop is overflowing our public granaries. But, unfortunately for owners of ships, there is scarcely any export demand for the enormous stocks of wheat in store in this and other lake cities. Consequently the only alternative, in view of decreased exports, presented to the minds of owners is to lay up a certain reproceing of their ships. Some put the proportion of their ships. Some put the number of vessels that could be profitably spared from the trade at fully one third of the whole.

Hugh Conway's Last Works.

From the Boston Herald.

Mesars, Tillotson of Boston have from Mrs. Fargus the MSS. of three unpublished short stories found among the papers of the late "Hugh Conway." The longest and most ambitious is entitled "The Story of a Sculptor." Some time prior to his death Mr. Fargus had agreed to write a six months' serial for Messrs. Tillotson, to appear in newspapers published simultantously, at home and abroad, but this arrangement was broken by his sudden death.

*Well, sir, did you write this outrageous article?" thundered Campbell, as he places of amusement in the city bear mourning emblems. There is but a single exception to this rule among the Broadway theatres. The work of draping Wallack's was yesterday completed. It is one of the most tasteful and uniquely draped buildings in the city. The iron and stone work of the entrance is completely concealed by the well-designed emblems. There is a happy union of blue and gray in the draping of three large pillars.

"Well, sir, did you write this outrageous article?" thundered Campbell, as he put on a look of terrible rage.

"Yes, I wrote that article," calmly replied the small editor.

"Then, sir, we demand that you apologate and retract what you have said, instantly," said Campbell.

A QUESTION OF MORALS.

DISCUSSION IN PARLIAMENT ON ORIMINAL AMENDMENT.

One result of the debate will be the appointment of a committee of inquiry as to the charges of corruption among the police—particularly as to the charge that they are regularly bribed not to interfere with immoral houses. In proof of the statement that parcels of English girls are shipped to France for immoral purposes, the Pall Mall Gazette publishes a letter from the Rev. Mr. Brock, Vicar of Winchester, stating that the girl, Rosina Marks, mentioned in one of the Gazette's interviews as having been one of a number of girls shipped to Bordeaux now lies buried in the village churchyard. She returned in June last to her mother's house in a dying condition and lived but four days after her arrival. The vicar saw her during her last hours, when she confessed to having lived a life of shame after reaching France. To her mother she said: "I have seen things worse than what must be in hell itself."

DINDAS, Ont., Aug. 3.—A man named the body of Jennie Edwards, who has been missing from her home on Sydenham street here since last Friday evening, was found floating in the canal by Mr. Norton. The deceased was only 17 years of age, and worked in Leonard's knitting mill. On Friday night she received her week's wages and said she desired to keep part for her private use. This the family sternly objected to. Jennie threatened to drown herself. As she didn't turn up on Saturday morning her friends, fearing that she had fulfilled her rash threat, went to the canal and discovered her hat floating. Even then they fancied this was but a ruse. The finding of the body this morning by Mr. Norton put an end to doubts as to the unfortunate girl's end.
